

Agenda – Y Pwyllgor Deisebau

Lleoliad:	I gael rhagor o wybodaeth cysylltwch a:
Fideo gynadledda drwy Zoom	Graeme Francis – Clerc y Pwyllgor
Dyddiad: Dydd Mawrth, 23 Mehefin 2020	Ross Davies – Dipwrwy Glerc 0300 200 6565
Amser: 09.00	Deisebau@cynulliad.cymru

Yn unol â Rheol Sefydlog 34.19, mae'r Cadeirydd wedi penderfynu gwahardd y cyhoedd o gyfarfod y Pwyllgor at ddibenion diogelu iechyd y cyhoedd. Bydd y cyfarfod hwn yn cael ei ddarlledu'n fyw ar www.senedd.tv

- 1 Cyflwyniad, ymddiheuriadau, dirprwyon a datganiadau o fuddiant
(Tudalennau 1 – 48)
- 2 Trafod deisebau gyda 5000 o lofnodion
- 3 Deisebau COVID-19
 - 3.1 P-05-964 Dylid ymestyn absenoldeb â thâl a chymorth ariannol a ddarperir mewn ymateb i Covid-19 i staff cronfa GIG Cymru
(Tudalennau 49 – 68)
 - 3.2 P-05-967 Annog LIC i ddiwygio ei pholisi ar ryddhad ardreithi annomestig i helpu gadw siopau Debenhams ar agor
(Tudalennau 69 – 80)
- 4 Deisebau newydd
 - 4.1 P-05-952 Dylid mynd yn ôl i sillafu enwau lleoedd Cymraeg yn y ffordd Gymraeg
(Tudalennau 81 – 88)

4.2 P-05-961 Gostwng yr oedran ar gyfer sgrinio canser y fron yng Nghymru o
50 i 30

(Tudalennau 89 – 94)

4.3 P-05-963 Dylid ei gwneud yn ofynnol i archfarchnadoedd roi unrhyw fwyd
sydd dros ben i elusennau

(Tudalennau 95 – 104)

5 Y wybodaeth ddiweddaraf am ddeisebau blaenorol

Amgylchedd, Ynni a Materion Gwledig

5.1 P-05-801 Rhaid achub y coed a'r tir yng Njgerddi Melin y Rhath a Nant y
Rhath cyn iddi fynd yn rhy hwyr

(Tudalennau 105 – 110)

5.2 P-05-815 Rheoli'r Diwydiant Dofednod Dwys Sy'n Ehangu'n Gyflym yng
Nghymru

(Tudalennau 111 – 130)

5.3 P-05-895 Etifeddiaeth Rosa Dylid cyflwyno cynllun i helpu pobl i gael hawl i
ofal milfeddygol ar gyfer eu hanifeiliaid anwes

(Tudalennau 131 – 136)

5.4 P-05-933 Gwahardd pysgod aur rhag cael eu rhoi i ffwrdd mewn ffair.
#OperationGoldfish

(Tudalennau 137 – 142)

5.5 P-05-941 Cylch gwaith bioamrywiaeth ar gyfer Cyfoeth Naturiol Cymru

(Tudalennau 143 – 149)

Iechyd a Gwasanaethau Cymdeithasol

5.6 P-05-804 Mae angen cyllid Llywodraeth Cymru ar gyfer chwarae!!

(Tudalennau 150 – 154)

5.7 P-05-831 Rhowch ddiwedd ar yr annhegwch a'r gwahaniaethu yn y cymorth
ariannol a roddir i ddioddefwyr sgandal gwaed wedi'i heintio yng Nghymru

(Tudalennau 155 – 157)

5.8 P-05-905 Galw am Ymchwiliad Barnwrol Annibynnol i ad-drefnu
gwasanaethau o fewn Bwrdd Iechyd Cwm Taf

(Tudalennau 158 – 176)

5.9 P-05-936 Cynnig Prawf Sgrinio Canser y Coluddyn ar ôl 74 oed

(Tudalennau 177 – 190)

Addysg

5.10 P-05-862 Mynd i'r afael â bwlio mewn ysgolion

(Tudalennau 191 – 194)

5.11 P-05-880 Mae Cymru yn prysur golli ei henw da o ran cerddoriaeth, a'i
threftadaeth

(Tudalennau 195 – 198)

5.12 P-05-925 Addysgu Llesiant Mislifol mewn Ysgolion Peidio â Gadael Cymru Tu
Ôl

(Tudalennau 199 – 202)

5.13 P-05-938 Gwneud i brifysgolion Cymru ystyried Bagloriaeth Cymru fel Safon
Uwch

(Tudalennau 203 – 205)

Tai a Llywodraeth Leol

5.14 P-05-871 Trefnu bod cyfleusterau newid cewynnau ar gael mewn toiledau i
ddynion a thoiledau i fenywod

(Tudalennau 206 – 207)

5.15 P-05-898 Dylid gwahardd defnyddio byrddau A yng Nghymru

(Tudalennau 208 – 211)

Economi a Thrafnidiaeth

5.16 P-05-913 Creu Llwybr Amldefnydd Lôn Las Môn

(Tudalennau 212 – 219)

5.17 P-05-918 Gwella mynediad i'r anabl yng ngorsaf reilffordd Trefforest fel
blaenoriaeth

(Tudalennau 220 – 224)

Mae cyfyngiadau ar y ddogfen hon

P-05-964 Dylid ymestyn absenoldeb â thâl a chymorth ariannol a ddarperir mewn ymateb i Covid-19 i staff cronfa GIG Cymru sy'n agored i niwed a staff sy'n feichiog

Cyflwynwyd y ddeiseb hon gan David Adam Clarke, ar ôl casglu cyfanswm o 174 lofnodion.

Geiriad y ddeiseb:

Mae'n bosibl na fydd staff cronfa GIG Cymru sy'n agored i niwed, sydd angen cael eu diogelu neu sydd wedi bod yn feichiog am gyfnod o dros 28 wythnos yn elwa ar yr un cymorth ariannol na'r un mesurau diogelu ag a ddarperir gan fyrddau iechyd i staff amser llawn y GIG. Mae rhai o staff cronfa GIG Cymru, fel cynorthwywyr iechyd, nyrsys a bydwragedd ac eraill, wedi bod yn gweithio yn y GIG ers blynnyddoedd, a dyma yw prif ffynhonnell eu hincwm.

Mae'n bosibl y bydd staff cronfa sy'n agored i niwed neu'n feichiog yn wynebu dewis rhwng gweithio neu beidio ag ennill cyflog, a hynny ar yr amod bod gwaith amgen yn cael ei gynnig iddynt beth bynnag.

Os gwelwch yn dda, cefnogwch staff cronfa'r GIG.

Gwybodaeth Ychwanegol

Mae Deddf Cydraddoldeb 2010 yn gwarchod pobl agored i niwed rhag gwahaniaethu (o dan y pennawd anabledd), yn ogystal â phobl sy'n feichiog neu ar gyfnod mamolaeth.

O dan Ddeddf Iechyd a Diogelwch yn y Gwaith 1974, yn ogystal â Rheoliadau Rheoli Iechyd a Diogelwch yn y Gwaith 1999, mae'n rhaid cynnal asesiadau risg mewn perthynas â staff cronfa'r GIG mewn perthynas ag argyfwng Covid-19. Mewn sefyllfaoedd lle nad oes modd i'r staff cronfa dan sylw weithio, neu lle na ellir cynnig gwaith arall iddynt, mae'n bosibl y bydd y staff hynny yn cael eu gadael heb incwm.

Yn y cyfnod digynsail hwn, dylai Senedd Cymru, GIG Cymru a'r byrddau iechyd perthnasol ymestyn cymorth ariannol a mesurau diogelu i staff cronfa'r GIG. Ar hyn o bryd, mae'n bosibl y bydd staff cronfa'r GIG yng Nghymru yn wynebu dewis rhwng gweithio neu aros gartref heb gymorth ariannol.

Ymestyn absenoldeb â thâl a chymorth ariannol a ddarperir mewn ymateb i Covid-19 i staff cronfa GIG Cymru sy'n agored i niwed a staff sy'n feichiog

Y Pwyllgor Deisebau | 23 Mehefin 2020
Petitions Committee | 23 June 2020

Cyfeirnod: RS20/12730-2

Rhif y ddeiseb: P-05-964

Teitl y ddeiseb: Dylid ymestyn absenoldeb â thâl a chymorth ariannol a ddarperir mewn ymateb i Covid-19 i staff cronfa GIG Cymru sy'n agored i niwed a staff sy'n feichiog

Geiriad y ddeiseb: Mae'n bosibl na fydd staff cronfa GIG Cymru sy'n agored i niwed, sydd angen cael eu diogelu neu sydd wedi bod yn feichiog am gyfnod o dros 28 wythnos yn elwa ar yr un cymorth ariannol na'r un mesurau diogelu ag a ddarperir gan fyrddau iechyd i staff amser llawn y GIG. Mae rhai o staff cronfa GIG Cymru, fel cynorthwywyr iechyd, nyrsys a bydwragedd ac eraill, wedi bod yn gweithio yn y GIG ers blynnyddoedd, a dyma yw prif ffynhonnell eu hincwm. Mae'n bosibl y bydd staff cronfa sy'n agored i niwed neu'n feichiog yn wynebu dewis rhwng gweithio neu beidio ag ennill cyflog, a hynny ar yr amod bod gwaith amgen yn cael ei gynnig iddynt beth bynnag. Os gwelwch yn dda, cefnogwch staff cronfa'r GIG.

Mae Deddf Cydraddoldeb 2010 yn gwarchod pobl agored i niwed rhag gwahaniaethu (o dan y pennawd anabledd), yn ogystal â phobl sy'n feichiog neu ar gyfnod mamolaeth.

O dan Ddeddf lechyd a Diogelwch yn y Gwaith 1974, yn ogystal â Rheoliadau Rheoli lechyd a Diogelwch yn y Gwaith 1999, mae'n rhaid cynnal asesiadau risg mewn perthynas â staff cronfa'r GIG mewn perthynas ag argyfwng Covid-19. Mewn sefyllfaoedd lle nad oes modd i'r staff cronfa dan sylw weithio, neu

Ile na ellir cynnig gwaith arall iddynt, mae'n bosibl y bydd y staff hynny yn cael eu gadael heb incwm.

Yn y cyfnod digynsail hwn, dylai Senedd Cymru, GIG Cymru a'r byrddau iechyd perthnasol ymestyn cymorth ariannol a mesurau diogelu i staff cronfa'r GIG. Ar hyn o bryd, mae'n bosibl y bydd staff cronfa'r GIG yng Nghymru yn wynebu dewis rhwng gweithio neu aros gartref heb gymorth ariannol.

1. Cefndir

Mae gwefan Cyflogwyr GIG Cymru yn nodi canllawiau i weithlu GIG Cymru mewn perthynas â'r coronafirws. Mae'r wefan yn cynnwys linc i ddogfen GIG Cymru - COVID - 19 (Coronafeirws) Cwestiynau Cyffredin i Reolwyr a Chyflogwyr y GIG (28 Mai 2020).

Mae'r wybodaeth isod, a gymerwyd o'r ddogfen, yn nodi rhai o'r telerau ac amodau gwasanaeth sy'n berthnasol i staff GIG Cymru yn ystod pandemig y coronafeirws.

Unigolion sy'n gwarchod neu'n hunan ynysu

Bydd unigolion sy'n 'gwarchod' neu sy'n hunanynysu yn cael eu categoriiddio fel pobl sydd wedi'u "heithrio'n feddygol" rhag gweithio. Yn yr amgylchiadau hyn dylid eu hannog i weithio os ydynt mewn sefyllfa i wneud hynny. Os yw rôl unigolyn yn ei atal rhag gweithio gartref, yna bydd hyn yn absenoldeb

Absenoldeb â thâl a chymorth ariannol a ddarperir mewn ymateb i Covid-19 i staff cronfa GIG Cymru sy'n agored i niwed a staff sy'n feichiog

awdurdodedig oherwydd yr amgylchiadau o eithrio meddygol. Fe'i telir yn llawn ac ni fyddai disgwyl iddo weithio'n ddiweddarach i wneud iawn am yr absenoldeb. Yn ogystal, disgwylir i unigolion gydymffurfio'n llawn ag unrhyw gyngor iechyd cyhoeddus.

Gweithwyr mewn perygl

Gall menywod beichiog fod yn arbennig o agored i niwed, ac mae gan gyflogwyr gyfrifoldebau ychwanegol i'w hamddiffyn. Wrth i'r sefyllfa fynd rhagddi, dylai cyflogwyr asesu risg yn rheolaidd a dylent drafod gyda gweithwyr beichiog a yw'n briodol eu symud i leoliad gwahanol, trefnu iddynt weithio gartref neu hyd yn oed eu symud o'r gweithle dros dro. Pa un bynnag, byddant yn cael tâl llawn. Mae'n hanfodol bod unrhyw gamau yn cael eu cymryd gyda'u caniatâd hwy ac, yn ddelfrydol, gyda chefnogaeth yr adran lechyd Galwedigaethol. Mae cyngor pellach ar gael gan [Goleg Brenhinol yr Obstetryddion a'r Gynaecolegwyr](#).

Dylid cymryd camau tebyg ar gyfer unigolion agored i niwed eraill, yn enwedig rhai sydd â gwrthimiwnedd neu sydd â chyflyrau tymor hir. Dylid cymryd [cyngor lechyd Cyhoeddus Cymru](#) o dan yr amgylchiadau hyn.

Os bydd unigolyn wedi cael llythyr gan Lywodraeth Cymru yn ei gynghori y dylai gael ei warchod am gyfnod o 12 wythnos, dylai cyflogwyr ymchwilio i ba waith y gall ei wneud gartref yn y lle cyntaf. Os yw rôl unigolyn yn ei atal rhag gweithio gartref, telir tâl llawn iddo ac ni fyddai disgwyl iddo weithio'n ddiweddarach i wneud iawn am yr absenoldeb.

Hunanynysu

Diystyrir unrhyw absenoldeb oherwydd hunanynysu er budd rheoli haint (ynysu yn y cartref) o ran yr absenoldeb cronus a'r trothwyon sy'n gweithredu o fewn y Polisi Rheoli Presenoldeb yn y Gwaith. Caiff yr absenoldebau hyn eu trin fel eithriad meddygol ac fe'u telir yn llawn.

Os bydd unigolion yn hunanynysu am 7 diwrnod â symptomau, bydd hyn yn cael ei ystyried yn absenoldeb salwch arferol ond bydd hefyd yn cael ei ddiystyr o ran absenoldeb cronus a'r trothwyon sy'n gweithredu o fewn y Polisi Rheoli Presenoldeb yn y Gwaith a bydd yr unigolyn yn cael tâl llawn fel y nodwyd uchod.

Cymryd amser i ffwrdd i ofalu am blentyn neu ddibynnydd sydd wedi cael ei gynghori i hunanynysu oherwydd ei fod mewn categori sydd mewn perygl

Mae gan staff hawl i amser i ffwrdd o'r gwaith i helpu rhywun sy'n dibynnu arnynt ("dibynnydd") mewn argyfwng neu ddigwyddiad annisgwyl. Byddai hyn yn berthnasol i sefyllfaoedd sy'n ymwneud â COVID-19 a gallai fod yn gyfuniad o amser i ffwrdd yn ôl yr oriau a weithiwyd (TOIL) / absenoldeb di-dâl / gwyliau blynnyddol.

O ran y cymorth tymor hwy ar gyfer yr amgylchiadau newydd e.e. cau ysgolion, dylid ystyried newid trefniadau gweithio.

Buddion marw yn y swydd

Mae Llywodraeth Cymru wedi cyhoeddi Cynllun Yswiriant Bywyd Coronafeirws newydd i ddarparu buddion i staff cymwys y GIG a gofal cymdeithasol sy'n cyflawni gwaith rheng flaen hanfodol yn ystod y pandemig.

Staff crona

Mae'r ddogfen **COVID - 19 (Coronafeirws) Cwestiynau Cyffredin i Reolwyr a Chyflogwyr y GIG (28 Mai 2020)** yn cynnwys y wybodaeth ganlynol sy'n ymwneud â staff crona.

Os bydd aelod o staff crona yn canslo sifft oherwydd yr angen i hunanynysu, caiff ei dalu am y sifftiau a archebwyd ganddo. Fodd bynnag, mae hyn at ddibenion rheoli haint yn unig ac o dan yr amgylchiadau hyn, dylai pob gweithiwr crona gydnabod y rhesymeg a'r bwriad y tu ôl i'r ddarpariaeth hon a pheidio ag archebu sifftiau lluosog gan wybod y gallai fod angen iddo hunanynysu.

Nid oes cyfeiriad penodol pellach at staff crona yn y ddogfen.

Gwneir pob ymdrech i sicrhau bod y wybodaeth yn y papur briffio hwn yn gywir adeg ei gyhoeddi. Dylai darllenwyr fod yn ymwybodol nad yw'r papurau briffio hyn yn cael eu diweddu o reidrwydd na'u diwygio fel arall i adlewyrchu newidiadau dilynol.

P-05-964 Extend covid-19 financial support and paid leave to vulnerable and pregnant NHS wales bank workers, Correspondence – Petitioner to Committee, 18.06.20

Dear Petitions committee,

I am writing to you to provide comments to support my petition to “Extend covid-19 financial support and paid leave to vulnerable and pregnant NHS wales bank workers”. Please let this email act as comments and support of this petition. I ask you to bear in mind that the NHS bank workers are nurses, hcas, doctors, midwives and carers who make up an estimated 8%-10% of the workforce & work directly for our NHS (as opposed to agency bank workers, who are employed privately at greater expense and are eligible for furlough support), many have worked for the NHS for years to find themselves out of contract and working for the bank as their sole income and if you or a loved one has ever found themselves being treated by the NHS in Wales, you will have been treated at some point by an NHS Wales bank worker.

Since writing this petition I can now confidently say that medically vulnerable and pregnant NHS bank workers in Wales are not granted any financial support where they cannot work due to medical conditions that before Covid-19 and lockdown would not have effected their ability to work, this includes those in shielded categories or where risk assessments dictate they cannot work; This is both due to replies I have, through politicians, received from health minister Vaughan Gething MS (please find attached) and through hearing from NHS bank nurses, midwives, HCA's et al. across Wales who are being deeply effected by this and facing great financial hardship. I also state that this petition and its cause is as important as ever, especially for those NHS wales bank workers in shielding categories, who for the past 3 months have received no financial support or income and face with the extension of shielding in Wales no prospect of income for themselves and their families until August. Not only have they had to endure financial hardship, but they also face having years of service to the NHS ignored by NHS wales and being discriminated against during this crisis due to medical conditions that previously would not hinder their ability to work, all whilst hearing the claps for the NHS who they are meant to represent.

Whilst private sector atypical workers, medically vulnerable or not, are eligible for the national furlough scheme whether they work for a healthcare agency, McDonalds, a sex shop or any other private business, the self employed have been supported through financial support schemes and grants, contracted NHS wales workers have been given financial support beyond the scope of their contracts in full paid leave and many healthboards in England have given medically vulnerable and pregnant NHS bank workers full paid leave based on average earnings, in Wales NHS bank workers get no financial support from NHS wales and are not eligible for any financial support schemes. The only thing that sets them apart from private atypical workers on 80% of their wages, and medically vulnerable or pregnant NHS England workers, is that they work for the NHS in Wales. I believe action needs to be taken now to remedy this issue.

Additional background:

The original background and cause for this petition is a personal one to myself although it will not have a direct impact on mine or my families predicament now. My partner has been in the third trimester of pregnancy from the onset of the coronavirus lockdown, has had open heart surgery in the past and works for the NHS bank, at a hospital for a Welsh health board. My partner for the past 5 years has worked for NHS Wales and having had her contract come to an end 3 years ago, following the closure of the ward she worked on, has found herself as many others working solely on the NHS bank at her healthboard in Wales, as her sole income.

At the onset of the Coronavirus crisis when it was first announced that pregnant women would be placed in a vulnerable category towards the end of march, my partner had shifts booked in advance until June and was advised by occupational health at her health board that she should stay at home and was also advised that she would be paid for all her shifts she had booked (around 60% of her usual earnings). 4 weeks later at the beginning of the easter holidays my partner was informed that this would not be honoured and it was her "choice" to return to work, she was also informed there were many others that has been wrongly promised financial support and it was her "choice" to work as per the terms of NHS wales bank. If she did not "choose" to work my partner would not be eligible for any financial support. Since easter Sunday my partner has worked in an alternative office role for NHS Wales, working when both her medically vulnerable or pregnant contracted counterparts in Wales have been granted paid leave and many medically vulnerable or pregnant NHS England bank workers have been given paid leave from the onset of the coronavirus crisis (we have both friends and family working for English healthboards). During much of the time she has been working during this crisis at over 28 weeks gestation, The Royal College of Obstetricians and Gynaecologists guidelines for NHS employers for much of this time has stated that pregnant workers over 28 weeks gestation should stay at home, along with this many of the contracted office workers for the NHS in wales along with politicians that were neither in 3rd trimester pregnancy or have medical vulnerabilities were given either paid leave or told to work from home. My partners pregnancy was also deemed a high risk pregnancy and was consultant lead. Whilst my partner has been fortunate in she has not gotten ill, has successfully given birth via C-section and has been able to still provide an income and enjoy the opportunity to help her colleagues during this crisis, many have not been as fortunate and cannot work.

Please view additional documents for context. I hope you look favourably upon this petition and I look forward to hearing back from you soon.

Kind regards,
David Clarke

Important information- Please find a link below to the guidance for English NHS health boards in regards to self-isolation and with reference to NHS bank workers:

<https://www.nhsemployers.org/covid19/staff-terms-and-conditions/self-isolation>

Please use this as a reference point to the different treatment of NHS bank workers in Wales compared to in England. If many of those NHS bank workers in Wales denied financial support due to self isolation as a result of being medically/clinically vulnerable or shielding worked for health boards in England, they would have been paid based on shifts booked and/or based on average earnings from the previous financial year.

Llywodraeth Cymru
Welsh Government

WRITTEN QUESTION
FOR ANSWER BY
THE MINISTER FOR HEALTH AND SOCIAL SERVICES
ON 13 MAY 2020

Mark Isherwood (North Wales): Will the Minister confirm whether health boards should pay bank nurse staff on zero hours contracts who have pre-booked their shifts but are unable to work them because they are in a vulnerable/shielding category? WAQ80106 (e)

Vaughan Gething: NHS Wales bank staff operate on flexible contracts – they can choose the shifts they work and, in a majority of cases, they work bank shifts in addition to their regular NHS shifts. The contract terms are made clear to people when they sign up to work under this service.

If someone working on the NHS Wales bank needs to self-isolate as they have coronavirus symptoms, they will be paid for the booked shifts.

16 June 2020

Dear Ken,

Thank you for your letter of 19 May on behalf of a constituent regarding income issues for pregnant and vulnerable NHS bank staff. I hope that you will understand that it is not appropriate for me to comment on individual circumstances. However, I would expect that the employing organisation undertakes the appropriate risk assessment to assess pregnant and vulnerable staff to take the necessary steps.

Bank and locum workers operate on flexible working hours where they are able to choose the shifts they work dependant on their needs. Therefore, as they have a flexible contract with no fixed hours they are not entitled to the same benefits of being employed with a regular contract such as occupational sick pay. This is made clear to bank workers when they sign up to work under this service.

However, the Welsh Government understands the situation and constraints that bank workers who have been asked to shield have found themselves in and we have asked health boards and trusts to look again at the circumstances whilst considering the employment relationship of bank workers and their employment status.

Should bank and locum workers wish to have the same benefits of being a contracted member of staff including the security of regular shifts, sick pay and holiday pay they may wish to consider applying for a contracted NHS position, this could be for all or some of the hours they would wish to be employed for. I understand that currently all NHS Employers are currently holding local discussion with their bank and locum workers to see how and if they would like to have contracted work going forward to have the same benefits as employees for those contracted hours.

I expect health boards and trusts to agree a position very soon that means that bank and locum workers who have been asked to shield by the Welsh Government do not find themselves in a worse off position than their bank and locum colleagues who are able to continue working during the pandemic.

COVID-19 virus infection and pregnancy

Occupational health advice for employers and pregnant women during the COVID-19 pandemic

Version 2.1: Published Monday 30 March 2020

Tudalen y pecyn 61

Summary of updates

Please note that version 1 of this occupational health guidance was published as a chapter in the RCOG's general Coronavirus (COVID-19) Infection in Pregnancy guidance. The occupational health guidance will now be published as a separate document given the audiences for each document are distinct. It is hoped that this will make it easier for all healthcare professionals to stay updated as new versions of each document are published in line with emerging evidence.

The occupational health guidance will continue to be referenced in the general Coronavirus (COVID-19) Infection in Pregnancy guidance.

Version	Date	Summary of changes
2.1	30.3.20	2.2: Update - Assessment of the risk of vertical transmission has been changed to 'probable', in line with a single case report published 26.3.20 that showed the first convincing evidence of COVID-19 being transmitted to the baby during pregnancy.

I. Introduction

Everyone in the UK is advised to follow guidance from the Government to lessen the spread of COVID-19. As of 23 March 2020, this has been updated to guidance to stay at home, with the exception of a limited number of circumstances, detailed [here](#).

However, for individuals in key professions, travelling to and participating in work remains essential in this national emergency.

For pregnant women in these key professions, and in particular for pregnant healthcare professionals, the following information may be helpful when discussing how best to ensure health and safety in the workplace with their occupational health teams.

2. Available information about risks of contracting COVID-19 in pregnancy

COVID-19 poses a risk to all members of the population, particularly to people with co-morbidities. The groups who appear to be at the lowest risk of developing severe disease are children and healthy adults. It is reassuring that there is as yet no robust evidence that pregnant women are more likely to become infected than other healthy adults.

2.1 Risk to pregnant women

It is known from other respiratory infections (e.g. influenza, SARS)^{1,2} that pregnant woman who contract significant respiratory infections in the third trimester (after 28 weeks) are more likely to become seriously unwell. This may also lead to preterm birth of the baby, intended to enable the mother to recover through improving the efficiency of her breathing or ventilation.^{3,4}

Given these additional considerations for pregnant women who become seriously unwell in the later stages of pregnancy, the Government has taken the precautionary approach to include pregnant women in a vulnerable group. This is so that pregnant women are aware of the current lack of available evidence relating to this virus in pregnancy; and particularly, to encourage awareness that pregnant women in later stages of pregnancy could potentially become more seriously unwell.

2.2 Risk to the baby

Currently, there is no evidence to suggest that COVID-19 causes problems with the baby's development or causes miscarriage. With regard to vertical transmission (transmission from mother to baby antenatally or intrapartum), emerging evidence now suggests that vertical transmission is probable. There has been a report of a single case in which this appears likely, but reassuringly the baby was discharged from hospital and well. In all previously reported cases, infection was found at least 30 hours after birth. The proportion of pregnancies affected by vertical transmission and the significance to the neonate is not yet known.⁴⁻¹¹

No previous coronavirus has been shown to cause fetal abnormalities; and, while COVID-19 is new, the absence of reports of an increased incidence of fetal abnormality at routine scans in Asia indicates this is likely to be the same for the novel coronavirus.

Although the evidence to date available offers no evidence of harm, it is not possible to give absolute assurance to any pregnant woman that contracting COVID-19 carries no risk to her baby and no risk to her over and above that experienced by a non-pregnant healthy individual. The information above combines the limited evidence from COVID-19 so far with evidence extrapolated from other similar viral illnesses. We are actively seeking more evidence and will update this guidance when this is available.

3. Recommendations for pregnant healthcare workers

In the UK, there already exist significant protections in law for pregnant workers. These must be followed in relation to COVID-19. NHS Employers should do everything possible to maintain the health of their pregnant employees. The central aspect of this protection is based on risk assessment of each individual pregnant worker's working environment and the role they play.

Acknowledging the evidence above and following discussion with the Government and UK Chief Medical Officers, the following recommendations should guide pregnant healthcare workers and occupational health teams in conducting this risk assessment.

3.1 Protection of all pregnant healthcare workers

In light of the limited evidence, pregnant women of any gestation should be offered the choice of whether to work in direct patient-facing roles during the COVID-19 pandemic. This choice should be respected and supported by their employers. Suitable alternative duties might include remote triage, telephone consultations, governance or administrative roles. This is in line with the national guidance that workers, including healthcare professionals, who are also identified by the Government as vulnerable to COVID-19 should be able to participate in their own risk assessment.

3.2 Choices for pregnant healthcare workers prior to 28 weeks' gestation

Pregnant women who choose to work in patient facing roles after occupational health risk assessment, prior to the third trimester of pregnancy, should be supported to do so by minimising risk of transmission through established methods.

It may not be possible to completely avoid caring for all patients with COVID-19. As for all healthcare workers, use of personal protective equipment (PPE) and risk assessments according to current guidance will provide pregnant workers with protection from infection. The arrival of rapid COVID-19 testing will significantly assist in organising care provision, and this guidance will be updated appropriately when such tests are commonly available.

Some working environments (e.g. operating theatres, respiratory wards and intensive care/high dependency units) carry a higher risk of exposure to the virus for all healthcare staff, including pregnant women, through the greater number of aerosol-generating procedures (AGPs) performed. These procedures are summarised in the PHE publication '[Guidance on Infection Prevention and Control](#)'. When caring for suspected or confirmed COVID-19 patients all healthcare workers in these settings are recommended to use appropriate PPE. Where possible, pregnant women are advised to avoid working in these areas with patients with suspected or confirmed COVID-19 infection.

3.3 Healthcare workers after 28 weeks' gestation or with underlying health conditions

For pregnant women from 28 weeks' gestation, or with underlying health conditions such as heart or lung disease at any gestation, a more precautionary approach is advised. Women in this category should be recommended to stay at home. For many healthcare workers, this may present opportunities to work flexibly from home in a different capacity, for example by undertaking telephone or videoconference consultations, or taking on administrative duties.

All NHS employers should consider how to maximise the potential for homeworking given current relaxation of [NHS Information Governance requirements](#), wherever possible.

Staff in this risk group who have chosen not to follow government advice and attend the workplace must not be deployed in roles where they are working with patients. Services may want to consider deploying these staff to support other activities such as education or training needs (e.g. in IPC or simulation).

These measures will allow many pregnant healthcare workers to choose to continue to make an active and valuable contribution to the huge challenge facing us, whether at home or in the workplace, until the commencement of their maternity leave.

1. Cefndir

Mae ardrethi busnes (a elwir weithiau'n ardrethi annomestig) wedi'u datganoli'n llwyr i Gymru ers mis Ebrill 2015.

Caiff ardrethi busnes eu cyfrifo drwy luosi gwerth ardrethol eiddo â lluosydd penodol a didynnu unrhyw ryddhad a allai fod yn gymwys i'r eiddo hwnnw.

$$\text{£} \quad = \quad \left(\begin{array}{c} \text{£} \quad \text{Gwerth} \\ \text{Bil} \quad \text{ardrethol} \\ \text{blynnyddol} \\ \text{ardrethi} \\ \text{busnes} \end{array} \right) \times \begin{array}{c} \% \\ \text{Lluosydd} \\ \textbf{0.535} \\ \text{yn 2020-21} \end{array} = \begin{array}{c} \text{£} \quad \text{Atebolwydd} \\ \text{blynnyddol} \\ \text{cyfraddau} \\ \text{busnes} \end{array} \right) - \begin{array}{c} \text{Unrhyw} \\ \text{ryddhad ar} \\ \text{gyfer yr eiddo} \end{array}$$

Caiff gwerth ardrethol eiddo ei bennu drwy amcangyfrif faint o rent y gallai'r eiddo ei gynhyrchu bob blwyddyn ar y farchnad agored ar adeg benodol. Bydd Asiantaeth y Swyddfa Brisio (VOA) yn asesu gwerth ardrethol yr holl eiddo annomestig yng Nghymru a Lloegr.

Caiff hyn ei luosi âr 'geiniog yn y bunt' o'r gwerth ardrethol a dalwyd mewn ardrethi busnes, a [chaiff.hyn.ei.bennu.gan.Lywodraeth.Cymru](#) bob blwyddyn. Caiff unrhyw ryddhad cymwys sy'n berthnasol i'r eiddo ei ddidynnu o swm y bil ardrethi busnes terfynol. Y lluosydd a bennwyd ar gyfer 2020-21 yw 0.535.

Yng Nghymru, mae ardrethi busnes yn cael eu casglu gan awdurdodau lleol a'u talu i 'gronfa' genedlaethol a weinyddir gan Lywodraeth Cymru. Yna, cânt eu hailddosbarthu i awdurdodau lleol Cymru a Chomisiynwyr yr Heddyl a Throseddu fel rhan o'r Setliad Llywodraeth Leol a Setliad yr Heddyl bob blwyddyn.

2. Camau a gymerwyd gan Lywodraeth Cymru

Mae arderthi busnes wedi bod yn rhan o ymateb Llywodraeth Cymru i COVID-19 ochr yn ochr â [mesurau eraill](#), gan gynnwys grantiau i fusnesau cysylltiedig â gwerth ardrethol eiddo.

Ar [19 Mawrth](#), cyhoeddodd y Gweinidog Cyllid a'r Trefnydd becyn cymorth i fusnesau i'w helpu yn ystod cyfnod COVID-19. Cyn hynny, ar [17 Mawrth](#) cafwyd cyhoeddiad arall yn ymwneud â chymorth i fusnesau.

Mae hyn yn cynnwys rhyddhad ar dreithi busnes llawn (100%) ar bob eiddo a ddefnyddir ar gyfer manwerthu, hamdden a lletygarwch. Bydd y cymorth ar gael am flwyddyn (2020-21).

Bydd y rhyddhad yn cael ei gymhwys o'n awtomatig i filiau ar dreithi busnes busnesau cymwys..

Diwygiwyd y cynllun ar **24 Mawrth** yn dilyn y cyhoeddiad i eithrio eiddo sydd â gwerth ar drethol o £500,000 a throsodd. Dywedodd **Llywodraeth Cymru**: "y bydd hyn yn effeithio ar lai na 200 o adeiladau ledled Cymru, ond bydd yn rhyddhau tua £117 miliwn i sbarduno'r gronfa argyfwng economaidd".

Mae'r **canllawiau** ar gyfer y cynllun yn cynnwys mein prawf cymhwysedd manylach, gan gynnwys enghreiftiau penodol o'r mathau o eiddo sy'n dod o dan y categori manwerthu, hamdden a lletygarwch.

Mae Llywodraeth y DU hefyd yn cynnig **rhyddhad ar dreithi busnes llawn i fusesau manwerthu, hamdden a lletygarwch cymwys** yn 2020-21. Nid oes **cyfyngiad ar werth ar drethol y rhyddhad**.

Mae Llywodraeth Cymru hefyd yn cynning mathau eraill **o rhyddhad ar dreithi busnes**, gan gynnwys:

- **Rhyddhad ar dreithi busnesau bach::**
 - bydd safleoedd busnes cymwys sydd â gwerth ar drethol hyd at £6,000 yn cael rhyddhad o 100%; a
 - bydd y rheini sydd â gwerth ar drethol rhwng £6,001 a £12,000 yn cael rhyddhad ar raddfa a fydd yn gostwng o 100% i sero
- bydd darparwyr gofal plant cofrestredig yn cael rhyddhad o 100% tan 31 Mawrth 2022, ac yn ystod y cyfnod hwnnw bydd yn cael ei werthuso er mwyn asesu ei effaith
- **Swyddfeydd Post:**
 - bydd Swyddfeydd Post sydd â gwerth ar drethol hyd at £9,000 yn cael rhyddhad o 100%
 - bydd y rheini â gwerth ar drethol rhwng £9,001 a £12,000 yn cael rhyddhad o 50%

- Gall prosiectau ynni dŵr sydd â gwerth ardrethol o hyd at £50,000 wneud cais am gymorth gydag ardrethi busnes 2020-21.
- Mae'n bosibl y bydd elusennau'n gymwys i gael rhyddhad ardrethi elusennol ac, os felly, byddant yn gymwys yn awtomatig i gael rhyddhad ardrethi gorfodol o 80%, a gallent fod yn gymwys i gael rhyddhad o hyd at 100% yn ôl disgrifiwn yr awdurdod lleol.
- Nid oes angen talu ardrethi busnes ar eiddo busnes gwag am 3 mis ar ôl i'r eiddo ddod yn wag. Mae eithriadau ychwanegol ar gyfer mathau penodol o eiddo, neu eiddo â gwerth ardrethol sy'n llai na lefel benodol.
- Gall awdurdodau lleol hefyd ganiatáu rhyddhad caledi i fusnesau os ydynt yn credu y byddai hynny o fudd i'r gymuned leol.

Yn ei llythyr at y Pwyllgor Deisebau, mae'r Gweinidog Cyllid a'r Trefnydd yn nodi:

The Welsh Government is providing non-domestic rates relief to the majority of Debenhams stores in Wales, with our support totalling over £1 million. I have also met the Chair of Debenhams to learn more about the company's position and I have asked officials to explore whether alternative support might be an option.

3. Camau a gymerwyd gan Senedd Cymru

Mae pandemig y coronafeirws, gan gynnwys cymorth i funsesau, wedi bod yn ganolog i waith Senedd Cymru yn ystod y pandemig.

Ar ôl iddi newid y cynllun, gofynnwyd i Lywodraeth Cymru, ar ffurf cwestiwn ysgrifenedig (31 Mawrth); "beth wnaeth y Gweinidog ei ystyried wrth ddewis peidio â gwahaniaethu rhwng cadwyni cenedlaethol a busnesau twristiaeth brodorol sydd ag un gyrchfan?". Ymatebodd y Gweinidog Cyllid a'r Trefnydd fel a ganlyn:

We estimate that the decision to limit non-domestic rates relief for retail, leisure and hospitality businesses to premises with a rateable value of £500,000 or below will affect fewer than 200 business properties across Wales. It has released more than £100 million towards the new Economic Resilience Fund announced by the First Minister on 30 March.

The Economic Resilience Fund will provide a package of support to help firms of all sizes, with a focus on those that have not already benefited from the Coronavirus funding previously announced by Welsh

Government. The package includes support for larger companies which are of critical social or economic importance to Wales.

Retail, leisure and hospitality businesses which are not eligible for the rates relief may make a case for support through the Economic Resilience Fund.

Ar 17 Ebrill, gofynnwyd i Lywodraeth Cymru, ar ffurf cwestiwn ysgrifenedig; "Pa esemtiau neu ryddhad ariannol y mae Llywodraeth Cymru yn bwriadu eu darparu i unrhyw fusnes sydd ag eiddo sydd â gwerth ardrethol sy'n uwch na £500,00?" Ymatebodd y Gweinidog Cyllid a'r Trefnydd fel a ganlyn:

The Economic Resilience Fund is providing a package to help firms of all sizes, with a focus on those that have not already benefited from the other Coronavirus business support schemes we have put in place.

The package includes support for larger companies which are of critical social or economic importance to Wales.

Yng nghyfarfod y Pwyllgor Cyfrifon Cyhoeddus (8 Mehefin) gofynnwyd i Gyfarwyddwr Cyffredinol Grŵp yr Economi, Sgiliau a Chyfoeth Naturiol yn Llywodraeth Cymru, i ba raddau roedd Llywodraeth Cymru wedi ystyried defnyddio ryddhad ardrethi busnes dewisol ar gyfer busnesau sydd â gwerth ardrethol o £500,000 a throsodd. Dywedodd y Cyfarwyddwr Cyffredinol:

...that's down to a case-by-case judgment. Ministers took the view, at the point that we were putting the NDR schemes into play, that there was an opportunity to fund more small and medium-sized enterprises and micro-enterprises through putting the £500,000 cut-off point in there... But it will be about the particular circumstances that the company in question faces—its strategic importance in a local economy or in a supply chain, the impact on jobs, and considerations of that sort, on a case-by-case basis.

Mewn ymateb i gwestiynau am hyn yng nghyfrfod y Pwyllgor Cyllid (21 Mai), dywedodd y Gweinidog Cyllid a'r Trefnydd:

So, the rate relief, as you'll know, is part of our support for the economy, which is £1.7 billion of support, and our support here in Wales eclipses anything offered anywhere else in the UK. We took the decision to limit rate relief to properties with a rateable value of under £0.5 million, and we did so recognising that there was an opportunity there to put

together a fund of £100 million to support small and medium-sized enterprises. But it didn't preclude those business with properties over that £0.5 million mark from seeking funding from the economic resilience fund. So, there's funding there for larger companies, and I know that several of them have made applications to that.

Soniodd y Gweinidog hefyd am Debenhams yn benodol, gan ddweud:

I did have a useful meeting with the chair of Debenhams. I think that we have to start, really, from the point of recognising that the troubles that Debenhams are facing started long before the coronavirus outbreak, of course; it's facing insolvency for the third time. So, I think that it is—. Well, it's just not credible to suggest that rate relief support from the Welsh Government is entirely responsible for the trouble that Debenhams finds itself in. But, that said, we recognise the important role that Debenhams plays in our high streets in a number of places across Wales, and, of course, Debenhams has benefited from the rate relief in several of its stores in Wales where the ratable value is less than £0.5 million. So, I met with the chair of Debenhams, and the suggested way forward was to make an application to the economic resilience fund, which, of course, is grant support for businesses. But, as part of that, I would want to see guarantees on jobs being retained and I would want to see that kind of commitment in the longer term to our town centres, which you just, I have to say, wouldn't get if it were just a matter of offering rate relief.

Gwneir pob ymdrech i sicrhau bod y wybodaeth yn y papur briffio hwn yn gywir adeg ei gyhoeddi. Dylai darllenwyr fod yn ymwybodol nad yw'r papurau briffio hyn yn cael eu diweddu o reidrwydd na'u diwygio fel arall i adlewyrchu newidiadau dilynol.

P-05-967 Welsh Government to amend its NDR relief policy to help keep Debenhams stores open in Wales, Correspondence – Interested Party to Chair, 17.05.20

Dear Janet

I am writing to you and Chair of the Petitions Committee to ask that the below petition is urgently considered for a full debate in the Senedd, now that it has reached more than 5,000 signatures. I have already written separately to all the Members of Senedd who represent my constituency of Newport East and South Wales East.

Welsh Government to amend its NDR relief policy to help keep Debenhams stores open in Wales

<https://petitions.senedd.wales/petitions/200008>

The Welsh Government's decision to cap business rate relief threatens a major and perilous blow for town and city centres like Newport, where I live.

Newport has experienced some positive regeneration in recent years, primarily linked to the Friars Walk development. As you may know, the anchor store in Friars Walk is Debenhams and I have been very worried to hear the news that Debenhams may not reopen its flagship Welsh stores as a result of the rate relief cap. If we were to lose that store it would leave a gaping hole in Newport city centre that no other retailer is likely to be able to fill, especially in the current financial climate. Being a small, compact city centre, Newport would feel the impact of the loss of a store like Debenhams in a catastrophic way. Unlike Cardiff, there is not a plethora of other large department stores and major retail shops for people to go to.

I urge you not to underestimate the significance of a store like Debenhams in a place Newport. We suffer a large number of vacant retail units along our main historic shopping street (Commercial Street) and even in Friars Walk itself, which has only been open a few years. Part of the reason for this is the crushing burden of an outdated business rates system, which does not reflect the reality of modern retail businesses.

I never thought I would ever write to my elected representatives or petition the Government for greater support for a large retail business. But in fact I am writing to you out of concern for the future prosperity of Newport more broadly, the 3rd biggest city in Wales, and the gateway to our nation. Newport deserves to live up to its potential and have a thriving city centre. All Welsh towns and cities deserve this, which is why it is so critical that this decision is debated, scrutinised and hopefully reviewed.

If you are in any doubt about the seriousness of this matter, I would encourage you to walk the length of Commercial Street and through Friars Walk and count the number of empty shops, which I personally find quite soul destroying. Newport has a lot of potential and the very hard work in recent years with developments like Chartist Tower would be potentially wasted if we do not get the right kind of support for key businesses in our city, now.

A debate in the Senedd is needed, urgently, on this matter -- to protect Welsh towns and cities from economic damage.

Thank you for your time considering this matter.

P-05-967 Welsh Government to amend its NDR relief policy to help keep Debenhams stores open in Wales, Correspondence – Interested Party to Chair: further comments, 23.05.20

The recent news from Trago Mills in Merthyr also highlights why disadvantaging big employers is dangerous for job security. It is also worth noting that retail employs a disproportionate number of women so it is women who always bear the economic brunt when retailers close stores or go bust. For places like Newport and Merthyr, stores like Trago Mills and Debenhams play a huge role in our wider economies and the aspirations of our towns and cities.

I would also like it noted in my comments that business rates need urgent and major reform more generally. They are contributing, in a serious way, to the decline of our high streets. The boarded up shops we see in places like Newport are on the whole due to the disappearance of major retailers. Big retail needs help as much as small independents. The rate relief for 2020 could have been the start of a broader discussion on that and I am worried that the Welsh Government are still not grasping this.

Thank you again.

Best wishes,

Eich cyf/Your ref P-05-967
Ein cyf/Our ref: RE/00336/20

Janet Finch-Saunders MS
Chair of the Petitions Committee
Welsh Parliament
Cardiff Bay
Cardiff
CF99 1SN

9 June 2020

Dear Janet,

Thank you for your letter as about non-domestic rates.

I recognise the importance of Debenhams stores to communities across Wales. The Welsh Government is providing non-domestic rates relief to the majority of Debenhams stores in Wales, with our support totalling over £1 million. I have also met the Chair of Debenhams to learn more about the company's position and I have asked officials to explore whether alternative support might be an option.

I am grateful for the hard work of local authorities which are home to Debenhams stores in Wales in working with the Welsh Government to find a viable mechanism for supporting the business. A number have been considering how they can use their discretionary powers to assist the continued presence of the stores in their areas. I am pleased that Newport City Council and Swansea Council have agreed to defer the non-domestic rates liability for the Debenhams stores in their city centres until 31 March 2021.

I do need to emphasise that the decision to set the threshold for the rates relief at £500,000 was not taken lightly. I also need to stress that, unlike the UK Government, we have relatively little control over the overall size of our budget, so face very difficult choices in the current crisis.

I must also make it clear that the financial challenges that Debenhams faces cannot be attributed solely to its rates liability, nor could the future of Debenhams be guaranteed by the availability of rates relief. Debenhams has already announced the closure of a number of its stores across the UK, including some which were eligible for relief.

The Welsh Government is continuing to consider this matter, and we appreciate the challenges Debenhams faces and the impact store closures would have on communities in

Minister for Finance and Trefnydd

**P-05-967 Welsh Government to amend its NDR relief policy to help keep
Debenhams stores open in Wales, Correspondence – Petitioner to Committee,
09.06.20**

Thank you for your email. I do understand that Debenhams is already in trouble, but the Swansea branch in particular is one of the best-performing of its stores. There is every reason to believe that if it reopens in more normal times then it will survive. The discretionary powers being used by Swansea and Newport Councils amount to a temporary measure, and just defers the liability until 31 March rather than expunging it.

The threshold for rates relief being set by the Welsh Government of £500,000 may well assist a lot of smaller businesses, but the larger stores with higher rateable value act as anchor stores, and the footfall they attract into town and city centres helps sustain those smaller retail businesses. If these anchor stores disappear then other, smaller businesses may fail as well. That is why Wales should have followed the model of relief adopted by the UK Government.

I note that talks are ongoing with Debenhams and I would hope that the committee will explore further with the Minister the options being explored in these talks and their likelihood of success in securing the future of Debenhams stores in Wales. There are a lot of jobs at stake here, as well as the future viability of many shopping centres, already in trouble because of the Covid lockdown, and not all those people at risk of losing their jobs work for Debenhams.

I am happy to expand on these views to the committee if required. Thank you

Peter

P-05-952 Dylid mynd yn ôl i sillafu enwau lleoedd Cymraeg yn y ffordd Gymraeg

Cyflwynwyd y ddeiseb hon gan Jonathan Parsons, ar ôl casglu cyfanswm o 1,096 lofnodion.

Geiriad y ddeiseb:

Mae gan Gymru lawer o enwau lleoedd sydd wedi'u Seisnigeiddio'n ddiangen, ac sydd yn aml wedi'u disodli gan ffurfiau Seisnigedig am ddim rheswm da. Nid yn unig y mae hyn yn amharchus i'r Cymry a'r iaith Gymraeg, ond mae'r Gymraeg, yn ôl y gyfraith, i fod ar sail gyfartal â'r Saesneg yng Nghymru.

Mae defnyddio enwau llefydd fel Trevor (o'r gair Cymraeg Trefor) ger Wrecsam nid yn unig yn tanseilio, ond yn cuddio etymolegau enwau o'r fath! Mae hyn yn sicr yn annerbyniol.

Rwyf i, a'r rhai sydd wedi llofnodi isod, yn deisebu Cynulliad Cymru i weithredu ac i newid y ffurfiau Seisnigaidd hyn o enwau Cymraeg, drwy Gymru gyfan, ac i adfer eu sillafiadau Cymraeg gwreiddiol. Nid yw'r ddeiseb yn mynd mor bell â gofyn am ddiddymu enwau Saesneg lle mae enw Cymraeg yn bodoli hefyd (Cardiff nesaf at Gaerdydd, ac ati).

Etholaeth a Rhanbarth y Senedd

- Gogledd Cymru

P-05-952: Dylid mynd yn ôl i sillafu enwau lleoedd Cymraeg yn y ffordd Gymraeg

Y Pwyllgor Deisebau | 28 Ebrill 2020
Petitions Committee | 28 April 2020

Cyfeirnod: RS20/12391-1

Rhif y ddeiseb: P-05-952

Teitl y ddeiseb: Dylid mynd yn ôl i sillafu enwau lleoedd Cymraeg yn y ffordd Gymraeg

Testun y ddeiseb: Mae gan Gymru lawer o enwau lleoedd sydd wedi'u Seisnigeiddio'n ddiangen, ac sydd yn aml wedi'u disodli gan ffurflai Seisnigedig am ddim rheswm da. Nid yn unig y mae hyn yn amharchus i'r Cymry a'r iaith Gymraeg, ond mae'r Gymraeg, yn ôl y gyfraith, i fod ar sail gyfartal â'r Saesneg yng Nghymru.

Mae defnyddio enwau llefydd fel Trevor (o'r gair Cymraeg Trefor) ger Wrecsam nid yn unig yn tanseilio, ond yn cuddio etymolegau enwau o'r fath! Mae hyn yn sicr yn annerbyniol.

Rwyf i, a'r rhai sydd wedi llofnodi isod, yn deisebu Cynulliad Cymru i weithredu ac i newid y ffurflai Seisnigaidd hyn o enwau Cymraeg, drwy Gymru gyfan, ac i adfer eu sillafiadau Cymraeg gwreiddiol. Nid yw'r ddeiseb yn mynd mor bell â gofyn am ddiddymu enwau Saesneg lle mae enw Cymraeg yn bodoli hefyd (Cardiff nesaf at Gaerdydd, ac ati).

1. Cyd-destun

Mae enwau pentrefi, trefi a dinasoedd Cymru wedi datblygu dros gyfnod o ddwy fileniwm. Tra bod **enwau'r rhan fwyaf o leoedd yng Nghymru yn Gymraeg**, mae enwau llawer yn tarddu o'r Saesneg, Ffrangeg, Lladin, Gwyddoleg, Llychlyneg a Brythoneg (a esblygodd i'r iaith Gymraeg rydyn ni'n ei siarad heddiw).

Mae'r enghreifftiau o **leoedd cyfarwydd sydd ag enwau Cymraeg yn unig** yn cynnwys Aberystwyth, Bangor, Tonypandy, Penarth a Phontypridd, ymhlið eraill. Fodd bynnag, mae sawl enghraift o ddinasoedd, trefi a phentrefi yng Nghymru sydd ag enw Cymraeg ac enw Saesneg.

Yn achos rhai o'r lleoedd hynny sydd ag enw Cymraeg ac enw Saesneg, mae sillafiad ac ynganiad yr enwau'n debyg yn y ddwy iaith. Lleoedd fel:

- Caerffili - *Caerphilly*;
- Caerdydd - *Cardiff*;
- Merthyr Tudful - *Merthyr Tydfil*;
- Treorci - *Treorchy*; a
- Rhuthun - *Ruthin*.

Mewn nifer o'r lleoedd hyn, mae'n debygol iawn fod yr enwau wedi'u Seisnigeiddio dros amser oherwydd cyfres o newidiadau economaidd, diwylliannol a chymdeithasol. Fodd bynnag, nid yw hynny o reidrwydd yn wir ym mhob achos. Mae yna enghreifftiau o enwau Saesneg fel *Flint* (Y Fflint), *Wrexham* (Wrecsam) a *Caldicot* (Cil-y-coed) sydd wedi'u mabwysiadu i'r Gymraeg yn hytrach nag fel arall. Yn yr un modd, yr enw gwreiddiol ar Fiwmars oedd yr enw Ffrangeg Normanaidd - *Beaumaris*.

Mae yna leoedd eraill yng Nghymru sydd â dau enw gwahanol nad oes unrhyw gysylltiad rhyngddynt. Er enghraifft:

- *Newport* - Casnewydd (ystyr y Gymraeg yw castell newydd);
- *Swansea* (sy'n deillio o'r Llychlyneg ac yn golygu 'ynys Svein') - Abertawe (ystyr y Gymraeg yw aber afon Tawe);
- *Brecon* (sy'n deillio o hen deyrnas Gymreig Brycheiniog) - Aberhonddu (daw'r enw Cymraeg o'r afon Honddu)
- *Anglesey* (sy'n deillio eto o'r iaith Llychlyneg, Ongul) - cofnodwyd yr enw Cymraeg Môn yn gyntaf fel yr enw Lladin *Mona*.

Yn ei erthygl, *Enw da yw'r trysor gorau*, ar Wales.com (gwefan Llywodraeth Cymru i hyrwyddo Cymru), mae Dr. Dylan Foster Evans, arbenigwr ar enwau lleoedd Cymraeg, yn ysgrifennu am esblygiad llawer o enwau lleoedd Cymru, a sut mae rhai wedi'u Seisnigeiddio:

Mewn mannau eraill, cafodd enwau Cymraeg eu newid trwy gael eu benthyg i'r Saesneg. Er enghraift, mae'r enw *Dinbych* ('y gaer fach') yn cynnwys y sain *ch* a ddiflannodd o'r iaith Saesneg rai canrifoedd yn ôl. Felly mae'r ddau le sydd â'r enw *Dinbych* yn Gymraeg wedi rhoi'r ffurfiau Saesneg *Tenby* yn Sir Benfro a *Denbigh* yn Sir Ddinbych (sy'n odli â'i gilydd, er gwaethaf y sillafu gwahanol). Ac er mwyn osgoi dryswch yn y Gymraeg, mae *Tenby*, sy'n dref ar lan y môr, yn cael ei galw'n *Dinbych-y-pysgod*.

Wrth gwrs, cafwyd enghreiffiau dros y blynnyddoedd o roi'r gorau'n raddol i dderbyn neu ddefnyddio rhai enwau lleoedd Cymraeg a oedd wedi'u Seisnigeiddio, gan gynnwys Caernarvon (Caernarfon), Conway (Conwy) a *Lanelly* (Llanelli).

Mae yna hefyd fannau lle mae anghytuno parhaus ynghylch a ddylid defnyddio'r sillafiad Cymraeg yn gyfan gwbl ai peidio, fel yn *Varteg (Farteg)* sydd wedi cael rhywfaint o sylw yn y cyfryngau yn ddiweddar.

2. Y Panel Safoni Enwau Lleoedd

Mae *Comisiynydd y Gymraeg*, sef corff annibynnol a sefydlwyd gan *Fesur y Gymraeg (Cymru) 2011*, yn gyfrifol am roi cyngor ar *ffurfiau safonol enwau lleoedd Cymraeg* i unigolion a sefydliadau. Mae rhestr o ffurfiau safonol yr enwau Cymraeg ar bentrefi, trefi a dinasoedd yng Nghymru bellach ar gael fel adnodd ar-lein at ddefnydd pawb. Mae'n cael ei diweddu'n barhaus.

Sefydlodd y Comisiynydd *banel o arbenigwyr* i weithio ar ffurfiau safonol enwau lleoedd Cymraeg ac i wneud argymhellion yn hyn o beth. Yn ôl gwefan y Comisiynydd, mae'r Panel Safoni Enwau Lleoedd 'yn ystyried *ystyr, hanes a tharddiad yr enwau lleoedd* ynghyd â'r *defnydd cyfredol* ohonynt' wrth lunio ei argymhellion. Mae'r panel hefyd yn dilyn *Canllawiau Safoni Enwau Lleoedd Cymru* (PDF 243KB). Yn Adran 9 - *Ffurfa Deuol*, nodir y cyngor a ganlyn ar gyfer y panel:

Dylid anelu at arfer **un ffurf yn unig** pan nad oes ond llythyren neu ddwy o wahaniaeth rhwng y ffurf Gymraeg a'r ffurf 'Saesneg', **gan dueudu at y ffurf Gymraeg**. Dyma hefyd ddymuniad yr Arolwg Ordnans ac Awdurdodau'r Priffyrdd. Eithr dylid cydnabod amrywiadau sefydlog (Caeriw/Carew, Biwmares/Beaumaris, Y Fflint/Flint,Wrecsam/Wrexham).

Cafodd y **Rhestr** ei lansio ar 20 Mehefin 2018, ac mae'n bosibl chwilio drwy'r 3,475 o enwau lleoedd sydd wedi'u cynnwys ar hyn o bryd. O ran Trefor/Trevor, sef y pentref a nodwyd yn y ddeiseb ei hun, **nid yw wedi ei gynnwys ar hyn o bryd** ar y rhestr hon.

Mae'r Comisiynydd yn nodi ar y wefan, os na fydd enw lle yng Nghymru wedi'i gynnwys ar y *Rhestr* gyhoeddedig, dylai unigolion lenwi **ffurflen ymholiad** fer gan nodi enw, cyfeirnod grid ac ardal awdurdod lleol y lle dan sylw.

3. Camau'r Cynulliad a Llywodraeth Cymru

Cyflwynwyd **deiseb yn galw ar y Cynulliad i ddiogelu a hyrwyddo enwau lleoedd Cymru** yn 2018. Dyma'r cam penodol yr oedd y deisebydd yn galw amdano:

Dylid diogelu hen enwau Cymraeg ar leoedd ac adeiladau o dan y gyfraith, a dylai fod yn orfodol i ddatblygiadau newydd gael enwau Cymraeg er mwyn diogelu ein diwylliant a'n hiaith unigryw.

Wrth ymateb i'r ddeiseb, [amlinellodd Llywodraeth Cymru ei gweithgarwch yn y maes hwn](#) (PDF 198KB). Ar ôl pasio [Deddf yr Amgylchedd Hanesyddol \(Cymru\) 2016](#), nododd fod Llywodraeth Cymru wedi cyflwyno rhestr statudol o enwau lleoedd hanesyddol. Dywedodd:

Mae canllawiau statudol yn ei gwneud yn ofynnol i awdurdodau lleol, awdurdodau Parciau Cenedlaethol a Cyfoeth Naturiol Cymru ystyried y rhestr pan fydd eu swyddogaethau'n cynnwys enwi neu ailenwi lleoedd. Mae hyn yn cynwys enwi neu ailenwi strydoedd, eiddo a llefydd eraill, naill ai'n uniongyrchol neu drwy barti arall. Y bwriad yw y bydd y broses o gynnal y rhestr a'r canllawiau statudol gyda'i gilydd yn arwain at ostwng nifer y newidiadau ffurfiol i enwau eiddo hanesyddol.

Fodd bynnag, nododd Llywodraeth Cymru:

...nid yw'r mesurau hyn yn mor bell â diogelu enwau lleoedd hanesyddol yn ffurfiol. Rhoddwyd ystyriaeth fanwl i ddiogelu enwau lleoedd

hanesyddol yn statudol wrth fynd ati i ddatblygu Deddf 2016, pan gyflwynwyd nifer o sylwadau tebyg i'r ddeiseb bresennol. Fodd bynnag, roedd nifer o faterion arwyddocaol, gan gynnwys gorfodi, beichiau ychwanegol posibl ar awdurdodau lleol a hawliau dynol, yn milwrio yn erbyn hynny.

Ym mis Ionawr 2017, enillodd Dai Lloyd AC y balot i gynnig Bil Aelod: [Datblygu y Bil Diogelu Enwau Lleoedd Hanesyddol Cymru](#). Darparodd Dai Lloyd AC y Memorandwm Esboniadol (PDF 195KB) a ganlyn cyn y ddadl yn y Cyfarfod Llawn, a gynhaliwyd ar 15 Mawrth.

Nid oedd Llywodraeth Cymru yn cefnogi'r Bil, ac ni chafodd ganiatâd i fwrw ymlaen.

Fel rhan o'i ymchwiliad yn 2017 i'r [Amgylchedd Hanesyddol](#), bu'r Pwyllgor Diwylliant, y Gymraeg a Chyfathrebu yn trafod y Rhestr o Enwau Lleoedd Hanesyddol Cymru. Nododd y dylai Llywodraeth Cymru barhau i fynd ati i adolygu'r mater a bod yn barod i gyflwyno mesur diogelu arall ar gyfer enwau lleoedd hanesyddol os na fydd y rhestr bresennol yn effeithiol.

Gwneir pob ymdrech i sicrhau bod y wybodaeth yn y papur briffio hwn yn gywir adeg ei gyhoeddi. Dylai darllenwyr fod yn ymwybodol nad yw'r papurau briffio hyn yn cael eu diweddu o reidrwydd na'u diwygio fel arall i adlewyrchu newidiadau dilynol.

Llywodraeth Cymru
Welsh Government

Janet Finch-Saunders AS
Cadeirydd
Y Pwyllgor Deisebau
Senedd Cymru

17 Mehefin 2020

Annwyl Janet,

Diolch i chi am ohebu â'r Gweinidog Tai a Llywodraeth Leol ynghylch yr alwad ar y Pwyllgor Deisebau i ddychwelyd at ddefnyddio sillafiadau Cymraeg o enwau lleoedd. Rwy'n ymateb i'r mater hwn, gan ei fod yn dod o dan gylch gorchwyl fy mhortffolio i. Rwy'n ymddiheuro am beidio ag ymateb yn gynt.

Comisiynydd y Gymraeg sy'n gyfrifol am roi cyngor i unigolion a sefydliadau am ffuriau safonol enwau lleoedd yng Nghymru. Mae Rhestyr Comisiynydd o *Enwau Lleoedd Safonol Cymru* yn adnodd ar-lein defnyddiol, y gellir ei chwilio neu y gellir ei lawrlwytho, i ddod o hyd i enwau safonol pentrefi, trefi a dinasoedd yng Nghymru. I weld y rhestr, ewch i: www.comisiynyddygymraeg.cymru/Cymraeg/Comisiynydd/EnwauLleoedd/Pages/Lawrlwyth.aspx

Fodd bynnag, rôl y Comisiynydd yw awgrymu ffuriau a sillafiadau enwau lleoedd, yn hytrach na'u gorfodi.

Rwy'n ymwybodol bod diogelu enwau lleoedd wedi'i ystyried gan y Bwyllgor Deisebau o'r blaen. Er enghraift, cafodd "P-05-819 Enwau Lleoedd Cymru – Bil Diogelu a Hyrwyddo" ei ystyried gan y Pwyllgor yn 2018. Mae'r ddolen gyswilt isod i drafodion y Pwyllgor yn cynnwys yr ymateb a anfonwyd i'r Pwyllgor gan y Gweinidog Diwylliant, Twristiaeth a Chwaraeon, sy'n amlinellu'r gofynion yn Neddf yr Amgylchedd Hanesyddol (Cymru) 2016. <https://busnes.senedd.cymru/ielssueDetails.aspx?Id=21901&PlanId=0&Opt=3>.

O ran yr ymdrechion ar lefel Llywodraeth Leol, Mae Deddf Llywodraeth Leol (Democratiaeth) (Cymru) 2013 yn rhoi dyletswydd ar Gomisiwn Ffiniau a Democratiaeth Leol Cymru (y Comisiwn) i gadw golwg ar drefniadau llywodraeth leol. Gallai'r newidiadau a gynigir gynnwys newid enwau unedau gweinyddol Cymru. Ond, ni fyddai'r newidiadau a gynigir i enwau'r unedau hynny yn effeithio ar enw tref, pentref neu ddinas yn yr unedau gweinyddol hynny.

Gohebiaeth.Eluned.Morgan@llyw.cymru
Correspondence.Eluned.Morgan@gov.wales

Rydym yn croesawu derbyn gohebiaeth yn Gymraeg. Byddwn yn ateb gohebiaeth a dderbynir yn Gymraeg yn Gymraeg ac ni fydd gohebu yn Gymraeg yn arwain at oedi.

We welcome receiving correspondence in Welsh. Any correspondence received in Welsh will be answered in Welsh and responding in Welsh will not lead to a delay in responding.

Fel rhan o broses adolygu'r Comisiwn, byddwn yn ceisio barn Comisiynydd y Gymraeg am enwau arfaethedig yr unedau gweinyddol. Os na fydd y Comisiwn a'r Comisiynydd yn cytuno ar un neu fwy nag un o'r enwau arfaethedig, cyfrifoldeb Gweinidogion Cymru yw gwneud penderfyniad ar yr enw.

Mae Deddf yr Amgylchedd Hanesyddol (Cymru) 2016 hefyd yn rhoi dyletswydd ar Weinidogion Cymru i lunio a chadw rhestr o enwau lleoedd hanesyddol yng Nghymru. Caiff y Rhestr o Enwau Lleoedd Hanesyddol Cymru ei chynnal ar ein rhan gan Gomisiwn Brenhinol Henebion Cymru. Bellach, mae'n cynnwys bron 700,000 o gofnodion, ond mae'n adnodd deinamig, a bydd y rhestr yn parhau i dyfu. Mae'r adnodd yn un gwerthfawr ar gyfer olrhain y gwahanol ffurflai ar enwau anheddiadau yng Nghymru, gan ei fod yn ceisio cofnodi enwau lleoedd hanesyddol y gellir pennu'n hyderus iddynt gael eu hadeiladau yn y lleoliad cyn 1919. I weld y rhestr, ewch i:

<https://enwaulleoeddhanesyddol.cbhc.gov.uk/>

Gobeithio y bydd yr wybodaeth hon o ddefnydd i chi a'r Pwyllgor wrth ichi ystyried y Deiseb.

Yn gywir,

Eluned Morgan AS/MS

Gweinidog y Gymraeg a Chysylltiadau Rhyngwladol
Minister for International Relations and the Welsh Language

Eitem 4.2

P-05-961 Gostwng yr oedran ar gyfer sgrinio canser y fron yng Nghymru o 50 i 30

Cyflwynwyd y ddeiseb hon gan Rachel Candy, ar ôl casglu cyfanswm o 76 lofnodion.

Geiriad y ddeiseb:

Cafodd cyfaill i mi ei diagnostio â chanser y fron cyfnod 3 yn 36 oed. Pe bai hi wedi cael ei sgrinio, byddai hyn wedi cael ei ganfod a'i drin yn llawer cynt.

Etholaeth a Rhanbarth y Senedd

- Pen-y-bont ar Ogwr
- Gorllewin De Cymru

Gostwng yr oedran ar gyfer sgrinio canser y fron yng Nghymru o 50 i 30

Y Pwyllgor Deisebau | 23 Mehefin 2020
Petitions Committee | 23 June 2020

Cyfeirnod: RS20/12730-3

Rhif y ddeiseb: P-05-961

Teitl y ddeiseb: Gostwng yr oedran ar gyfer sgrinio canser y fron yng Nghymru
o 50 i 30

Geiriad y ddeiseb: Cafodd cyfaill i mi ei diagnostio â chanser y fron cyfnod 3 yn
36 oed. Pe bai hi wedi cael ei sgrinio, byddai hyn wedi cael ei ganfod a'i drin
yn llawer cynt.

1. Cefndir

Mae lechyd Cyhoeddus Cymru yn cynnig rhagleni sgrinio cenedlaethol ar sail
poblogaeth ledled Cymru, gan gynnwys Bron Brawf Cymru.

Mae'r broses sgrinio'n chwilio am ganser y fron cyn i'r symptomau ymdddangos ac
mae'n cynnwys mamogramau, sef pelydrau-x o'r fron. Os caiff canser y fron ei
ddarganfod yn gynnar, mae'r driniaeth yn fwy tebygol o lwyddo.

Mae gwefan Bron Brawf Cymru yn rhoi'r wybodaeth a ganlyn yn ymwneud â'i **rhaglen sgrinio** canser y fron:

- Caiff merched rhwng **50 a 70** oed eu gwahodd yn awtomatig i gael pelydr-X o'u bronnau bob tair blynedd.
- Mae Bron Brawf Cymru yn cael enwau'r merched oddi ar restrau meddygon teulu ac maent yn gwahodd merched o bob meddygfa yn eu tro. Ni fydd merched o reidrwydd yn cael eu gwahodd yn ystod y flwyddyn y byddant yn troi'n 50 oed. Os ydynt wedi cofrestru â meddyg, cânt wahoddiad i gael eu sgrinio cyn eu pen-blwydd yn 53 oed.
- Gall merched **dros 70 oed** ofyn am apwyntiad sgrinio bob tair blynedd.
- Mae'r sgrinio'n cael ei wneud mewn canolfannau sgrinio ac mewn unedau teithiol hygrych ledled Cymru. Dewis y claf yw cymryd rhan yn y rhaglen sgrinio.
- Drwy'r sgrinio, mae'n bosibl dod o hyd i ganserau pan fyddant yn rhy fach i'w gweld neu eu teimlo. Ni fydd y sgrinio'n darganfod pob canser, ac nid oes modd gwella rhai mathau o ganser.
- Os yw mamogram yn dangos abnormaledd posibl, caiff y claf apwyntiad yn un o ganolfannau sgrinio Bron Brawf Cymru. Bydd meddyg yn archwilio'r claf ac efallai caiff gynnig profion eraill.

Merched dan 50 oed

Ni all Bron Brawf Cymru gynnig apwyntiad i ferched dan 50 oed. Mae Bron Brawf Cymru yn esbonio bod y rhaglen sgrinio o fantais i ferched dros 50 oed yn unig. Os yw cleifion o dan 50 oed yn dangos symptomau, dylent gysylltu â'u meddyg i gael cyngor.

Yn ei **Chynllun Cyflenwi Canser ar gyfer Cymru 2016-2020**, mae Llywodraeth Cymru yn nodi bod cyflwyno rhagleni sgrinio yng Nghymru yn seiliedig ar gyngor arbenigol **Pwyllgor Sgrinio Cenedlaethol y DU** a **Pwyllgor Sgrinio Cymru** i sicrhau bod y rhagleni'n gwneud mwy o les na niwed a'u bod yn gost-effeithiol.

Er nad yw astudiaethau ymchwil wedi dangos y byddai sgrinio merched cyn iddynt droi'n 50 oed o fudd amlwg i'r boblogaeth yn gyffredinol, mae Bron Brawf Cymru yn nodi y gallai sgrinio'n gynharach fod o fudd i ferched sy'n fwy tebygol o gael canser y fron oherwydd **hanes y teulu**. Ni wyddom beth yw'r cydbwysedd rhwng y manteision a'r niwed sydd ynghlwm wrth sgrinio merched iau sy'n

wynebu risg gymedrol neu uchel o ddatblygu canser y fron, gan nad oes ymchwil wedi'i gynnal mewn perthynas â'r grŵp penodol hwn o ferched.

Mae Bron Brawf Cymru yn cynnig gwasanaeth sgrinio'r fron i ferched sy'n byw yng Nghymru, sydd wedi cael eu hasesu gan y **Gwasanaeth Geneteg** ac y gwelwyd eu bod yn fwy tebygol o ddatblygu canser y fron.

Adroddiadau ystadegol

Cyhoeddodd Bron Brawf Cymru **Adroddiad Ystadegol Blynnyddol 2018-19** ym mis Mawrth 2020. Mae'r adroddiad hwn yn grynodeb manwl o'r gwaith a wnaed ac mae'n cynnwys ffigurau ar y gwaith sgrinio, nifer y merched a gafodd wahoddiad, a'r nifer a dderbyniodd y gwahoddiad.

2. Camau a gymerwyd gan Lywodraeth Cymru

Yn ei ohebiaeth â'r Pwyllgor, dyddiedig 28 Mai 2020, dywed y Gweinidog Iechyd a Gwasanaethau Cymdeithasol fod Cymru, fel gweddill y DU, yn dilyn cyngor annibynnol, arbenigol Pwyllgor Sgrinio Cenedlaethol y DU (UKNSC). Nid yw merched heb symptomau yn cael bod yn rhan o'r rhaglen sgrinio yn y DU gan mai cyngor UKNSC yw bod y dystiolaeth bresennol yn dangos nad yw'r manteision yn drech na'r niwed posibl. Mae pob argymhelliaid yn cael ei adolygu'n rheolaidd ac os bydd UKNSC yn argymhell newid yr ystod oedran ar gyfer sgrinio'r fron, bydd Llywodraeth Cymru yn ystyried sut y gellir rhoi hyn ar waith yng Nghymru. Gellir dod o hyd i'r hyn y mae UKNSC yn ei argymhell mewn perthynas â sgrinio'r fron **yma**.

Mae'r Gweinidog hefyd yn nodi bod y manteision a'r niwed cysylltiedig â sgrinio canser y fron wedi'u hystyried mewn **adolgyriad annibynnol** a gyhoeddwyd yn 2012.

Gwneir pob ymdrech i sicrhau bod y wybodaeth yn y papur briffio hwn yn gywir adeg ei gyhoeddi. Dylai darllenwyr fod yn ymwybodol nad yw'r papurau briffio hyn yn cael eu diweddar o reidrwydd na'u diwygio fel arall i adlewyrchu newidiadau dilynol.

Llywodraeth Cymru
Welsh Government

Janet Finch-Saunders AS/MS
Chair
Petitions Committee
Welsh Parliament
Cardiff
CF99 1SN

28 May 2020

Dear Janet,

Thank you for your letter of 4 May, as Chair of the Petitions Committee, regarding Petition P-05-961 to lower the age for breast cancer screening in Wales from 50 to 30.

Wales, like the rest of the UK, follows the independent, expert advice of the UK National Screening Committee (UKNSC). Routine breast screening of women under 50 without any symptoms is not offered in the UK because the UKNSC advises that the current evidence indicates that the benefits of screening do not outweigh the known harms. At present, for breast cancer, the recommended routine screening age range is between 50 and 70 years, with screening offered on a three-yearly basis. All recommendations are subject to regular review and should the UKNSC recommend changing the age range for breast screening, the Welsh Government will consider how this can be delivered in Wales. The UKNSC recommendation on breast screening can be found at:

<https://legacyscreening.phe.org.uk/breastcancer>

The benefits and harms of breast cancer screening were considered in an independent review published in 2012 at: <https://about-cancer.cancerresearchuk.org/about-cancer/breast-cancer/getting-diagnosed/screening/screening-2012-review? ga=2.195904684.1062693435.1589284068-436743268.1589284068>

If any patient is concerned about symptoms they should contact their GP to discuss their concerns.

Yours sincerely,

Vaughan Gething AS/MS

Y Gweinidog Iechyd a Gwasanaethau Cymdeithasol
Minister for Health and Social Services

Correspondence.Vaughan.Gething@gov.wales

Rydym yn croesawu derbyn gohebiaeth yn Gymraeg. Byddwn yn ateb gohebiaeth a dderbynir yn Gymraeg yn Gymraeg ac ni fydd gohebu yn Gymraeg yn arwain at oedi.

We welcome receiving correspondence in Welsh. Any correspondence received in Welsh will be answered in Welsh and responding in Welsh will not lead to a delay in responding.

Tudalen y pecyn 94

P-05-963 Dylid ei gwneud yn ofynnol i archfarchnadoedd roi unrhyw fwyd sydd dros ben i elusennau

Cyflwynwyd y ddeiseb hon gan 'Crosskeys My World My Home Group', ar ôl casglu cyfanswm o 84 lofnodion.

Geiriad y ddeiseb:

Ledled y byd, mae traean o'r holl fwyd a gynhyrchir yn flynyddol yn cael ei wastraffu. Yn y DU, mae hynny'n cyfateb i oddeutu 9.5 miliwn tunnell, sy'n wastraff enfawr o adnoddau ac yn sefyllfa sy'n rhoi pwysau diangen ar ein hamgylchedd. Er gwaethaf hyn, rhwng 2018 a 2019, bu'n rhaid i elusen Trussell Trust ddosbarthu 1.6 miliwn o barseli i fanciau bwyd ledled y DU, y nifer uchaf erioed. Yn ein barn ni, ni ddylid taflu bwyd i ffwrdd pan mae pobl yn llwgu yn y wlad hon.

Ym mis Chwefror 2016, penderfynodd Ffrainc weithredu mewn perthynas â'r broblem o wastraff bwyd, gan orfodi archfarchnadoedd i roi'r holl fwyd sy'n agosáu at ei ddyddiad 'gwerthu erbyn' i elusennau. Mae'r Ddeddf dan sylw bellach yn atal 46,000 tunnell o fwyd rhag cael ei daflu bob blwyddyn, ac wedi arwain at gynnydd o dros 20 y cant mewn rhoddion i fanciau bwyd yn Ffrainc.

Yn 2019, cafodd y gyfraith hon ei hymestyn i gynnwys y diwydiant arlwoy sefydliadol a'r diwydiant bwyd-amaeth. Credwn y GALLWN WNEUD YR UN PETH yma yng Nghymru, a hynny drwy arbed bwyd bwytadwy ac atal archfarchnadoedd, bwytai cadwyn a chyflenwyr bwyd ein cenedl rhag anfon bwyd da i safleoedd tirlenwi. Mae Llywodraeth Cymru eisoes wedi bod yn gweithio gyda Fare Share Cymru i ailddosbarthu bwydydd sy'n cyfateb i dros 8 miliwn o brydau ers 2011.

Drwy fabwysiadu'r datrysiaid a ddefnyddir yn Ffrainc, gallwn gymryd cam llawer mwy sylweddol tuag at roi terfyn ar newyn yng Nghymru, yn ogystal â diwallu nod Llywodraeth Cymru o haneru gwastraff bwyd erbyn 2025. Byddai hynny hefyd yn ein rhoi ar y llwybr i fod yn ddiwastraff erbyn 2050.

Llofnodwch y ddeiseb hon yn galw ar Gynulliad Cenedlaethol Cymru i annog Llywodraeth Cymru i basio Deddf yn debyg i'r un yn Ffrainc, a hynny er mwyn

cymryd safiad YN ERBYN gwastraff bwyd ac O BLAID y rhai sydd mewn angen.

Cefndir

Yn ôl ymchwil gan WRAP (Rhaglen Weithredu'r Cynllun Gwastraff ac Adnoddau) amcangyfrifir bod 10.2 filiwn tunnell o wastraff bwyd yn y DU yn 2015 (156 kg / person / blwyddyn). Roedd y mwyafrif o hyn - 7.1 miliwn tunnell - yn wastraff bwyd cartref, a daeth y 3.1 miliwn tunnell arall o'r gadwyn gyflenwi bwyd (tu hwnt i gât y fferm). O'r ffigur hwn, daeth **261,000 tunnell o wastraff bwyd o'r sector manwerthu, a daeth 754,000 tunnell o'r gwasanaethau lletygarwch a bwyd.**

Amcangyfrifodd yr ymchwil mai gwerth y bwyd a wastraffwyd yn y DU yn 2015 oedd £20 biliwn. Gwerth y bwyd a wastraffwyd gan y sector manwerthu oedd £0.8 biliwn, a'r ffigur ar gyfer y gwasanaethau lletygarwch a bwyd oedd £2.9 biliwn.

Cynhaliwyd yr ymchwil i roi llinell sylfaen ar gyfer **Ymrwymiad Courtauld 2025**, sef cyfres o gytundebau gwirfoddol gyda'r nod o wella effeithlonrwydd adnoddau a lleihau effaith carbon ac amgylcheddol ehangach y sector bwyd yn y DU. Mae Courtauld yn cynnwys gwastraff bwyd ac **mae'r archfarchnadoedd mawr wedi ymrwymo iddo.**

Mae adroddiad diweddar a gyhoeddwyd gan WRAP ym mis Ionawr 2020 yn dangos gostyngiad 7 y cant yng ngwastraff bwyd yn gyffredinol rhwng 2015 a 2018, ond cynnydd 6 y cant yng ngwastraff bwyd manwerthu i 280,000 tunnell, gyda chynnydd 7 y cant i 1.1 miliwn tunnell hefyd yng ngwasanaethau lletygarwch a bwyd.

Deddfwriaeth gwastraff bwyd Ffrainc

Yn 2016, mabwysiadodd Ffrainc ddeddfwriaeth gyda'r nod o atal archfarchnadoedd mawr rhag taflu bwyd bwytadwy, a hynny drwy eu gorfodi i weithio gyda chyrff anlywodraethol gwastraff bwyd sy'n gallu ailddosbarthu bwyd a fyddai fel arall wedi cael ei daflu i ffwrdd. Gellir dirwyo siopau am beidio â chydymffurfio â'r gyfraith. Mae'r ddeddfwriaeth hon a'i heffeithiolwydd wedi bod yn destun llawer o drafod yng nghyfryngau'r sector bwyd; gellir gweld enghreifftiau yn y lincs a ddarparwyd uchod gan y deisebydd a hefyd yma, yma ac yma.

Camau a gymerwyd gan Lywodraeth Cymru

Yn 2017, cyhoeddodd Lesley Griffiths, Gweinidog yr Amgylchedd, Ynni a Materion Gwledig, uchelgais Llywodraeth Cymru i haneru gwastraff bwyd yng Nghymru erbyn 2025, yn erbyn llinell sylfaen 2006-07.

Cynhaliodd Llywodraeth Cymru ymgyngoriad ar ei strategaeth economi gylchol arfaethedig "Mwy nag ailgylchu" rhwng mis Rhagfyr 2019 a mis Ebrill 2020. Mae'r ddogfen ymgyngori (PDF 2MB) yn nodi:

Byddwn ar flaen y gad o ran gwaredu gwastraff bwyd y gellir ei osgoi drwy edrych ar y gadwyn gyflenwi gyfan a gweithio gyda busnesau o'r fferm i'r fforc i leihau gwastraff a sicrhau bod adnoddau'n cael eu defnyddio mor effeithlon â phosibl.

Ac

Er mwyn hyrwyddo mwy o ailgylchu o'r sector busnes a chyhoeddus, **ein nod yw ei gwneud yn ofynnol i ailgylchu ymhob lleoliad annomestig**, gan wahanu gwastraff yn y ffordd y mae cartrefi eisoes yn ei wneud.
[Pwyslais gan y Gwasanaeth Ymchwil]

Ar adeg ysgrifennu'r papur hwn, nid oedd Llywodraeth Cymru wedi cyhoeddi canlyniadau'r ymgyngoriad.

Llythyr y Gweinidog at y Pwyllgor

Ysgrifennodd y Gweinidog at y Pwyllgor mewn perthynas â'r ddeiseb hon ar 26 Mai 2020. I gryno, dywed y llythyr:

- Mae Llywodraeth Cymru wedi gweithio gyda phrif ddarparwyr banciau bwyd i ddeall y sefyllfa bresennol i bob banc bwyd yng Nghymru.
- Yn ystod pandemig y Coronafeirws, cafodd banciau bwyd y DU sicrwydd y cānt roddion gan archfarchnadoedd, gan gynnwys £15 miliwn gan Tesco, £10 miliwn gan Morrisons, £5 miliwn gan Asda ac £1.5 miliwn gan y Co-op.
- Mae Ymddiriedolaeth Trussell wedi cadarnhau bod gan ei banciau bwyd ledled Cymru ddigon o gyflenwad bwyd a gwirfoddolwyr i ateb y galw, ac nad oes angen cymorth ariannol arnynt gan Lywodraeth Cymru. Mae tua 50 y cant o fanciau bwyd yng Nghymru yn dod o dan ymbarél Ymddiriedolaeth Trussell).
- Mae lleihau gwastraff bwyd yn flaenoriaeth i Lywodraeth Cymru, ac mae'n gweithio gyda'r gadwyn gyflenwi bwyd i sicrhau bod gwastraff yn cael ei leihau a bod stoc dros ben yn cael ei ailddosbarthu yn ôl yr angen.
- Mae Llywodraeth Cymru yn cymeradwyo'r camau gwirfoddol a gymerwyd gan y sector o dan yr Ymrwymiad Courtauld a bydd yn monitro eu heffaith. Pe bai'n credu bod angen mwy o weithredu, dylai fod gan Lywodraeth Cymru'r opsiwn i fandadu ailddosbarthu bwyd dros ben o dan y pwerau a geisir ar gyfer Gweinidogion Cymru o dan Fil Amgylchedd y DU.

Camau gweithredu'r Senedd

Er i wastraff bwyd gael ei godi fel mater cyffredinol yn gymharol aml yn y Senedd, nid yw gwastraff bwyd archfarchnadoedd fel mater periodol wedi cael ei drafod yn fanwl ers dadl fer Julie Morgan AS ar wastraff bwyd yn 2015.

Gwneir pob ymdrech i sicrhau bod y wybodaeth yn y papur briffio hwn yn gywir adeg ei gyhoeddi. Dylai darllenwyr fod yn ymwybodol nad yw'r papurau briffio hyn yn cael eu diweddar o reidrwydd na'u diwygio fel arall i adlewyrchu newidiadau dilynol.

Llywodraeth Cymru
Welsh Government

Janet Finch-Saunders AS
Cadeirydd y Pwyllgor Deisebau

Government.Committee.Business@llyw.cymru

26 Mai 2020

Annwyl Janet

Diolch am eith llythyr dyddiedig 7 Mai ynghylch y ddeiseb i geisio ei gwneud yn ofynnol i archfarchnadoedd roi bwyd dros ben i elusennau.

Mae'r system cyflenwi bwyd wedi bod o dan bwysau mawr yn sgil y pandemig COVID-19 presennol. Mae Llywodraeth Cymru yn cydnabod bod unigolion yng Nghymru sy'n arbennig o agored i niwed, sy'n wynebu anawsterau ariannol ac sydd angen cymorth ar frys.

Mae Llywodraeth Cymru wedi meithrin cysylltiadau â dau randdeiliad banc bwyd mawr yng Nghymru – Ymddiriedolaeth Trussell a Faresshare. Mae gan y sefydliadau hyn brofiad helaeth o ddarparu bwyd i'r rhwydwaith banciau bwyd ledled Cymru.

Rydym wedi ceisio deall y sefyllfa bresennol ar gyfer yr holl fanciau bwyd ledled Cymru, gan gynnwys y rhai hynny sy'n dod o dan ymbarél Ymddiriedolaeth Trussel (tua 50% o fanciau bwyd ledled Cymru) a'r banciau bwyd annibynnol sy'n cael eu cynnal gan sefydliadau trydydd sector, fel elusennau ac eglwysi. Rydym hefyd wedi cynnal trafodaethau gyda Chymdeithas Llywodraeth Leol Cymru, Cyngor Gweithredu Gwirfoddol Cymru ac Awdurdodau Lleol ledled Cymru i asesu'r sefyllfa o ran cyflenwi bwyd i fanciau bwyd ar hyn o bryd.

Hyd yma yn ystod yr argyfwng, mae banciau bwyd y DU wedi cael sicrwydd y byddant yn cael rhoddion o £10m gan Morrison's a £15m gan Tesco, a hynny drwy Ymddiriedolaeth Trussell a Faresshare. Mae'r Co-op hefyd wedi rhoi £1.5m ac Asda wedi rhoi £5m i fanciau bwyd drwy Ymddiriedolaeth Trussell a Faresshare. Yn lleol, mae siopau unigol yn rhoi stoc dros ben yn rheolaidd i gynlluniau ailldosbarthu bwyd lleol.

Correspondence.Lesley.Griffiths@gov.wales

Rydym yn croesawu derbyn gohebiaeth yn Gymraeg. Byddwn yn ateb gohebiaeth a dderbynir yn Gymraeg yn Gymraeg ac ni fydd gohebu yn Gymraeg yn arwain at oedi.

We welcome receiving correspondence in Welsh. Any correspondence received in Welsh will be answered in Welsh and responding in Welsh will not lead to a delay in responding.

Tudalen y pecyn 101

Mae Ymddiriedolaeth Trussell yng Nghymru wedi cadarnhau nad oes arni angen cymorth ariannol gan Lywodraeth Cymru ar hyn o bryd. Mae gan ei rhwydwaith o fanciau bwyd ledled Cymru ddigon o gyflenwad i ateb y galw a digon o wirfoddolwyr i weithio yn y banciau bwyd yn ystod yr argyfwng.

Mae lleihau gwastraff bwyd yn parhau i fod yn flaenoriaeth i Lywodraeth Cymru. Rydym yn parhau i weithio â'r gadwyn gyflenwi bwyd i sicrhau bod gwastraff yn cael ei leihau a bod stoc dros ben yn cael ei hailddosbarthu yn ôl yr angen.

Rhaid canmol y camau gwirfoddol sy'n cael eu cymryd gan y diwydiant i fynd i'r afael â'r mater, yn enwedig yn ystod y pandemig presennol. Byddwn yn monitro'r adroddiadau a gyflwynir gan y gadwyn cyflenwi bwyd drwy'r cytundeb gwirfoddol, Ymrwymiad Courtauld, i weld a oes modd i ragor o fwyd dros ben gael ei ailddosbarthu yn hytrach na chael ei wastraffu. Pe bai angen cymryd camau pellach, dylai fod gennym opsiwn i'w gwneud yn ofynnol i ailddosbarthu bwyd dros ben o dan bwerau a geisir ar gyfer Gweinidogion Cymru o dan Fil yr Amgylchedd y DU.

Yn gywir

Lesley Griffiths AS/MS

Gweinidog yr Amgylchedd, Ynni a Materion Gwledig
Minister for Environment, Energy and Rural Affairs

P-05-963 Require supermarkets to donate excess food to charity, Correspondence – Petitioner to Chair – 17.06.20

Dear Janet Finch-Saunders MS,

In response to the Chair of the Petitions Committee, we would like to commend the Welsh Government's close work with charities such as the Trussell Trust, as well as the financial pledges offered by many major supermarkets, in helping to secure stable supplies for food banks across Wales in this difficult period.

We would also like to raise a few points for the Senedd's discussion of our petition, as we feel the Welsh Government's response places most of its focus on the current financial position of the major food donation distributor, Trussell Trust, during the time of upset caused by the coronavirus pandemic: while we feel that issues pertaining to the crisis should be a priority at the current time, we would also like to point out that the Trussell Trust has been reporting a record number of referrals to its food banks in Wales since last year, well before the coronavirus crisis.

UK Government authorities have maintained that food wasted by many supermarkets is still at an unacceptable level, despite the laudable donations and funds pledged by Morrison's, Tesco and other supermarkets voluntarily. In response to the UK Environment, Food and Rural Affairs Committee's report on food waste in 2017, Committee Chair Neil Parish MP concluded that while he "[commended] Tesco for publishing its food waste data from across the supply chain...The fact that no other retailers have followed their lead shows that a voluntary approach is inadequate...There is a huge amount of surplus food that is currently not being redistributed." This is a far-reaching problem, and though we are glad to see the Welsh Government's primary concern currently lies with alleviating the pressure of the coronavirus crisis, we believe that the twin issues of redistributing surplus food and preventing unnecessary supermarket food waste deserve to be considered on their own terms as separate to the pandemic.

Given the Welsh Government's commitment to halving food waste by 2025, we would like to ask what current Welsh Government powers are over surplus food redistribution, and what powers are being requested in the UK Environment Bill? What specifically does the Welsh Government propose if those powers are obtained, and with elections next May can we expect commitment to the proposals before the end of this Senedd term?

We appreciate the steps taken to communicate with the Trussell Trust and other organisations, and to ensure their financial stability at the current time. Although many food banks across the nation have sufficient food supplies and volunteers to meet demand, there are local food banks still in need of donations whose volunteer numbers have significantly reduced, such as in Caldicot where one food bank's staff has fallen from 20 to only 4. Some of these food banks are not affiliated with Trussell Trust.

When the French Government legislated a supermarket food waste ban, the law improved the quality of food donations, and saw them increased by 30% in the subsequent year alone. Despite concerns over the initial pressure put onto food rescue charities, the law helped make reducing food waste the norm in the food supply chain. Tackling food waste needs a far-reaching approach that engenders behavioural change, so that food system actors (including consumers) change their habits for the better; this needs to be a long-term change, and we urge you to settle for one that has permanent effects, rather than a temporary mandate. We hope you can see that more action on

these matters is necessary, and that while voluntary measures such as the Courtauld initiative are commendable and appropriate for the moment, the problems of food waste and food shortage are a lot older than the current crisis, and will certainly outlast it if left unchecked.

We'd be grateful if the Petitions Committee could keep this petition open and ask these further questions of the Welsh Government, as well as possibly contacting some food banks directly for their response.

Yours sincerely,

P-05-801 Rhaid achub y coed a'r tir yng Ngerddi Melin y Rhath a Nant y Rhath cyn iddi fynd yn rhy hwyr

Cyflwynwyd y ddeiseb hon gan Tamsin Davies, wedi iddi gasglu 8,700 o lofnodion ar bapur ac ar wefan deisebau arall.

Geiriad y ddeiseb

Fel trigolion lleol, rydym yn credu bod y gwaith arfaethedig i atal llifogydd yng Ngerddi Melin y Rhath a Gerddi Nant y Rhath ym Mhen-y-lan, Caerdydd yn ddinistriol, ac yn ddianghenraíd felly.

Rydym wedi gweld y llanast yng Ngerddi Waterloo ac yn gwrthwynebu Cyfnod 3 o Gynllun Llifogydd y Rhath gan Gyfoeth Naturiol Cymru, a fydd yn ehangu'r nant ym Melin y Rhath a Gerddi Nant y Rhath gan arwain at gwympr dros 30 o goed mewn ardal lle na chafwyd unrhyw lifogydd yn y gorffennol.

Rydym am achub y coed a'r tir yng Ngerddi Melin y Rhath a Gerddi Nant y Rhath er mwyn gwarchod cymeriad yr ardal, lleihau'r difrod ecolegol a gwarchod cynefinoedd ein bywyd gwylt lleol.

Credwn nad yw Cyfoeth Naturiol Cymru wedi ystyried yn briodol yr holl opsiynau sydd ar gael, a'u bod wedi camarwain y cyhoedd â ffigyrâu anghywir yn ystod eu cyfnod ymgynghori, a chredwn ei bod, mewn gwirionedd, yn ddianghenraíd i chwalu gerddi'r parc er mwyn ehangu sianel y nant gan waredu hen goed yn y broses.

Rydym yn galw ar Lywodraeth Cymru i annog Cyfoeth Naturiol Cymru i roi'r gorau i'r gwaith yng Ngerddi Melin y Rhath a Nant y Rhath ac ystyried yr opsiynau ymarferol eraill sydd ar gael i liniaru'r perygl canfyddedig o lifogydd yn yr ardal hon.

29 March 2020

Dear Ms Janet Finch-Saunders AM,

P-05-801 Save the trees and ground in Roath Mill and Roath Brook Gardens before it's too late

Further to my letter to you of 5th December 2019, I write to provide an update on the Roath Flood Scheme.

As previously advised, Natural Resources Wales (NRW) has been undertaking a reassessment of the final phase of the Roath Flood Scheme as a standalone scheme. The final phase consists the elements of the scheme in Roath Brook Gardens and Roath Mill Gardens. I can now confirm that we have completed this reassessment.

The re-assessment took account of the work already completed downstream in Waterloo Gardens and Railway Gardens by Natural Resources Wales and the new footbridge built in Roath Brook Gardens by Cardiff Council.

The new footbridge was constructed after the original flood risk was assessed but formed part of the design for the works in Roath Brook Gardens as part of the wider scheme.

The initial result estimates the number of properties at flood risk during a 1.33% (1 in 75) chance flood event has reduced from our previous assessment of circa 70 properties. However, even though there is a reduction in the numbers of properties remaining at risk, NRW remains committed to working with partners and the community to find a solution to manage this remaining flood risk.

I mentioned in my previous letter that Cardiff Council may be undertaking work at Roath Park Lake and we are discussing this with the Council to see if there is an opportunity to manage the remaining risk at Roath Brook and Roath Mill Gardens through these works. Accordingly, we will not be considering any further work in Roath Brook and Roath Mill Gardens until these discussions with Cardiff Council are finalised.

Yours sincerely,

Tim England
Operation Manager – Flood and Water Management
Natural Resources Wales

P-05-801 Save the trees and ground in Roath Mill and Roath Brook Gardens before it's too late, Correspondence – Petitioner to Committee, 17.06.20

Your e-mail enclosed a copy of the letter received from Natural Resources Wales dated 29th March 2020 inviting our comments. Representatives of the group met with Natural Resources Wales in early March 2020 when we were informed of the results of the re-assessment and in advance of the public announcement (a copy of which appears below).

Whilst we are naturally pleased with the results of Natural Resources Wales re-assessment, in that further destructive works to the parks appears unlikely, there remain a number of issues of concern which we believe the committee should be aware of.

1. The letter states that the reassessment has been completed. The group asked NRW for a copy of the report at the meeting in March and it was agreed that it would be disclosed. This has not yet been provided and after being chased earlier this month we were informed on 8 June that "*The report is still a Final Draft and cannot be published formally until it has been through a final internal validation exercise. Unfortunately, the huge amount of work that has fallen out of the February flooding has delayed the final validation. Whilst the validation will not change the outcome ... it is likely to be several weeks before the staff who can carry out the validation will be available, due to their February Flooding priorities.*" Whilst we have been promised a copy of the final report we would ask the Committee to also request a copy of the same and monitor the progress of this final validation exercise.

2. Whilst the letter to the committee states that number of properties subject to a "1 in 75" flood risk has reduced, it does not state the size of that reduction. The re-assessment undertaken by NRW actually reduces the number of properties said to be at a "1 in 75" flood risk from approximately 70 properties to 11 properties (see NRW announcement below). This is obviously a very significant reduction.

3. The stated reasons for the reduction are:

- a) the new Footbridge built in Roath Brook Gardens by Cardiff Council; and
- b) the work completed downstream (phases 1 & 2)

In response we would note:

a) In relation to the footbridge it was installed in 2013, before NRW commenced its design works in March 2014 and over 4 years before the works were actually due to commence. It is obviously concerning that something which appears so fundamental had not even been noticed, let alone its effect considered throughout this time. Further it is worth noting that in their appraisals none of the reports suggest a change in the footbridge as one of the measures that could be taken to cause a dramatic change in the flood risk. A change in footbridge could, of course, have been recommended at a far lower cost to the environment and the public purse. The committee will recall that they were told on a number of occasions by NRW that a thorough and comprehensive review of the risks and options was undertaken before they decided that the significant environmental impact of this scheme was the only option.

b) A re-assessment due to the work completed downstream was one of the central requests the Campaign Group made from the start (along with taking account of the environmental damage). As the members of the committee will recall NRW asserted throughout this matter that a re-assessment was not required because the work completed downstream would have no impact on the flood risk on the houses affected by Phase III. In that regard we would refer by way of example to the response to point 1 in the letter from NRW to the Chair of the Committee dated 24th April 2018. NRW could not have been more explicit in stating "*the risk and measures required to manage it will not change following the completion of Phases 1 and 2*". Further, even when they reluctantly agreed to re-assess, NRW continued to state that they remained "*confident of [their] assessment of the flood risk in the area.*" (NRW Letter to committee dated 29th January 2019). It is clear now that their confidence was misplaced and further that they may have misled the Petitions Committee on fundamental points.

4. The Campaign Group has no desire to point to individual mistakes which may have occurred in this matter, or create scapegoats, but we are concerned that the manner in which the local residents were treated could be repeated in areas where locals may not have the opportunity or ability to challenge NRW's actions. It is therefore important that NRW acknowledge the mistakes which were made, and learn from them, to ensure that they are not repeated. In that regard we have offered to engage with NRW in relation to helping shape future consultations and have been provided with contact details of a third party to engage with. We contacted that third party on 30th March but have not heard back (although we acknowledge this may be COVID related).

We would therefore request that the Committee continue to monitor the position to ensure a suitable outcome for all involved. If the Committee require any further information please do not hesitate to contact us.

Regards

Friends of Roath Brook

Appendix: Text of NRW announcement ([re-assessment-of-cardiff-flood-scheme-completed](#))

Re-assessment of Cardiff flood scheme completed

Natural Resources Wales (NRW) has completed its re-assessment of the flood risk in the Pen-y-lan area of Cardiff.

The first two phases of the Roath Brook Flood Scheme have reduced the risk of flooding to more than 300 homes and businesses in the area.

The final part of the scheme to reduce flood risk to the remaining properties around Roath Brook and Roath Mill Gardens has been on hold since December 2017.

Since that time NRW worked with the Friends of Roath Brook campaign group and in January 2019 agreed to re-assess the final phase as a separate piece of work.

The re-assessment considered the work already completed downstream and the new footbridge built in Roath Brook Gardens by Cardiff Council.

The footbridge was constructed after the original flood risk was assessed but formed part of the design for the works in Roath Brook Gardens as part of the wider scheme.

The initial result estimates the number of properties at flood risk during a 1.33% (1 in 75) chance flood event has reduced to 11. NRW remains committed to working with partners and the community to find a solution to manage the flood risk.

Tim England, Operations Manager for NRW, said:

“Following our re-assessment, there are properties in the area that remain at flood risk, and this risk will only increase due to climate change.

“There may be a way to address this remaining risk as part of work that Cardiff Council is considering at Roath Park Lake, upstream of Pen-y-lan.

“We are discussing this with Cardiff Council and won’t consider further work in Roath Brook and Roath Mill Gardens until these discussions are finalised.

“We will inform the local community once this work is complete and what options we have to address the remaining risk.”

P-05-815 Rheoli'r Diwydiant Dofednod Dwys Sy'n Ehangu'n Cyflym yng Nghymru

Cyflwynwyd y ddeiseb hon gan Gangen Brycheiniog a Sir Faesyfed o Ymgyrch Diogelu Cymru Wledig, wedi iddi gasglu 2,469 o lofnodion ar-lein a 2,098 ar bapur, sef cyfanswm o 4,567 o lofnodion.

Geiriad y ddeiseb

Rydym ni sydd wedi llofnodi isod yn galw ar Gynulliad Cymru i annog Llywodraeth Cymru i gymryd camau strategol hirdymor i sicrhau bod y diwydiant cynyrrch dofednod yn gynaliadwy yn amgylcheddol drwy gyflwyno Deddf yr Amgylchedd (Cymru), Rheoliadau Cadwraeth Cynefinoedd a Rhywogaethau 2017, Deddf Llesiant Cenedlaethau'r Dyfodol a'r Gyfarwyddeb Fframwaith Dŵr (WFD) yn effeithiol.

Mae gyrwyr amaethyddol pwerus sy'n cael eu hatgyfnerthu gan BREXIT yn cynyddu cynhyrchiad dwys o ran wyau a dofednod. Mae Llywodraeth Cymru yn anwybyddu'r canlyniadau amgylcheddol difrifol o ran bioamrywiaeth, pridd ac ansawdd dŵr ac afiechydon adar a dynol. Mae'r cyhoedd yn codi llais ynghylch lles dofednod ond yn anwybodus, ar y cyfan, am effaith amgylcheddol unedau ffermio dofednod dwys. Mae unedau wyau "maes" gyda chrynhoad o hyd at 2,500 o adar i bob hectar yn risg arbennig (adroddiad Cyfoeth Naturiol Cymru 218: Astudiaeth Peilot Dofednod Powys a rhybuddion nitrogen INI 6/17).

Mae cymoedd serth, glawiad uchel sy'n achosi difrod maethol trwm a phoblogaethau o rywogaethau naturiol prin yn gwneud llawer o Gymru wledig yn holol anaddas ar gyfer y ffrwydrad presennol o unedau ffermio dofednod dwys. Ar ôl gostyngiad yn 1990, mae allyriadau amonia wedi bod yn cynyddu ers 2010 (adroddiad Rhestr Allyriadau Atmosfferig Cenedlaethol 2017 ar gyfer DEFRA). Mae llwythau critigol o ddyddodiadau amonia a nitrogen (trothwyon amcangyfrifedig o ran niwed annerbyniol i amrywiaeth planhigion) yn llawer uwch mewn rhai safleoedd gwarchodedig Ewropeaidd a'r DU, Gwarchodfeydd Natur Lleol a Choetiroedd Hynafol. Mae ffosffadau gormodol yn bygwth ein cyrsiau dŵr (Sefydliad Gwy a Wysg 2017).

Wrth fethu â gweithredu ar y dystiolaeth, mae Llywodraeth Cymru, Cyfoeth Naturiol Cymru a Chyngor Sir Powys yn esgeuluso'r ddyletswydd i "gynnal a gwella bioamrywiaeth" (Deddf yr Amgylchedd Adran 6).

Rhaid i Lywodraeth Cymru ddefnyddio ei phwerau i reoli'r diwydiant:

- 1) *Darparu adnoddau priodol ar gyfer Cyfoeth Naturiol Cymru i wneud ymchwil brys, rheoleiddio a monitro unedau dwys a rhoi gwell cymorth cynllunio i Awdurdodau Cynllunio Lleol (ACLI).*
- 2) *Cyhoeddi polisi cynllunio ac arweiniad i ACLI i wella penderfyniadau, sicrhau bod effeithiau cronus yn cael eu hystyried a monitro a gorfodi amodau cynllunio.*
- 3) *Gwneud i'r diwydiant gyfrannu tuag at gostau rheoleiddio a monitro a'i ddwyn i gyfrif am dorri cyfrifoldeb amgylcheddol.*
- 4) *Cyhoeddi adroddiadau cyhoeddus tryloyw ar gynnydd.*

Gwybodaeth Ychwanegol

O Bowys y daw ein dystiolaeth, ond mae ein deiseb yn berthnasol i Gymru gyfan.

Mae'r Cadeirydd, Diane McCrea, yn cadarnhau nad oes gan Gyfoeth Naturiol Cymru ddigon o adnoddau (BBC 14/12/17). Mae Cyfoeth Naturiol Cymru yn asesu effeithiau ceisiadau Unedau Dofednod ar safleoedd natur Ewropeaidd a'r DU ac yn cyhoeddi trwyddedau ar gyfer unedau o dros 40,000 o adar. Mae canllawiau gwell Cyfoeth Naturiol Cymru (Ebrill 2017) yn cwmpasu effeithiau cronnol ond mae dulliau asesu yn methu â rhwystro datblygiad lle mae llwythi yn uwch na'r llwyth critigol presennol.

Mae'r Awdurdod Cynllunio Lleol yn asesu disgrifiad priodol o wasgariad ac effeithiau ar ansawdd dŵr, ansawdd aer, Gwarchodfeydd Natur Lleol, Coetiroedd Hynafol, tirwedd, amwynderau preswyl a thraffig lleol.

Nid oes gan Awdurdodau Cynllunio Lleol y sgiliau a'r adnoddau ar gyfer y cyfrifoldebau hyn. Nid yw Cyngor Sir Powys yn ystyried effaith gronnsus ceisiadau, ynghyd â'r holl Unedau cyfagos, ar yr amgylchedd naturiol, tirwedd neu drigolion gwledig. Dylai Atodlen 2 Asesiad Effaith

Amgylcheddol sicrhau bod yr effeithiau cronus yn cael eu hasesu ond mae hyn yn methu yn ymarferol. Mae Cyngor Sir Powys yn amharod i ddyfarnu statws AEA oherwydd y gall Llywodraeth Cymru wyrdroi'r penderfyniad (gweler P/2016/0608 a P/2017/0007).

Mae gan Ymgyrch Diogelu Cymru Wledig ddata ar geisiadau cynllunio dofednod dwys ym Mhowys ers 2011. Yn ystod y 30 mis diwethaf, bu 99 o GEISIADAU yn cynnwys dros DAIR MILIWN O ADAR, gyda 72 ohonynt ar gyfer wyau maes. O'r 99, dim ond 10 sydd â statws AEA: Mae 65 o geisiadau wedi'u cymeradwyo a DIM OND UN A WRTHODWYD.

Mae gennym dystiolaeth o ddatblygiadau a gymeradwywyd heb fapio gwasgariad cyfuchlinellau neu wasgariad awyr agored, yn agos at warchodfeydd natur (71m), coetiroedd hynafol bregus (cyfagos) cyrisau dŵr (10m) a thrigolion (50m). Mae trigolion yn dioddef risgiau iechyd o bryfed, amonia yn yr awyr, llwch dofednod, gronynnau a gynhyrchir gan draffig ac arogleuon tramgwyddus. Anwybyddir gwrthwynebiadau rhanddeiliaid amgylcheddol a chyhoeddus, mae rhywogaethau planhigion prin yn marw, mae risgiau o glefydau yn cynyddu ac mae cyrsiau dŵr yn methu safonau'r Gyfarwyddeb Fframwaith Dŵr.

DIGON YW DIGON: Gellir gweld cyfres unigryw o DDATA UNEDAU DOFEDNOD DWYS POWYS gan gynnwys ceisiadau, map rhyngweithiol, map o fannau trafferthus ac arddangosfa animeiddiedig o dwf cronolegol yr Unedau Dofednod Dwys yn http://www.brecon-and-radnor-cprw.wales/?page_id=13.

28 February 2020

Dear Mrs Finch-Saunders,

**Petition P-05-815 Control Rapidly Expanding Intensive Poultry Industry in Wales
Petition Committee 21 January 2020**

Thank you for your letter of 12 February 2020 and sharing the additional information raised by petitioners (P-05-815) at the Petitioner Committee meeting held on 21 January 2020.

From your letter the Petitioner Committee is asking us to respond on the points relevant to NRW. We note that this petition raises concerns about the adverse environmental and health impacts of poorly controlled poultry farm units in Wales, the slow progress being made by the Town and Country Planning (Intensive) Agriculture Working Group (set up by Welsh Government) and the review of Environmental Permitting thresholds. Regarding the discussion and specific points raised in the petition we comment as follows:

- 1. Ask the WG to co-operate with NRW in providing a strengthened Planning Policy Wales (PPW) and NRW guidance about ammonia/phosphate impacts on habitats both for “top-tier” tier designations and for “lower tier designations” and other important habitats, including ancient woodland and veteran trees.*

While the petitioner has sought the views of Welsh Government (WG) or Welsh Ministers (WMs) in response to this question, we provide the following comments:

Natural Resources Wales (NRW) and other interests are invited to attend the Working Group to help Welsh Government develop a new Technical Advice Note (TAN) in planning for (intensive) agriculture. We provide advice to minimise the adverse effects of intensive agriculture through the national planning framework and to help WG confirm changes to Planning Policy Wales and TANs. We will review our own guidance once the new TAN has been published.

For this year we will be reviewing our Guidance Note 20: Assessing the impact of ammonia and nitrogen on designated sites from new and expanding intensive livestock units (Guidance Note 20). Provisions will be made to support the assessment of sensitive species and habitat locations in addition to Natura 200 sites, changes to thresholds and screening distances. For example, changes in number of broiler units and places for hens so that they are aligned with requirements set out in the Environmental Impact Assessment and Habitat Assessment Regulations, which help to reduce the adverse impacts of emissions. Our review of guidance will be subject of public consultation in March/April 2020 and there will be an opportunity for our partners and customers to provide comments on our proposed changes to guidance.

2. Ask NRW/WG to set out who is responsible for assessing cumulative impacts, given that:

- a) *development ammonia consultants are saying they cannot do this*
- b) *NRW say it is for LPAs to make the analysis of in-combination impacts*
- c) *LPAs expect to rely on NRW advice and cannot produce adequate accounts of the clusters of units in question and their emissions*

The planning authority is responsible for determining planning applications and in so doing will decide which and how in-combination and cumulative effects will influence their planning decision on a development, and they will also decide on the information to be submitted by an applicant. As a consultee we advise on the potential effects from a development scheme based on the environmental interests listed in our consultation topics document (Development Planning Advisory Service: Consultation Topics (September 2018) is published on our [website](#)). This includes providing advice on potential cumulative and in-combination effects. In the consideration of cumulative impacts, the location of other developments either granted planning permission or subject of an Environmental Permit should be considered.

While local planning authorities are better placed to provide advice and information, they hold on the location of development schemes with planning permission, we can provide advice on the location of sites that have an Environmental Permit. This information can be made available on request.

We also refer you to our letter 17th August 2018 (ref. CH-031) where we confirmed that NRW introduced tighter air quality thresholds in April 2017 to support our regulatory role. These thresholds have been supported by Guidance Note 20. Appropriate staff from NRW and local authorities in Wales have received training in using this guidance. The guidance requires that new units are assessed in terms of background and cumulative impacts so that any relevant permission issued will include appropriate conditions to minimise adverse environmental consequences. Our current guidance is also being considered by WG and its Working Group, which is helping to prepare a new TAN on planning for (intensive) agriculture. Further, NRW would be willing to support WG in preparing guidance to support a strategic approach to minimise adverse impacts on the environment and human health.

*3. Ask the Minister for EERA and NRW to outline the evidence they have been working together to consider about lowering Environmental Permitting thresholds. (Refer to CPRW response** to letters from Ministers Welsh Assembly Petitions Committee Meeting 21/1/20)*

We refer you to our letter 17th August 2018 (ref. CH-031) where we comment that there are opportunities for WG to better manage the proliferation of poultry units, their emissions and adverse impacts on the environment. There appears to be opportunities for WG to review evidence, thresholds and controls, which apply to Environmental Permitting Regulations, and also through the development planning and management processes. In our previous response we commented on the merits of changing the regulatory thresholds to include units below 40,000 bird places (either through permitting or the application of general binding rules). We identified that as an initial step it would be for WG to consider the current impacts that may be occurring across Wales, which have not yet been quantified.

By way of update, in 2019 NRW commissioned consultants to look at extending the application of Best Available Techniques to a wide range of farming activities. The study was limited to ammonia releases and used recognised cost of harm figures for mass releases of ammonia. We are currently evaluating the evidence and once we complete this exercise, we can decide if the evidence is robust and if we can share these studies with other interests.

The Town and Country Planning (Intensive) Agriculture Group, which has been set up by the WG are represented by members from different interests including NRW, local planning authorities and CPRW. The Working Group has been set up to support the drafting of guidance (Technical Advice Note - TAN) on planning for intensive agriculture. Once published this TAN will be a material consideration in development planning and management decisions. While the proposed timetable for preparation has slipped there has been much discussion on the scope of the new TAN and this has included the defining and meaning of intensive agriculture, identification of key material planning considerations and confirmation if there is up-to-date evidence available to support considerations and Working Group recommendations. Notably discussions have identified several gaps in research and evidence, difficulties in managing intensive farming and land spreading of manure, challenges in enforcing requirements, and the limited resources of public bodies and other interests to address matters.

4. Ask the Minister to ensure incorporation of the “polluter pays” principle into WG regulation of agricultural pollution and apply this to all IPU operators (whether or not they opt into extra environmental services for enhanced payments).

While the petitioner has sought the views of WG or WM in response to this question, we provide the following comments;

We refer to our letter of 17th August 2018 where we confirm that any non-compliance with permit conditions will be investigated and appropriate enforcement is undertaken where corrective measures and timely actions are required by a site operator. Appropriate enforcement action is also carried out for reported pollution incidents with costs being

recovered from the polluter. NRW is supportive of the polluter pays principle and that it continues to be set out in Welsh law.

5. Ask the WG to reconsider its unsustainable blanket support for intensive poultry farming and to require and fund proper mapping of intensive livestock units across Wales matched to updated background ammonia/nitrogen levels in order to define areas where a threshold has been reached and no more units are acceptable.

While the petitioner has sought the views of WG or WM in response to this question, we provide the following comments;

We are currently working to ensure our Guidance Note 20 requires that background concentration of ammonia is considered when applying for an Environmental Permit and when providing advice in response to planning consultations. We refer to our comments above where our review of Guidance Note 20 will be subject of public consultation and there will be opportunities to comment on the proposed changes.

We are supportive of identifying areas where tighter controls would be required due to local sensitivities. We are also developing maps containing details of sensitive species across a range of habitats, which will support WG planning advice and local authority planners.

6. Ask NRW whether they will address the problem in Area Statements, particularly for Mid-Wales. The statement from CPRW also comments that “forth coming Area Statements could be a tool for controlling development and protecting rivers in areas which are already suffering unacceptable impacts. NRW has not provided any clear answers about whether Area Statements can or will address the issue of impacts of IPUs on biodiversity.”

The Area Statements will be published at the end of March 2020. The Area Statements in themselves will not limit development or prioritise the issues to be addressed by other formal mechanisms. Area Statements will focus on high-level issues specific to that area and identify a need for partners to work together. For example, in identifying and addressing air quality problems the WG, local authorities and Public Health Wales will need to identify the appropriate response. One of the main themes of the Mid-Wales Area Statement will be on land management and sustainable agriculture. This Area Statement will recognise the following opportunities;

- Increasing the sustainability of farming, enabling our farmers to be custodians of the land and being able to implement change on the ground (with support from the WG's 'Sustainable Land Management Scheme')
- Providing equal opportunities for all managers of the land
- Providing space for both agriculture, food production and nature
- Improving the management of our soils, water and air including the prevention of pollution and enhancing our resources, and
- Sustainable land-based economy and diversification of agriculture

I trust the above information is helpful in your consideration of the questions raised at the Petition's Committee.

Yours Sincerely

Ceri Davies

Janet Finch-Saunders AM
Chair of the Petitions Committee

Government.Committee.Business@gov.wales

17 March 2020

Dear Janet

Thank you for your letter of 12 February regarding Petition P-05-815 – Control Rapidly Expanding Intensive Poultry Industry in Wales.

The Environment (Wales) Act 2016 introduces Sustainable Management of Natural Resources (SNMR) and sets out a framework to achieve this as part of decision-making. I am satisfied that the existing guidance in Planning Policy Wales 10 (PPW) adequately addresses the need to consider pollution within the planning system. PPW requires planners ensure resilient locational choices for infrastructure and built development, taking into account water supplies, water quality and reducing, wherever possible, air and noise pollution as part of a SMNR approach.

The petitioners requested information on who is responsible for assessing the cumulative impacts of intensive poultry units. This responsibility lies with Local Planning Authorities at both the Development Plan and Development Management stages. It is acknowledged that capacity and expertise may be an issue for authorities which is why the Town and Country Planning Intensive Agriculture Working Group will be looking at ways to address this and recommend what robust technical advice and guidance is available.

In December 2018 I issued a statement outlining an intention to introduce a whole of Wales approach to tackling nitrate pollution. The aim of the measures proposed would be to reduce water and air pollution from agricultural sources including from all poultry farms in Wales, irrespective of size. The proposal would require nutrient management planning and prevent nutrient applications in excess of the nitrogen requirement of the crop. Field and holding limits would also apply. These measures would reduce losses of phosphorus and nitrates to waterbodies. It would also ensure all agricultural businesses in Wales would need to have sufficient land available to safely apply the nutrients being produced by livestock.

We welcome receiving correspondence in Welsh. Any correspondence received in Welsh will be answered in Welsh and responding in Welsh will not lead to a delay in responding.

Tudalen y pecyn 1.19

The effect would be to prevent over-intensification in localised areas. The spreading of poultry manure in high risk areas or during inappropriate conditions would be prohibited, reducing losses of nitrate and phosphorus.

The proposed measures would also contribute to reduced ammonia emissions, due to requirements specific to poultry manures. This includes covering poultry manure stored in field heaps, which does not have bedding mixed into it, and the mandatory incorporation of poultry manure into the ground as soon as practicable, and within 24 hours at the latest, when applied to bare soil. The proposed measures would form part of the regulatory baseline which will provide the foundation upon which future payments will be made. Future payments may be impacted if there are breaches of regulations.

The proposal is in line with the polluter pays principle as businesses operating in ways which present the greatest risk of pollution would see the greatest impact, whilst those already following good practice recommendations would be least affected. Consideration is being given to the substantial body of evidence relating to the proposal and the potential impacts before making a final decision.

Sustainable Farming and our Land set how future farm support will be designed around the principle of sustainability. The new sustainable farming payment will reward farmers for delivering sustainable land management outcomes, one of which is clean air. We are identifying what actions can be included in the future sustainable farming scheme to improve air quality. Although we are still at an early stage, the scheme could deliver the same or better environmental outcomes as lowering the environmental permitting thresholds.

We have taken on board the recommendations of Plantlife and we have set out in the draft Clean Air Plan what improvements we think are needed to lower ammonia emissions from farming. This includes working with Natural Resources Wales to explore the scale of the environmental challenge in the farming sector. The plan includes a mix of actions which can be delivered either by the new scheme or by legislation. I encourage the petitioners to respond to the consultation and give their views on our approach to reducing air pollution. They can respond to the consultation on our website: www.gov.wales/clean-air-plan-wales. The consultation ends of 10 March.

Sustainable Farming and our Land demonstrates our intention to support sustainable farms which make an important contribution to the economy, the natural environment and our rural communities. This includes us having the appropriate legislation to protect our natural resources. We have stricter ammonia thresholds for new and expanded poultry units than in England. This means poultry farms in Wales are more likely to have to carry out detailed assessments when applying for an environmental permit. We are also introducing regulations to tackle agricultural pollution and, through the Clean Air Plan, bring in other improvements to lower ammonia emissions from farming.

It is important these proposals are based on good evidence. Maps showing the size and location of poultry farms are a crude assessment because they do not take into account any mitigating measures or the housing system. For example, modern multi-tier housing produces much less emissions per bird. This is why we are working with Natural Resources Wales on whether our proposals in the Clean Air Plan and the Sustainable Farming Scheme need to be targeted more locally. We are also part of the Nitrogen Futures project which is exploring options for protecting habitats and species that are vulnerable to increases in atmospheric pollution. We will look to use the learning from this project when it becomes available later this year. Updates on the project are available on the Joint Nature Conservation Committee website: <https://jncc.gov.uk/our-work/nitrogen-futures/>

Natural Resources Wales are currently preparing Area Statements which will set out a local evidence base for the sustainable management of natural resources. Local Development Plans, Public Service Board Well-being Assessments, National Park and AONB plans must have regard to this evidence. The evidence will be a material consideration for planning decisions.

Area statements will also identify the opportunities where working together can help us deliver the national priorities, build ecosystem resilience and make the most of the benefits Wales' natural resources and ecosystems provide for well-being.

Regards

Lesley Griffiths AC/AM

Gweinidog yr Amgylchedd, Ynni a Materion Gwledig
Minister for Environment, Energy and Rural Affairs

17th June 2020 **Petition no P-05-815**
Submission to Petitions Committee for meeting 23rd June 2020
Response to NRW: ED for Evidence, Policy and Permitting (28.2.20)
and Welsh Minister for EERA (17.3.20)
Correspondence to secretary@brecon-and-radnor-cprw.wales

Dear Petitions Committee,

Thank you for inviting our further comments on the responses from the ED for Evidence, Policy & Permitting NRW and the Welsh Minister for EERA. We welcome this opportunity.

We are extremely grateful to the Committee for continuing to pursue our case. In spite of the welcome good intentions emerging during our petition, the situation on the ground has deteriorated drastically. The authorities will have seen the recent press reports about the green Wye. The concentration of IPUs is contributing to the accelerated dying of our rivers but instead of urgent action, more are being approved.

The Covid-19 viral pandemic is causing scientists all over the world to question our increasing dependence on intensive poultry and pig-farming but Wales is blindly stumbling on without data or evidence.

The respondents have not addressed the basic statistics and distribution of IPUs. We do not have the personal resources to monitor the whole of Wales but have supplied comprehensive evidence from Powys Planning Application data showing that there are more intensively farmed chickens in Powys alone than the 7.2 million shown by the 2019 National Statistics for both intensively and non-intensively farmed broilers and egg-layers in the whole of Wales.¹ We have also produced a distribution map.²

By contrast, **NRW** only records bird numbers for units requiring Environmental Permit (over 40,000 birds) and **Powys LPA** “*has no responsibility for monitoring numbers*” (Professional Planning Lead letter 12/6/20).

The Role of NRW

If there is no adequate basic statutory evidence about bird numbers and distribution of IPUs in Wales , how can **NRW** comply with the Env(Wales) Act which requires it to:

“promote sustainable management of natural resources”, “manage adaptively, by planning, monitoring, reviewing and, where appropriate, changing action”, “consider the appropriate spatial scale for action”, “take account of all relevant evidence and gather evidence in respect of uncertainties”

We warmly support the **NRW** initiative to strengthen the GN20 ammonia guidance and extend the scope beyond nationally and internationally designated areas and we accept that this does provide LPAs with “*advice on potential cumulative and in-combination effects*” but only with respect to ammonia/nitrogen emissions from rearing sheds and parts of free-ranges. We will respond to the Consultation.

At present, where an Environmental Permit is required, the **NRW** evidence base and planning advice are fixed to the permit application date and do not always reflect the guidelines current for the Planning Application. We trust this indefensible institutional lag will not persist with the new guidelines

We do not understand the ambition of “aligning” Environmental Permit thresholds with EIA thresholds (85,000 for broilers and 60,000 for hens - the current EP threshold is 40,000). The newly exempt units would be mainly, but not exclusively, free-range egg-layer units which have been regarded by **NRW** evidence as the most potentially polluting³. In Powys, this would remove a dozen units containing 1 million birds out of regulation by Environmental Permit, when both **NRW** and **WG** have been extolling the control attained though permitting in their previous responses. It is also in direct contradiction to para 3.3 of the current (28/2/20) **NRW** response which suggests the WG could usefully lower the Permitting thresholds below 40,000.

NRW GN21 says: (planning) “*Applications need to include a manure management plan. The plan needs to include:*

- *Calculation of total Nitrogen and Phosphate produced from proposed poultry unit and all other sources of nutrient imported or produced on the holding.”*

In spite of the critical importance of phosphates for rivers, including SACs, we are not aware of ever seeing phosphate calculations mentioned in an application, Officer's Report or in NRW advice.

Where SACs, SPAs, RAMSARs are concerned, LPAs appear to rely on NRW ammonia/nitrogen and hydrological advice to "cover" their Habitats Regulation Assessment duties. Powys CC says "*Natural Resources Wales (NRW) is able to draw on monitoring data for the water quality of rivers in order to assess the contributions that an additional development would make in order to inform its consultation responses on planning applications.*" (Professional Planning Lead letter 12/6/20). In approving P/2015/0955, Wern Llanyre free range egg development on land draining ultimately into the Wye SAC, an objection from the Wye and Usk Foundation was withheld from the public website (third party representations were still published at this date) and no LPA Habitats Regulation Assessment was completed.

The role of the WG

The Minister says of her agriculture pollution measures announced in December 2018, due in January 2020 but still nowhere to be seen, "*The effect would be to prevent over-intensification in localised areas.*"

It is much too late for prevention. WG, NRW and Powys CC have sat back, in full knowledge of our evidence for over-intensification, watching it get steadily worse. Powys has had **54** more applications since our petition submission on 24/1/18. Only **2** have been refused and both these have been resubmitted.

Powys LPA has seen **156** applications in the past 5 years (since 1/7/15). Altogether, there are currently **27** applications awaiting determination and the record suggests they will virtually all be approved. By contrast, neighbouring Ceredigion LPA (half the area of Powys) has seen **5** and only **1** is awaiting determination. It is time for urgent action.

The proposed whole-Wales measure for tackling nitrate pollution demonstrates that the Minister recognises there is a problem but Wales is lagging behind the rest of the UK.

Scotland 2011

Activities likely to cause diffuse pollution are regulated by the [Water Environment \(Controlled Activities\) \(Scotland\) Regulations 2011](#) (more commonly known as the Controlled Activity Regulations (CAR)) and their [further amendments](#).

<https://www.sepa.org.uk/regulations/water/diffuse-pollution/>

England 2018

We published detailed [guidance on the rules](#) on 2 April 2018. The formal rules, the [Reduction and Prevention of Agricultural Diffuse Pollution \(England\) Regulations 2018](#) came into effect on that date.

<https://www.gov.uk/government/publications/farming-rules-for-water-in-england>

Northern Ireland 2017?

Slightly less clear but implemented 'programme of measures' (guidance) in 2015 followed by The Water Environment (Water Framework Directive) Regulations (Northern Ireland) 2017.

<https://www.legislation.gov.uk/nisr/2017/81/contents> <https://www.daera-ni.gov.uk/publications/programme-measures-diffuse-and-point-source-pollution-agriculture-2015>

We dispute that the proposed WG nutrient management plans would prevent over-intensification. In practice, an intention to export manure to both Welsh and English destinations, where spreading cannot be effectively monitored, is enough to allow a farm without sufficient spreading land to gain both an Environmental Permit and planning consent. Besides, how could spreading regimes reduced from 250kg to 170kg total nitrogen per hectare per year in nitrogen-vulnerable zones be implemented when there are so many intensive units approved on the basis of the 250kg calculations? We also believe that extreme weather conditions and rapid weather swings will make it difficult for farmers, even with the best will in the world, to organise minimal-risk manure management. Although these improved anti-pollution strategies are sorely needed, they will have trouble keeping up with climate change and will be partial mitigation, not a magic cure. We anticipate a long transition period which our deteriorating environment cannot afford. Rather than excusing the further proliferation of intensive farms, these measures should be used to address existing problems and go hand in hand with an immediate moratorium on further development where over-intensification already threatens their successful implementation.

Relations between LPAs WG and NRW

As we have repeatedly pointed out the three levels of control are not working together, each showing a readiness to pass the buck without always acknowledging the statutory duties and remit of the others.

NRW has demonstrated in various responses that it is acutely aware of the negative environmental impacts of IPUs and is “*supportive of identifying areas where tighter controls would be required due to local sensitivities*”. **NRW** says there “*appears to be opportunities for WG to review evidence, thresholds and controls, which apply to Environmental Permitting Regulations, and also through the development planning and management processes*”.

NRW refers to its limited planning remit and says “*The planning authority is responsible for determining planning applications and in so doing will decide which and how in-combination and cumulative effects will influence their planning decision on a development, and they will also decide on the information to be submitted by an applicant*.”

Nevertheless, **NRW** has not acted decisively on the “Dutch Case”, ruling to guide LPAs like its English counterparts. Given the state of the Wye, the adequacy of NRW river quality monitoring program must be questioned.

WG has set up the T&CPIAWG and announced agricultural pollution regulation. Neither initiative has produced any results yet. If and when they do, implementation will inevitably be subject to a long transition. We note **WG** says the evidence base for Area Statements will be a Material Planning Consideration, at odds with the **NRW** description.

Powys LPA (this is the only LPA we know well enough to comment on) believes PPW and its own recent LDP, in which it repeatedly refused to incorporate a section on intensive livestock farming, supports consent so long as **NRW** has no concerns. The Professional Planning Lead response (12/6/20) to a consortium of concerned residents sets out the way in which decisions are made. The public is effectively shut off from contributing to decision making: third party representations are not made available on the planning website, EIA applications are now decided under delegated powers but, if they are called in to the Planning Committee by the local Councillor, Committee Members are told they must not read any letters to them from the public.

Our Questions

Our submissions are inevitably becoming more detailed and technical in keeping with the NRW and WG responses but we have some basic questions.

1. Will the **WG** explain whether they are satisfied with the planning process which leads to approval of such an environmentally damaging density of IPUs in one LPA. If not, how will they intervene?
2. Can **NRW** provide a position statement on the “Dutch Case” advising LPAs of their independent duties to undertake proper, full HRA procedure to protect designated rivers.
3. Can NRW explain the “alignment” of Permitting with EIA thresholds.
4. Will the **WG** tell us about the constitution, ToR and proceedings of the Health Working Group announced by Mark Drakeford in early 2019. Is this group considering pandemic risks, anti-microbial resistance and health risks to neighbours arising from IPUs.

In view of the urgency of the situation and wide-spread public concern, we also have three **Requests** which we hope the committee will consider and convey to the **WG & NRW** respondents.

Our Requests

1. In 2018 Wales Environment Link called for “*NRW and Local Authorities pausing any granting of permissions (planning applications and permits) and NRW undertaking an assessment of in-combination effects on water and air quality (including compliance checks) for each catchment with Intensive Livestock Units (ILU)*” . **We want this to happen now for appropriately targeted areas which must include all Powys LPA. We want NRW action to be supported by WG.**

- 2. WG and NRW, should map intensive livestock units through Wales, match their density to river catchments, to background ammonia and nitrogen deposition levels/loads and to sensitive habitats. This should form an evidence base essential to ensure SMNR in livestock farming.**
- 3. NRW must have the resources to research and implement a river recovery plan which targets the more distant sources of pollution as well as the immediate water-body environment. In as much as climate change is resulting in low water volumes in rivers, water extraction must be more firmly regulated than the current permit threshold (20cu.m/day). Water extraction and phosphate management should be included as a material planning consideration in planning determination.**

P-05-815 Control Rapidly Expanding Intensive Poultry Industry in Wales, Correspondence – Petitioner to Committee: Annex - Powys Professional Lead Planning Response, 17.06.20

Thank you for your email and attached letter dated 26th May 2020 addressed to the Council's Leader, Chief Executive and Head of Service for Property, Planning and Public Protection regarding intensive livestock units in Powys. Your letter has been forwarded to me to provide a response on behalf of the Council.

You have raised particular questions in your letter, which for ease of reference I have copied below in blue typeface and then responded to each beneath.

We understand that The Welsh Government has instructed that the environmental and residential impact of IPUs must be looked at cumulatively, so could you please explain what processes you have in place to consider the wider environmental and human health impacts, and how the impacts of the existing factory farms on the environment and human health are actively and regularly measured (e.g. dip-sample air and water quality measurements)? And who has overall accountability for this? The planning lead's reference to someone 'at a higher level' is worryingly vague!

Cumulative and in-combination impacts are material planning considerations which are taken into account and considered in the planning application decision making process. This happens in several different ways, for example:

1. The policies of the adopted Powys Local Development Plan, 2018 (LDP) require applications to consider such impacts.
2. Some applications, depending on the scale, size and location are subject to statutory assessment processes which consider cumulative and in-combination impacts and in so doing inform the decision-making process.
3. Consultees on planning applications are also able to consider cumulative impacts. For instance, Natural Resources Wales (NRW) is able to draw on monitoring data for the water quality of rivers in order to assess the contributions that an additional development would make in order to inform its consultation responses on planning applications.

Whilst the Environmental Health Service reviews and comments on planning applications in relation to environmental health matters, such as private water supplies, noise, dust, odours and flies, it has no duty or requirement to undertake pro-active monitoring post development. NRW is the principal environmental regulator for Wales.

We cannot find a single occasion where Powys has refused permission for an IPU based on the impact on those living close by, nor on the cumulative effects of the emissions, namely ammonia, other gases and particulates. We are therefore forced to question if approval is weighted towards seeking ways to accommodate, without genuine consideration of the many negative impacts on neighbouring residents and the wider community.

According to legislation, planning applications must be determined in accordance with the policies of the development plan – the LDP - unless material considerations indicate otherwise. Impacts on neighbouring residents and the wider community are material considerations that can and are taken into account when deciding planning applications. The consultation process on planning applications, including consultation with statutory bodies such as NRW or the Council's Environmental Health Service, ensures that the impacts arising from a specific development proposal are considered, alongside the cumulative and in-combination impacts from existing and proposed developments. The Authority welcomes comments on planning applications from neighbouring properties and local communities so that these too can be considered as part of the decision-making process.

Is anyone in Powys keeping count of how many million birds are now accommodated in the IPUs in our County? Could you please explain how Powys considers this growing risk to public health increased by each additional factory farming unit approved?

In terms of the responsibility for monitoring livestock numbers, poultry keepers must register with Welsh Government and with the Animal and Plant Health Agency (APHA). Where there is a suspected notifiable disease outbreak, for instance, APHA is notified and investigates, and should the outbreak be confirmed, enforcement is undertaken by APHA with the support of the Council's Animal Health Services.

As a Local Planning Authority, the Council holds information about the applications that have been received, but it is not required to complete monitoring returns to Welsh Government as it does for certain other types of development. However, it is possible that the forthcoming Technical Advice Note may specify additional requirements in this respect.

We ask that you urgently:

1. Implement a moratorium in respect of all current and future IPU and other intensive factory farm applications until you are able to accurately take stock of the current situation.

As a Local Planning Authority, the Council has a statutory duty, as set out in legislation, to determine planning applications. The Authority is therefore unable to impose a moratorium on any type of planning application because to do so would conflict with this statutory duty.

2. Undertake a comprehensive environmental survey to ascertain if current air and water quality in parts of Powys with a concentration of IPUs are near, or already beyond, saturation point.

There is no requirement upon the Council to undertake such an environmental survey although Welsh Government might stipulate evidence requirements as part of the forthcoming Technical Advice Note on intensive livestock units in order to inform future development plan policies.

Air and water quality are material planning considerations that are considered as part of the determination of applications for intensive livestock units. All planning application proposals for intensive livestock units are subject to consultation with various statutory bodies, including NRW and the Council's Environmental Health Service, to ensure that the environmental impacts are reviewed by the relevant statutory body.

In addition, various regulatory assessments may be required depending on the type, scale and location of the application. For example, a Habitats Regulations Assessment, and potentially an Appropriate Assessment, is required where applications would impact on a European designated site such as a Special Area for Conservation to ensure that its conservation status is not unacceptably affected.

3. Properly assess the human health considerations to residents posed by the already large number of factory farms present in Powys (based on actual studies rather than desk-based predictions).

Please refer to the response to number 2 above. Human health considerations such as impacts arising from odour, dust, noise and other emissions are material planning considerations that are taken into consideration by the Authority when determining planning applications.

4. Provide details of how Powys CC takes into account the provisions of the 'Well-being of Future Generations (Wales) Act 2015' when determining applications.

The Well-being of Future Generations (Wales) Act 2015 has been embedded into the planning system in Wales in several ways. The Planning (Wales) Act 2015 provided the following statutory purpose for the planning system in Wales – any statutory body carrying out a planning function must exercise those functions in accordance with the principles of sustainable development as set out in WFG Act.

By law, the Authority must determine planning applications in accordance with the development plan in place unless material considerations indicate otherwise. As part of its preparation, the draft LDP was assessed against the seven Well-being goals contained in the Well-being of Future Generations Act (2015), to ensure its policies met the goals. Material considerations include, for instance, Planning Policy Wales which has been revised and updated to reflect the sustainable development principle, the seven well-being objectives and five ways of working introduced by the WFG Act.

5. Cease determination of all IPU applications until the new Intensive farming TAN is in place to properly guide planning officers in their decision-making process.

Please refer to the response to number 1 above. The Authority has a statutory duty to determine the planning applications that we receive from our customers.

Mae cyfyngiadau ar y ddogfen hon

P-05-895 Etifeddiaeth Rosa: Dylid cyflwyno cynllun i helpu pobl i gael hawl i ofal milfeddygol ar gyfer eu hanifeiliaid anwes

Cyflwynwyd y ddeiseb hon gan Linda Joyce Jones, ar ôl casglu cyfanswm o 95 lofnodion.

Geiriad y ddeiseb:

Rydym yn galw ar Gynulliad Cenedlaethol Cymru i ofyn i Lywodraeth Cymru gyflwyno cynllun i helpu perchnogion cyfrifol anifeiliaid anwes i gael hawl i ymgynghoriadau milfeddygol wyneb yn wyneb a gofal ar gyfer eu hanifeiliaid.

O eleni ymlaen bydd gan Lywodraeth Cymru bwerau trethu cyfyngedig eu hunain am y tro cyntaf. Ers blynnyddoedd lawer mae pobl gyffredin wedi cael trafferthion i dalu costau byw sylfaenol, ac mae hyn yn parhau. Nid oes dim amheuaeth ynglŷn â'r manteision i iechyd meddwl a llesiant pobl o gael anifail anwes. Mae llawer o'r anifeiliaid yn dod yn rhan o'r teulu. I bobl sy'n byw ar eu pennau'u hunain neu'n anghysbell, gall yr anifail fod yr unig gwmni sydd ganddynt.

Mae gwyddoniaeth filfeddygol, fel y rhan fwyaf o broffesiynau, wedi esblygu'n gyflym dros y blynnyddoedd diwethaf. Mae Llawfeddygon Milfeddygol, nyrsys milfeddygol a'u staff cymorth sy'n gweithio ar y "rheng flaen" yng Nghymru yn gwneud hynny o dan amgylchiadau heriol iawn yn aml. Mae'n dda gweld bod eu corff llywodraethol, sef Coleg Brenhinol y Milfeddygon (RCVS) wedi cydnabod hyn yn y blynnyddoedd diwethaf ac wedi cymryd camau i geisio cefnogi llesiant iechyd meddwl o fewn y proffesiwn. Ond yn wahanol i iechyd dynol yng Nghymru, nid oes gwasanaeth am ddim ar gael gan y Gwasanaeth Iechyd Gwladol ar gyfer anifeiliaid pan fyddant ei angen, bedair awr ar hugain y dydd, saith diwrnod yr wythnos.

O dan adran 3.16 o Ddeddf Lles Anifeiliaid (Cymru a Lloegr) 2006, cyfrifoldeb y perchnogion yw darparu ar gyfer pum angen llesiant sylfaenol anifeiliaid, a'r pumed o'r rhain yw ei "amddiffyn rhag dioddef poen, anaf a chlefyd".

Gwybodaeth ychwanegol:

Mae'r maes yswiriant ar gyfer anifeiliaid anwes wedi ffynnu yn y blynnyddoedd diwethaf. Ond gall llawer o berchnogion cyfrifol barhau i gael trafferth i gael gwarchodaeth yswiriant ar gyfer eu hanifeiliaid anwes. Mae hyn yn sgîl cyflyrau sydd eisoes yn bodoli, cŵn sydd wedi'u heithrio oherwydd deddfwriaeth benodol ar fridio, neu lawer o anifeiliaid anwes sydd, yn symli, angen rhagor o driniaeth na'r hyn y mae polisi yswiriant eu perchnogion yn ei ganiatáu.

Mae rhai sefydliadau'r trydydd sector, fel yr elusen filfeddygol PDSA, wedi ceisio llenwi'r bwlc ers sawl blwyddyn. Maent wedi gwneud gwaith clodwiw, ond yn y blynnyddoedd diwethaf maen nhw, hyd yn oed, wedi gorfod gwneud y penderfyniad torcalonnus i gwtogi ar eu darpariaeth. Nid oes gan rai ardaloedd yng Nghymru ddim ysbytai anifeiliaid na chlinigau milfeddygol o fath yn y byd a ddarperir gan elusennau.

Mae tuedd bryderus hefyd i berchnogion droi at fforymau ar y cyfryngau cymdeithasol i gael cyngor ar faterion clinigol, yn hytrach na mynd â'u hanifeiliaid i bractis milfeddygol. Rwy'n adnabod pobl sy'n ateb llinellau ffôn cymorth ar ran elusennau anifeiliaid. Dywedant wrthyf fod y duedd hon yn cael ei ailadrodd.

Gyda'm cefndir i ym maes achub anifeiliaid, rwyf wedi bod yn argyhoedddeg ers blynnyddoedd lawer fod nifer cynyddol o anifeiliaid anwes yn cael eu gadael neu eu rhoi mewn canolfannau achub, yn rhannol, oherwydd nad yw pobl yn gallu ariannu gofal milfeddygol ar eu cyfer. Mae'r canolfannau achub yng Nghymru yn orlawn, ac mae'r holl ystadegau sydd ar gael yn dangos bod achosion o'r fath, ac unrhyw erlyniadau sy'n deillio ohonynt, yn codi.

Yn gyntaf, byddai cynllun o'r fath yn helpu anifeiliaid anwes a'u perchnogion. Byddai hefyd yn helpu'r rheini sy'n gweithio ar y rheng flaen yn y canolfannau achub anifeiliaid, ac yn sicr yn helpu'r proffesiwn milfeddygol yng Nghymru, sydd hefyd ar adegau yn gweithio mewn amgylchiadau heriol tu hwnt.

Janet Finch-Saunders AC
Cadeirydd y Pwyllgor Deisebau

Government.Committee.Business@gov.wales

07 Ebrill 2020

Annwyl Janet

Diolch i chi am eich llythyr dyddiedig 24 Mawrth ynghylch Deiseb P-05-895, Etifeddiaeth Rosa.

Rydym yn parhau i weithio'n agos gyda Rhwydwaith Lles Anifeiliaid Cymru (AWNW) sy'n edrych ar y gefnogaeth a gynigir gan awdurdodau lleol yng Nghymru ar gyfer perchnogion anifeiliaid anwes nad ydynt, am ryw reswm neu'i gilydd, yn gallu gofalu am eu hanifeiliaid. Mae'r mater o ran y costau a godir gan filfeddygon preifat yn benderfyniad busnes wrth gwrs, ond rydym yn annog Cymdeithas Milfeddygon Prydain (BVA) i weithio gyda'u haelodau i gynghori Llywodraeth Cymru ar yr hyn sy'n bosibl.

Byddwch yn gwerthfawrogi yn sgil Covid-19, rydym wedi gorfol rhoi llai o blaenoriaeth i rai o'n meysydd gwaith er mwyn sicrhau bod ein partneriaid cyflenwi yn gallu rhoi blaenoriaeth i weithdrefnau pan neu os bydd amgylchiadau yn newid ac adnoddau yn prinhan. Ein blaenoriaeth yw parhau i ddarparu gwasanaethau sy'n diogelu iechyd y cyhoedd, diogelu anifeiliaid rhag clefydau statudol a sicrhau nad yw lles anifeiliaid yn cael ei beryglu.

Byddwn yn trefnu cwrdd ag aelodau AWNW, gan gynnwys BVA, i drafod y materion hyn pan fydd y blaenoriaethau yn newid a byddwn yn eich diweddar pan fo hynny'n bosibl.

Yn gywir

We welcome receiving correspondence in Welsh. Any correspondence received in Welsh will be answered in Welsh and responding in Welsh will not lead to a delay in responding.

P-05-895 Rosa's Legacy: Introduce a scheme to help people access veterinary care for their companion animals, Correspondence – Petitioner to Committee, 16.06.20

To the Chair and Members of the Petitions Committee of the Senedd Cymru.

P-05- 895: Rosa's Legacy Introduce a scheme to help people access veterinary care for their companion animals.

Thank you for having my petition as an agenda item and for asking me to respond to the correspondence you have received.

The Minister's response to you - 7/4/2020

I would like to thank Lesley Griffiths MS for her response and in doing so may I say I totally understand that our Welsh Government's attention has to be focused primarily on the Covid-19 pandemic at this time.

I am very pleased to see that Lesley is now working with and involving CAWGW (Companion Animal Welfare Group Wales) . However I am still puzzled as to why the Welsh Government should be consulting with Local Authorities as it's my understanding this matter is not within their remit.

I agree with Lesley that the setting of fees by private veterinary practice's is a business decision. But this is a matter the RCVS (Royal College of Veterinary Surgeons) as the body who claims to regulate the profession in the UK **can** act on if they choose to do so . The BVA (British Veterinary Association) is not an organisation every veterinary surgeon has to join and they have no regulatory powers. The BVA have already stated to Members that they " do not have a position on this issue ". However as I stated in my previous submission I find this statement very puzzling as their Members must be aware of the issues I have flagged up.

Brief Update

Animal welfare is a matter devolved to our Welsh Senedd and Government. The Welsh Government have said that the welfare of animals is a high priority for them. The UK and Welsh Government's have jointly acknowledged that animals are sentient beings. In previous submissions both CAWGW and myself have touched on the issue of how such companion's improve the wellbeing of their owners.

I still feel the rapid corporatisation of the veterinary industry here in Cymru is a crucial issue here. That wagon roles ever forward to the detriment of animal welfare and us companion animal owners. In my part of North West Wales only one independently run veterinary practice remains **1**.

As Professor Noel Fitzpatrick MRCVS points out " **It's estimated that up to half of all primary care veterinary practices across the United Kingdom are now owned by venture capital equity groups....Some of these groups own hundreds of primary care practices, most have centralised referral centres and some have pet crematoria, own-brand drugs, online pharmacies, laboratories, out-of-hours surgeries, locum agencies and both online and retail shops** " 2.

Again I wish to make clear that I am not attacking individuals within our veterinary profession . I consider that the corporate takeover affects them deeply too. As the rise in calls to the charity Vetlife confirms. 3.

I am convinced that the current economic situation we find ourselves in when we come out of lockdown will months down the line have a significant effect on the choices people are forced to make in regards their companion animals.This combined with the corporates holding so many of the cards will result in a disastrous outcome for many.I really fear the card of " economic euthanisea " will be played time and time again . This to my mind should play no part in a modern Cymru- one in which animals like My late Rosa are Members of people's families and are classed as Sentient beings.

Conclusions- Next Steps.

Nearly two years after losing My beloved Lady Rosa I find myself increasingly frustrated by what I witness others going though with their beloved family members.

On a personal level the pain I experience deep down inside remains. My battle against being overwhelmed by it is constant.

This is made worse by the knowledge and realisation that the very profession and the body who claims to be their regulator (RCVS) seems totally oblivious to what I and many others go through and the very valid points that we raise . The manner in which the RCVS plan to conduct their forthcoming long awaited " Under Care Review " speaks volumes. They (RCVS) have confirmed to me that they have no plans to involve any Member of the Senedd, only the Chief Veterinary Officer of the Welsh Government (herself a veterinary surgeon). Plus they will draft the legislation then consult the pet owning public 4.

1. I would like to be actively involved in the collaboration that the Minister Lesley Griffiths MS refers to.

2. I would like Members of our CCEC to be informed about the issues I raise particularly surrounding the corporatisation of the veterinary profession in Cymru. Could this be an issue they look at as a Committee?

3. I think it may be of benefit if the CMA (Competition Marketing Commission) where approached to see if they have any concerns in regards to the corporate takeover.

Once again may I offer my heartfelt thanks for the diligent way Members have considered this matter. As always I would be willing to help you in any way I can.

Cofion.

Government.Committee.Business@gov.wales

27 February 2020

Dear Janet

Thank you for your letter of 12 February, regarding Petition P-05-933 Ban Goldfish from being given away at funfairs #OperationGoldfish, which was discussed at your meeting of 4 February.

I note the Committee's request for the Wales Animal Health and Welfare Framework Group to be asked for advice on this matter and I can confirm a discussion point on the giving of animals as prizes has been added to the agenda for the next meeting on 31 March. My officials will ensure a copy of the minutes are provided to the Committee Clerk for information.

With regard to the Showmen's Guild, I have received a letter in which they confirm, for over 50 years, it has had a resolution to its constitution ensuring all members take account of the welfare of goldfish. Alternative prizes are also available so a goldfish has to be chosen by a winner. If a goldfish is chosen, RSPCA care leaflets are given to every winner. Therefore, the Guild argues this is no different to a person buying a goldfish from a pet shop.

I trust this letter satisfactorily answers the questions raised by the Committee but please do contact me if further information is required.

I Regards
Lesley

We welcome receiving correspondence in Welsh. Any correspondence received in Welsh will be answered in Welsh and responding in Welsh will not lead to a delay in responding.

**P-05-933 Ban Goldfish from being given away at funfairs. #OperationGoldfish,
Correspondence – Petitioner to Committee, 17.06.20**

Thank you for taking time to discuss this matter and for investigating the matter further. I note that your letter states the showman guild ensures all members take account of the welfare of goldfish. Can you please confirm how they go about this? The letter states the member takes account of the welfare, which implies the onus is on the member. Are the members or the guild itself monitored or checked? What measures are in place to ensure they are complying with the guidelines? If checks are not undertaken by the guild, as the responsibility is on the member; if they are undertaking incorrect practise then would they change or improve their practise and would they know they were acting incorrectly? Without refresher or checks in place, people can often become complacent or information becomes outdated. I can confirm that within a pet shop we have spot checks, mystery shoppers, area manager checks, we have to document all sales and customers details in line with our licensing agreement. We monitor the water, we have exams, tests and constant refreshers to keep our expert advice correct and up to date.

It says that for over 50 years they have had a resolution to its constitution ensuring all members take account of the welfare of the goldfish, however over those 50 years our society has evolved, culture changes, what is perceived as right/wrong changes, what should/shouldn't happen changes, laws change. Has their protocol been updated in the last 50 years to reflect this? Has it even been reviewed throughout the 50 years and if so, how often? Have they supplied a copy of their protocol/advice they give to members? If it hasn't been updated or changed then it clearly is outdated like the tradition which they are trying to defend.

I also note that they claim other prizes are available. Is it compulsory for every stall to offer alternatives? Has this claim been verified, as when I visited Barry island there are large signs which state "Goldfish if you win" (see link to newspaper article which has pictures of the stand) – they are clearly heavily promoting live animal prizes compared to alternatives. Are the alternative prizes on different stalls? Are alternative prizes only available if requested? What are the other prize choices they offer? A high value pet with a small plastic tub for a home versus a small stuffed toy with a nominal value? Surely a high proportion of people would prefer a perceived higher valued item to get their monies worth. As there is the option to win a goldfish, of course consumers will opt for this, it seems fun and the stalls push this. By simply banning this archaic tradition then people wouldn't have the option to win a goldfish on a whim, without education.

It is reassuring that they do offer alternative prizes, which shows that if they stopped offering live animals as prizes then they have an alternative/ back up they can use. As the guild reference alternative prizes it is evident that these alternatives are successful for them, so why still use these poor live animals?

Also is it morally right for Welsh Government to continue to allow live animals to be given away as prizes? We as a society have evolved and animal welfare is a very important topic. Thankfully a lot of archaic traditions have stopped and this is a tradition which should be

stopped.

The showmen's guild argue that there isn't any difference between obtaining a goldfish from a funfair or a pet shop, whereas in fact there are a lot of very distinct differences. In pet shops I know that (as I work in one myself) there are certain laws you must adhere to, animal welfare criteria that must be met and external bodies can turn up unannounced to perform a pet welfare report at any time, which if failed holds serious consequences for duty and all managers. You must hold a pet shop license to be able to sell animals (to obtain this you must again, adhere to strict animal welfare guidelines) which has to be renewed every year. Pet shops are permanent buildings whereas some funfairs that offer prize goldfish are travelling ones, which begs the question where is the security? What happens to any goldfish that they didn't manage to sell or 'give away' over the temporary summer period they were set up? You often hear horror stories of them being thrown away, chucked in the sea, given away for free or just binned at the end of a season, which all sounds far fetched, however, what are you to do with a plastic tub of hundreds of goldfish you didn't manage to sell?

When a person goes to a funfair they do not go with the intention of leaving that day with a 25 year commitment of a pet that can ultimately cost hundreds of pounds and eventually need a tank the size of your sofa. It is entirely a win made on an impulse. I'm not denying that going to a pet shop can lead to an impulse buy of a goldfish, however, there will be a professional aquatics expert on hand to ensure the customer is fully capable and understanding of the needs of this pet they are looking to purchase and they can be refused a sale if necessary. In my experience, 9 times out of 10 when I explain to a customer that a goldfish cannot simply go into a bowl of unfiltered water and that they will in fact live up to 25+ years that customer will swiftly change their minds and go for a much easier option. Also, if you do win a goldfish as a prize from a funfair, how long is it in the bag for before you go home? Lots of people travel over half an hour to go to funfairs, and the maximum time a fish should be kept in a plastic bag for moving purposes is half an hour, so that fish is already suffering before it's even arrived at its new home. Once you have arrived home, where are you going to put the fish? As they require a minimum of a 50 litre tank that has been set up for at least 72 hours prior to purchase, to ensure the water has been dechlorinated, the filter is functioning correctly and the water has reached the right temperature, of about 18 – 22 degrees Celsius.

If the act of giving away an animal as a prize was blanket banned across the country, then this temptation to win an animal would be eradicated for good, saving countless animals lives and removing them from the category of a 'prize' and ultimately giving a living animal the respect it deserves; which would be a huge step forward in the animal rights movement.

It is also disappointing to read that the showman's guild has given incorrect information in relation to the RSPCA. The leaflet they offer is not from the RSPCA and in fact my previous letter states how the information is incorrect; so much so it could result in the death of the animal. I have, and continue to work closely with the RSPCA who also support the motion to ban goldfish being given away as a prize. If they were working with the showman's guild then the RSPCA wouldn't be in support of this motion as they would be confident the animal's

welfare was cared for. The RSPCA has successfully achieved the support of the Newport, Conwy and Caerphilly Councils that have passed the ban, again confirming that the RSPCA do not work with the showman's guild. Please see attached email from Lewis from the RSPCA, which categorically confirms that they do not work with them and have not provided any support or information to use in their leaflets. As the showman guild has provided incorrect information about their working relationship with the RSPCA, then it does beg the question of the integrity of the guild and also the accuracy of the rest of the information they have provided to Welsh Government.

<https://www.barryanddistrictnews.co.uk/news/17718471.woman-aims-to-stop-fairs-goldfish-prizes/> - This is the link to the picture of the goldfish stand at Barry Island.

<https://www.barryanddistrictnews.co.uk/news/17932235.barry-operation-goldfish-campaigner-supports-caerphilly-council-pets-prize-concern/> - Here is a link to show OpGold working with the RSPCA in getting Caerphilly councils support in the motion.

Please also see attached an email from [REDACTED], the public affairs adviser, for RSPCA Cymru confirming that the information the showmen's guild has provided is incorrect.

P-05-933 Ban Goldfish from being given away at funfairs. #OperationGoldfish, Correspondence – Petitioner to Committee: additional information from RSPCA Cymru in relation to the Showman's Guild, 17.06.20

The RSPCA have worked with them in the past, but have not had any direct correspondence with them for about 25 years so we can't necessarily endorse whatever they're doing at the moment, and we don't know what care information they might be giving out with our name on it.

According to our records, we came to an agreement with the Guild in 1955 that they would include guidance in their rule book/code of practice on the giving of live animals as prizes, although we still took the position that animals should not be given as prizes at all. This included conditions about how fish should be kept and a requirement that an RSPCA care leaflet is given with each fish (see below). Their 2019 rules booklet still refers to the original rule from 1958 which suggests that hasn't changed since then.

From our files, the last date of correspondence appears to be 1995. At some points during the 70s, we were sending thousands of copies of our leaflets to the organisation for them to distribute to their members, but the last reference to leaflets was in 1990.

In relation to their care advice - it's generally lacking in detail and there are several points where our current guidance does differ from theirs. For example we advise a stocking guide of 0.5cm of fish per 2 litres of water. whereas they advise 0.5cm per 1 litre. There's no information in their guide about filtration and water testing, which is a surprising omission as this is critical for good water quality, and nothing about how long the tank takes to establish (should be around two weeks before adding any fish, whereas they suggest adding fish immediately). They also describe goldfish as social and need the company of other fish, which isn't the case as 'they are fine being kept alone.

The RSPCA remains committed to ending the giving of pets as prizes, with those animals that are given as prizes often suffering as a result.

Eitem 5.5

P-05-941 Cylch gwaith bioamrywiaeth ar gyfer Cyfoeth Naturiol Cymru
Cyflwynwyd y ddeiseb hon gan Initiative for Nature Conservation Cymru
(INCC), ar ôl casglu 873 o lofnodion ar-lein a 322 ar bapur, sef cyfanswm o
1,195 o lofnodion.

Geiriad y ddeiseb:

Mae Menter ar Gyfer Cadwraeth Natur Cymru (INCC) yn galw ar Gynulliad Cenedlaethol Cymru i annog Llywodraeth Cymru i gynnwys 'Bioamrywiaeth' yn benodol wrth osod eu cylch gwaith strategol i Cyfoeth Naturiol Cymru ar gyfer 2020/2021 ac yn y dyfodol. Yn benodol dylai'r cylch gwaith gynnwys:

- Bydd Cyfoeth Naturiol Cymru yn sicrhau bod bioamrywiaeth yn ganolog i'w bwrpas craidd wrth geisio rheoli adnoddau naturiol yn gynaliadwy drwy:
 1. Gweithio tuag at welliant cyffredinol yn statws bywyd gwylt Cymru ac atal neu o leiaf leihau'r risg o unrhyw ddifodiant pellach o ganlyniad i weithgareddau dynol.
 2. Sefydlu ardaloedd cynaliadwy, mwy a llai tameidiog ar gyfer bywyd gwylt, a ddylai ganolbwytio i ddechrau ar gydgrynhoi ac ymestyn Gwarchodfeydd Natur Cenedlaethol presennol ac ardaloedd gwarchodedig eraill, ac yna sefydlu ardaloedd newydd.
 3. Blaenorriaethu'r angen i gael statws ffafriol neu adferol ar gyfer nodweddion cadwraeth ar bob safle cadwraeth natur statudol (AGA, ACA, SoDdGA a GNG).
 4. Datblygu a gwella rhwydwaith effeithiol o Ardaloedd Morol Gwarchodedig sy'n ddigonol i sicrhau bod bywyd morol a physgodfeydd cynaliadwy yn cael eu diogelu'n ddigonol o amgylch Cymru.
 5. Sicrhau bod mwy o bobl yn mynd ati i gymryd rhan mewn materion bioamrywiaeth, a'u bod yn ymwybodol o arwyddocâd bioamrywiaeth i'w hiechyd a'u lles.

Gwybodaeth ychwanegol:

Ers cychwyn Cyfoeth Naturiol Cymru chwe blynedd yn ôl, mae dirywiad cyson ac amlwg wedi bod yn ymrwymiad Cymru tuag at fioamrywiaeth a chadwraeth natur. Mae Cymru wedi'i disgrifio fel un o'r ardaloedd mwyaf disbyddedig o ran natur yn y byd sydd eisoes wedi achosi difodiant llawer o'i rhywogaethau planhigion ac anifeiliaid brodorol. Mae nifer fawr o'r rhywogaethau sydd yn dal i fodoli bellach yn brin neu o dan fygythiad, gan oroesi mewn rhannau o'u cynefinoedd sydd yn aml yn ynysig.

Mae INCC yn credu bod pobl Cymru a'r bywyd gwylt y maen nhw'n rhannu eu cymuned ag ef yn haeddu gwell. Mae angen mwy o ymrwymiad gan Lywodraeth Cymru a Cyfoeth Naturiol Cymru os yw Cymru am fod ag unrhyw obaith o wyrdroi'r dirywiad mewn bioamrywiaeth ac atal difodiant bywyd gwylt pellach rhag digwydd.

Ffordd effeithiol o ddangos yr ymrwymiad hwn tuag at wyrdroi'r dirywiad mewn bioamrywiaeth fyddai sicrhau bod Llywodraeth Cymru yn cynnwys 'Bioamrywiaeth' yn benodol fel rhan o gylch gwaith strategol Cyfoeth Naturiol Cymru.

O ystyried y colledion parhaus i fywyd gwylt a'r hyn a welir fel diffyg blaenoriaethu tuag at gadwraeth natur yn Cyfoeth Naturiol Cymru, mae'n amlwg na all 'Bioamrywiaeth' aros fel rhan ymhlyg o swyddogaethau Cyfoeth Naturiol Cymru. Rhaid ei wneud yn benodol a rhoi blaenoriaeth briodol iddo.

Os na fydd unrhyw newid, mae difodiant bywyd gwylt yng Nghymru yn y dyfodol yn anochel.

Ein cyf/Our ref LG/00673/20

Janet Finch-Saunders AM
Chair of the Petitions Committee

Government.Committee.Business@gov.wales

01 April 2020

Dear Janet

Thank you for your letter of 12 March, regarding Petition P-05-941 Biodiversity Remit for Natural Resources Wales (NRW).

Welsh Government recognises the escalating nature emergency, and reversing the decline in biodiversity is one of our top priorities. Key to meeting our objectives is the legislation I outlined in my previous correspondence (LG/000072/20) which will bring biodiversity into the heart of decision making in public life. This letter also set out how legislation applies with regard to NRW's remit and biodiversity.

NRW are already subject to a statutory duty to maintain biodiversity. Under Section 6 of the Environment (Wales) Act, the biodiversity and resilience of ecosystems duty requires public authorities, including NRW, to maintain and enhance biodiversity, and in so doing promote the resilience of ecosystems. To fulfil their duty, action for biodiversity is embedded in NRW's statutory requirements for the sustainable management of natural resources. NRW have integrated their plan for compliance with the Section 6 duty into their organisational plans, with the high level commitments in the [Corporate Plan to 2022](#) and will report on compliance in their published annual reports.

The 2018-19 report is available [here](#); page 11 refers specifically to the biodiversity and resilience of ecosystems duty, and reporting on well-being objective 3 from p25 onwards sets out work being carried out for biodiversity.

Gohebiaeth.Lesley.Griffiths@llyw.cymru
Correspondence.Lesley.Griffiths@gov.wales

Rydym yn croesawu derbyn gohebiaeth yn Gymraeg. Byddwn yn ateb gohebiaeth a dderbynir yn Gymraeg yn Gymraeg ac ni fydd gohebu yn Gymraeg yn arwain at oedi.

We welcome receiving correspondence in Welsh. Any correspondence received in Welsh will be answered in Welsh and responding in Welsh will not lead to a delay in responding.

This work helps to deliver the Nature Recovery Action Plan for Wales, restoring resilient ecological networks across Wales. These are networks of habitat in good ecological condition linking protected sites and other biodiversity hotspots across the wider landscape, and providing maximum benefit for biodiversity and well-being. Our [Natura 2000 sites](#) are core to resilient ecological networks. Action such as the SSSI Baseline Evaluation project will enable the delivery of the future Protected Sites Terrestrial Monitoring Programme and provide operational information to inform site management.

Integrating biodiversity into how we set our budgets was a crucial part of this last year resulting in the announcements of additional money for biodiversity in the Welsh Government's 'A Budget to build a more prosperous, more equal and greener Wales' published in December. The budget provides additional funding for biodiversity projects including:

- £15m for improvements to our Natura 2000 sites
- £4.5m for the National forest
- £1.145m for the Peatland Restoration programme
- £0.5m for a Biodiversity Taskforce to pilot approaches to capacity and capability building for systemic change.

NRW will be a major delivery partner in these projects and will also be working with Welsh Government to develop an Environmental Growth Plan by autumn 2020.

I am currently in discussions with NRW regarding their 2020-21 Remit Letter which will be issued in due course and made publically available. This letter will set out Welsh Government's expectations for their role in delivering for biodiversity, over and above their core delivery.

I understand you have also written to NRW who will respond to the operational issues raised in the petitioners' letter.

Regards

Lesley Griffiths AC/AM

Gweinidog yr Amgylchedd, Ynni a Materion Gwledig
Minister for Environment, Energy and Rural Affairs

Petitions Committee
National Assembly for Wales

15th June 2020

Dear Petitions Committee

INCC's Comments following the Minister's response (LG/00673/20) to the petition (P-05-941) - Biodiversity Remit for Natural Resources Wales (NRW)

Thank you for the opportunity to provide comment and further evidence in relation to the Minister's response (LG.00673/20) to the INCC Petition (P-05-941) - Biodiversity Remit for Natural Resources Wales.

INCC welcomes the progress made by Welsh Government in light of the petition, particularly the recognition of the nature emergency and the added emphasis on NRW as the major facilitator to halting and reversing the decline in nature in Wales (NRW Remit Letter 2020-21).

However, in her response (LG.00673/20) the Minister continues to celebrate the 'tools' (policies and documents) without consideration of whether NRW has the resources, structure and organisational ethos to apply those tools effectively enough to counter the escalating nature emergency.

The Minister fails to acknowledge the very real need for NRW to change if it is to deliver more for nature. This lack of acknowledgement regarding NRW's ability to deliver effectively creates a distorted representation of Welsh Government's true commitment toward halting and reversing the decline of nature in Wales.

It is clear that NRW needs to alter its approach toward delivering for nature conservation to fully meet the escalating nature emergency in Wales. A stronger, more explicit biodiversity remit would enable the organisation to change its mind-set to better prioritise nature conservation. Resources could be better applied and importantly, skilled and experienced staff would be at the heart of biodiversity decision making.

As highlighted in previous correspondence (16.02.2020), one of the current failings of NRW is their silence regarding the planning process in Wales. Planning represents both a means to protect habitats and species from harm as well as an opportunity to secure biodiversity gains in the long-term. Given the escalating nature emergency, NRW should be influencing the process far more than at present and working with Local Planning Authorities (LPAs) to ensure a collaborative approach to securing biodiversity gains. Instead, NRW have reduced their input to just a reductionist list of specific areas for comment and many local sites are being lost as a consequence. This contributes to the continual erosion of the landscape's overall resilience to support wildlife and the well-being of local communities.

If NRW was to have a stronger, more explicit biodiversity remit then the organisational management would be better placed to plan and deliver for the long-term (a necessity for nature conservation). Even the much welcomed project funding (highlighted in the Minister's response) appears to be relatively short-term in its delivery. Although these projects have a capacity to deliver for nature, they are often (on account of their funding) short-term, rushed and unsustained in the long-term. If NRW are to fully play their role in meeting the escalating nature emergency, then projects need to have funding guaranteed over longer periods of time and delivered by an NRW which is well resourced with skilled and experienced nature conservationists. This would ensure that funding can build on already identified best practice.

Information received from NRW (ATI-19096a) shows that as the Statutory Environmental Body and leading organisation charged with nature conservation responsibilities in Wales, NRW does not have a clear awareness of its own staff skill-set with regard to the skills and experience needed to halt and reverse the declines in nature.

It is imperative for any organisation to employ and retain staff that have the skills and experience needed to further the organisation's objectives, and to ensure that those staff work in areas within the organisation where their skills and experience are best placed to effect positive change. This is even more important in nature conservation as it depends on highly skilled nature conservationists, taxa experts and habitat managers to determine the appropriate course of action required to halt and reverse the declines of particular species and/or habitats. The skills of a taxon expert take a life-time to build and cannot be substituted or easily replaced.

Since the creation of NRW in 2013, there has been a dramatic reduction in the number of skilled and experienced staff (and job roles) able to help the organisation halt and reverse the declines in nature. Furthermore, NRW do not currently hold information on the number of staff employed by the organisation who are recognised habitat and/or species specialists, nor are there records regarding taxa experts within the organisation, their particular expertise, or whether they have a remit to influence delivery for their area of expertise.

If the organisation charged with halting and reversing the declines in nature has little knowledge of its own internal skill-set with regard to overcoming the challenges facing Wales and its escalating nature emergency, then it is difficult to conclude that the organisation has the appropriate biodiversity remit for the job.

I would like to thank the Committee for debating this petition and if you require any further information regarding this response please feel free to contact me.

Yours Faithfully

Robert

Annwyl Janet,

Diolch yn fawr am eich llythyr dyddiedig 24 Chwefror yn rhoi diweddarriad i mi ynghylch ystyriaeth bresennol eich Pwyllgor o'r ddeiseb gan RAY Ceredigion yn ymwneud â chyllid ar gyfer chwarae.

Nodaf gais y Pwyllgor i'r ohebiaeth a gafwyd hyd yma gan y deisebydd, Chwarae Cymru a Chomisiynydd Plant Cymru gael eu hystyried yn ffurfiol fel rhan o'm Hadolygiad Chwarae, sydd ar y gweill ar hyn o bryd. Rwy'n cadarnhau fy mod yn cytuno i'r cais hwn.

Nod yr Adolygiad yw asesu lle ydyn ni erbyn hyn o ran y polisi chwarae a llywio sut ydym yn datblygu ac yn symud ymlaen â'r agenda chwarae yn y dyfodol. Bydd yr adolygiad yn ystyried y cynnydd a wnaed tuag at gyflawni ein gweledigaeth ar gyfer chwarae, ac a yw'r weledigaeth honno'n parhau i fod yn berthnasol. Bydd hefyd yn amlinellu'r camau y mae angen eu cymryd i symud ymlaen gyda'r agenda chwarae er mwyn cyflawni'r weledigaeth.

Mae Grŵp Llywio'r Adolygiad Chwarae wedi nodi nifer o feysydd i'w hystyried yn yr Adolygiad, gan gynnwys y canlynol:

- Cofrestru lleoliadau / rheoleiddio lleoliadau / eithriadau;
- Y Ddyletswydd Cyfleoedd Chwarae Digonol a gweithio traws bolisiâu;
- Y gweithlu;
- Cyfiawnder gofodol a chyfranogiad cymdeithas.

Dear Ms Finch-Saunders,

Petition P-05-804 'We need Welsh Government funding for play!'

My sincere apologies for the delay in responding to your letter of 21st June, 2019.

This petition has been submitted by RAY Ceredigion, and asks the National Assembly for Wales to provide annual designated funding to provide financial support to all local authorities in fulfilling their duties in line with their Play Sufficiency Assessments.

The WLGA understands that organisations such as RAY Ceredigion would like to see specific funding for the services they and others provide across Wales. However, in its support of local authorities and the wide range of services they deliver, the WLGA view, which reflects that of local authorities, is that all services should normally be funded through the annual Revenue Support Grant, and the distribution of funds at a local level is then a matter for local democratic processes.

There are exceptions in terms of specific grants, and where these are time limited the WLGA understands and accepts that they are meant to target particular policy areas as prioritised by the Welsh Government from time to time. These may be revenue or capital grants.

But the general position of the WLGA is to secure the overriding majority of funding for distribution to local authorities through the agreed formulae which exist for that purpose, and for spending decisions to be taken locally.

I trust that this makes the WLGA position clear.

Yn gywir / Yours sincerely

P-05-804 We need Welsh Government funding for play!!, Correspondence – Petitioner to Committee, 27.04.20

Hi my comments are the same as before – the play sufficiency duty enacted by the Welsh Government on local authorities cannot be delivered with no ring fenced funding and this has led to the loss of a number of valued playwork delivery organisations over the last few years, the loss of many open access play sites (all have disappeared in Cardiff). Therefore my petition requests that the Welsh Government demonstrate their commitment to children in Wales having access to sufficient play opportunities by providing designated funding direct to local authorities for them to deliver or commission delivery of on the ground playwork so that children can access their right to play under Article 31 of the United Nations Convention on the Rights of the Child, as outlined in the Children and Families (Wales) Measure Section 11. Currently there has been intermittent funding provided as part of Welsh Government underspend, that has been distributed at the end of financial years (none in 2019 – 2020) with a timescale of weeks in which to allocate expenditure and this leads to very short term results. Those who signed this petition request that regular and sufficient ring fenced funds are delivered across Wales in the shortest time possible. Play benefits children in numerous ways, and is integral to their health, development and wellbeing and has been shown to build resilience in those who are most vulnerable and disadvantaged and children (safe Places to Play and Hangout, NafW report) showed that children prioritise play that is delivered close to home and by trusted playworkers. This is what we want for children across Wales.

P-05-831 Rhowch ddiwedd ar yr annhegwch a'r gwahaniaethu yn y cymorth ariannol a roddir i ddioddefwyr sgandal gwaed wedi'i heintio yng Nghymru

Cyflwynwyd y ddeiseb hon gan Contaminated Whole Blood UK Group, ar ôl casglu 159 o lofnodion.

Geiriad y ddeiseb

Mae'r ddeiseb hon yn galw ar Gynulliad Cymru i roi diwedd ar yr annhegwch a'r gwahaniaethu yn y cymorth ariannol a roddir i ddioddefwyr sgandal gwaed wedi'i heintio yng Nghymru, drwy newid y cynllun i o leiaf adlewyrchu'r darpariaethau ar gyfer y rheini a gaiff eu heintio yn Lloegr.

Mae sawl categori o ddioddefwyr yng Nghymru sydd o bosibl ar eu colled o £20,000 neu fwy o dan y cynllun. Cafodd miloedd o bobl eu heintio o ganlyniad i dderbyn gwaed wedi'i heintio neu gynhyrchion gwaed wedi'u heintio a roddwyd iddynt gan y GIG tan fis Medi 1991 o leiaf. Mae dros ddwy fil o bobl eisoes wedi marw.

Yn dilyn datganoli pwerau, y Cynulliad sydd â'r cyfrifoldeb dros gefnogi dioddefwyr a'u teuluoedd y rhai sydd wedi'u heintio yng Nghymru. Caiff y cynlluniau cefnogaeth eu gweithredu gan wasanaeth Cefnogi Gwaed wedi'i Heintio yng Nghymru (WIBSS) a weinyddir gan Ymddiriedolaeth GIG Velindre a Chyd-bartneriaeth Gwasanaethau'r GIG (NWSSP) sydd, yn y pen draw, yn atebol i Gynulliad Cymru.

I'r rheini a gaiff eu heintio yn Lloegr, cynhelir y cynllun cyfatebol gan EIBSS, sydd yn y pen draw yn atebol i'r senedd yn Llundain. Er i'r dioddefwyr oll gael eu heintio gan y GIG cyn iddo gael ei ddatganoli, mae gan EIBSS ac WIBSS ddarpariaethau tra gwahanol o ran cymorth ariannol. Y ffactor sy'n pennu pa gynllun y byddwch chi'n ei gael yw lle cafodd y dioddefwr ei heintio yn hytrach na lle mae'n byw. Mae dau gynllun na all y rheini sydd o dan WIBSS gael mynediad atynt. Gelwir y rhain yn 'Fecanwaith Categori Arbennig' a 'cynllun cyllid ychwanegol dewisol'. Effaith net hyn oll yw bod sawl categori o ddioddefwyr heintiau yng Nghymru o bosibl ar eu colled o £20,000 o dan y cynllun, neu'n fwy os oes ganddynt blant, waeth ble y maent yn byw. Bydd dau berson sy'n byw yng Nghaerdydd er enghraift, sydd wedi'u heintio gan y GIG, â'r un effaith, o bosibl yn cael gwahaniaeth o £20,000 mewn cymorth

ariannol dim ond gan fod un o'r ddau 'yn fwy lwcus' o gael ei heintio yn Lloegr.

Rydym yn galw ar Gynulliad Cymru i ymyrryd i roi diwedd ar yr anghyfiawnder hwn nawr

25 March 2020

Dear Janet,

Thank you for your letter of 24 February on behalf of the Petitions Committee about petition P-05-831 'End the unfairness and discrimination in the financial support for the victims of the contaminated blood scandals who were infected in Wales'.

Discussions remain ongoing both at Ministerial and official level on the work to achieve financial and scheme parity. Arrangements are being made to meet with Haemophilia Wales and Mick Antoniw, Chair of the Cross Party Blood Group, to discuss proposals that the Society has put forward and to update them on the ongoing work.

I will write to you again once this meeting has taken place to update you further.

As the work progresses on changes to the current scheme, those affected will be kept informed as plans are developed.

Yours sincerely,

A handwritten signature in black ink that reads "Vaughan Gething".

P-05-905 Galw am Ymchwiliad Barnwrol Annibynnol i ad-drefnu gwasanaethau o fewn Bwrdd Iechyd Cwm Taf

Cyflwynwyd y ddeiseb hon gan Mark Adams and Robert Bevan, ar ôl casglu cyfanswm o 387 lofnodion.

Geiriad y ddeiseb:

Rydym yn galw ar Gynulliad Cenedlaethol Cymru i ofyn i Lywodraeth Cymru wahardd y defnydd o anifeiliaid mewn syrcasau a sioeau teithiol yng Nghymru.

Ar 17 Gorffennaf 2018, dywedodd Carwyn Jones AC, Prif Weinidog Cymru:

"Yn olaf, Lywydd, byddwn yn cyflwyno Bil i wahardd y defnydd o anifeiliaid gwylt mewn syrcasau teithiol. Mae lles anifeiliaid yn flaenoriaeth i'r Llywodraeth hon ac mae'r ffordd yr ydym yn trin anifeiliaid yn adlewyrchiad pwysig o'n gwerthoedd fel cymdeithas. Mae syrcasau yn fusnesau cyfreithlon, ac nid ein bwriad ni yw gwahardd pob math o adloniant syrcas yng Nghymru. Ond mae'r defnydd o anifeiliaid gwylt yn y cyd-destun hwn yn hen ffasiwn ac yn annerbyniol yn foesol. Byddwn yn gwahardd eu defnyddio mewn syrcasau teithiol yng Nghymru."

Mae syrcas yn ffurf ar gelf ynddo'i hun. Er bod syrcasau wedi'u cysylltu'n gryf â'r defnydd o anifeiliaid yn y gorffennol, mae'n amlwg bod chwaeth y cyhoedd mewn materion o'r fath wedi newid yn sylweddol yn ystod y blynnyddoedd diwethaf. Dangosir hyn gan nifer cynyddol y syrcasau sy'n cynnwys pobl yn unig, ynghyd â llwyddiant y syrcasau hyn. Tra bod y sioeau hyn yn aml yn cael eu perfformio o flaen cynulleidfaoedd llawn heb unrhyw protestwyr tu allan i'r babell, mae'n deg dweud bod y gwrthwyneb yn wir o ran y syrcasau a'r sioeau teithiol sy'n parhau i ddefnyddio anifeiliaid, hyd yn oed y rhai sy'n defnyddio anifeiliaid nad ydynt wedi'u diffinio fel anifeiliaid gwylt.

Gwybodaeth ychwanegol:

Mae pryder mawr ymhlið y cyhoedd ynghylch trosglwyddo gwasanaethau o Ysbyty Brenhinol Morgannwg i Ysbyty'r Tywysog Siarl ac Ysbyty Tywysoges

Cymru. Mae'r trosglwyddiadau hyn wedi cael effaith fawr ar breswylwyr Rhondda Cynon Taf. Mae preswylwyr am i'r gwasanaethau ddychwelyd.

Poblogaeth Rhondda Cynon Taf yw 235,000, gyda datblygiadau tai mawr yn codi yn ne'r fwrdeistref ac yn awdurdod cyfagos Caerdydd, sy'n agos at Ysbyty Brenhinol Morgannwg. Bydd y datblygiadau hyn yn cael effaith ychwanegol ar wasanaethau cyhoeddus, yn enwedig y gwasanaeth iechyd a gofal cymdeithasol. Mae preswylwyr yn mynegi pryderon yn barhaus am fynediad at y gwasanaethau hyn ers i rai o'r newidiadau ddigwydd. Mae'r materion yn cynnwys amseroedd teithio yn achos triniaeth frys, gorfol mynd i glinigau yn rheolaidd a chysylltiadau trafnidiaeth gwael i deuluoedd a ffrindiau ymweld â chleifion, a dim ond rhai o'r sylwadau a wnaed yw'r rhain.

Y prif feysydd y mae preswylwyr yn pryderu amdanynt yw:

- Mamolaeth – sydd eisoes yn destun ymchwiliad
- Pediatreg
- Uned Gofal Babanod Arbennig
- Adran Damweiniau ac Achosion Brys
- Pobl hŷn yn baglu ac yn cwympo, gan arwain at farw yn yr ysbyty
- Gwasanaethau y Tu Allan i Oriau
- Gwasanaethau Cardiaidd
- Effaith ar wasanaethau meddygon teulu/gofal sylfaenol lle mae meddygfeydd meddygon teulu yn cael eu rheoli gan feddygon locwm yn bennaf, sy'n sefyllfa gronig yn y Rhondda yn benodol - methu â recriwtio meddygon teulu

Dear Janet,

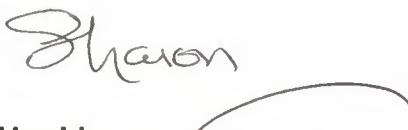

P-05-905 Call for an Independent judicial Inquiry into the reorganisation of services within Cwm Taf Health Board

Thank you for your letter of 24 February 2020 in relation to the above, in which you ask me to respond to the issues raised in the petition and provide further information about the current status of the changes implemented under the South Wales Programme (SWP).

As you are aware from my response to another petition, Cwm Taf University Health Board (the UHB) has recently considered the status of changes implemented as a result of the SWP. The relevant information, as considered by our Board in January, is summarised in section 1 of the enclosed Board paper. The paper also summarises the background to the SWP itself. As set out, in the paper, it is clear that many elements of the SWP recommendations (as endorsed by all relevant health boards and by Welsh Government) have been fully or partially implemented in the UHB. The outstanding recommendations, in relation to emergency medicine and inpatient paediatric services are currently being reconsidered by the project described in the paper, in the light of the current context.

The Board will consider the recommendations of this project over the coming months. I see no grounds for asking the Minister to instigate a judicial inquiry into the UHB's actions.

Yours sincerely,

Sharon

Dr Sharon Hopkins

MIU	Minor Injuries Unit
PCH	Prince Charles Hospital
POW	Princess of Wales Hospital
RGH	Royal Glamorgan Hospital
SWP	South Wales Programme
UHB	University Health Board
UHW	University Hospital of Wales
WAST	Welsh Ambulance Service NHS Trust

1. SITUATION AND BACKGROUND

1.1 Situation

A number of recommendations of the South Wales Programme (SWP), agreed by all health boards in South Wales in 2014, remain unimplemented. Perhaps most importantly, consultant led 24 hour emergency medicine services continue to be delivered from three sites in the Health Board: Princess of Wales Hospital (POW), Bridgend, Royal Glamorgan Hospital (RGH), Llantrisant and Prince Charles Hospital (PCH), Merthyr Tydfil.

Inpatient paediatric services also continue to be delivered at RGH. The SWP recommendations included a transition to a nurse led minor injuries unit (MIU) and an end to inpatient paediatric services at RGH.

Other recommendations of the SWP, including in relation to maternity and neonatal services have been fully implemented.

Recent service and staffing pressures have highlighted that the rationale for the changes recommended by the SWP remain valid and have only become more pressing.

As a result, in November 2019, the Health Board established a project, within the regional context, to take forward the implementation of the remaining recommendations of the SWP. As a first step, and in recognition of relevant recent changes, the project is considering and assessing alternative options, in addition to the original specific SWP recommendations, as described below, in order to ensure the very best model of care.

1.2 Background: The South Wales Programme

Introduction to the South Wales Programme

The South Wales Programme (SWP) within NHS Wales was set up in 2012 to look at the future of four **consultant-led** hospital services:

- maternity services
- neonatal care
- inpatient paediatrics
- emergency medicine (EM)

These services were selected for consideration due to their fragility, in terms of their ability to deliver safe and sustainable models of care, as then configured (see below for further information on the rationale).

The SWP was a partnership of the five health boards serving people living in South Wales and South Powys, working with the Welsh Ambulance Service NHS Trust (WAST). The then Cwm Taf UHB and Abertawe Bro Morgannwg UHB were partners in the SWP.

Extensive work was undertaken over a two year period to prepare plans for the future configuration of services, central to which was clinical leadership, engagement and professional advice, complemented by broader stakeholder engagement and formal periods of engagement and consultation. Much of the work was undertaken through the vehicle of specialty specific Clinical Reference Groups (CRGs), with multi-disciplinary clinical membership drawn from across the region.

Further extensive information continues to be available via the SWP website¹.

Recommendations of the South Wales Programme

Following extensive public consultation in 2013, the recommendations of the SWP were finalised. Decisions on the outcome of the programme were taken by health boards and WAST at Board meetings in February 2014 and the collective position of all partner organisations was confirmed in March 2014.

In headline terms, the primary recommendation of the SWP was that the consultant-led services within the scope of the programme should, in future, be strengthened and delivered from five hospitals within the region:

- University Hospital of Wales (UHW)
- Morriston Hospital
- Grange University Hospital (then referred to as the SCCC)
- Prince Charles Hospital (PCH) – within CTMUHB
- Princess of Wales Hospital (POW) – within CTMUHB (then ABMU)

A key consequence of this was a reduction in consultant led services to be delivered in future from the Royal Glamorgan Hospital (RGH) in maternity, neonatal, in-patient paediatric and emergency medicine services, but with a refocussing on the development of innovative new models of acute medicine at RGH, and an increased role in diagnostics, outpatient and ambulatory care across South Wales.

¹ <http://www.wales.nhs.uk/SWP/home>

Rationale for the South Wales Programme recommendations

The clinically-endorsed rationale for the changes recommended by the SWP was set out, in detail during the public consultation process² and is summarised below:

- NHS Wales was facing unprecedented challenges, as set out below, and there was a need for timely action to ensure the continued delivery of safe and sustainable services.
- Although most patients in South Wales and South Powys received very good treatment, and standards were improving, the highest quality of care was not delivered for everyone all of the time.
- There was a concern that NHS Wales would start to fall behind other countries in keeping people well and in treating illness and injuries.
- There was a desire to ensure that people did not have to come to hospital unless absolutely necessary, and so there was a need to strengthen primary care and community services.
- It was considered necessary for the sickest patients attending hospital to have rapid access to treatment from senior clinicians, whatever time of day or night.
- There was a desire to offer everyone the benefits of medical advances.
- It was recognised that modern, safe and effective medicine could only be delivered by teams of doctors, nurses and therapists with regularly used specialist skills. It was further recognised that this could not be provided in every hospital because there were not enough specialists, but even if there had been more, they would not have been able to keep up their skills because they would not have been seeing enough patients.
- Each specialist team had, and was supported by, doctors-in-training – the specialists of the future. There was an identified need for more of these doctors-in-training and training had become more complex, as medicine had become more specialised.
- Doctors-in-training needed to see large numbers of patients to ensure they had the necessary experience and skills to specialise.
- Because the service was trying to run services in too many places there were frequent shortages of doctors-in-training and consultants.
- Not only did this make providing safe services difficult, it made it harder to fill consultant posts and impacted on the quality of teaching for the doctors-in-training that did exist.
- It was concluded that the NHS in South Wales could not continue as before. Consultant-led services in the scope of the SWP needed to be provided together, in fewer hospitals as part of a wider integrated healthcare network.

² <http://www.wales.nhs.uk/sitesplus/documents/1077/SWP%20consultation%20document%20FINAL.pdf>

- The evidence was deemed to be clear that doing this would improve the outcomes of care for patients even if they had to travel further for this treatment.
- It was also concluded that, if we did not take immediate action, there would be a very real risk that we would be forced to take emergency measures when one of these services failed.

The above rationale needs to be tested in its details, but remains valid. In some respects, the situation described by the SWP has since become more urgent (see below).

Current status of the SWP recommendations in CTMUHB

Implementation of the recommendations was, and remains, primarily a health board responsibility, with regional planning mechanisms being put into place to ensure the ongoing coordination of implementation and additional work across health board boundaries.

The position agreed through the SWP, with a specific focus on services at RGH, together with the current status in CTMUHB, is set out in the table below:

Services	Agreed position at end of SWP in 2014	Current status
Obstetric and Neonatal services	Consultant-led obstetric and neonatal services should not be delivered from the RGH site in the future.	Fully implemented Consultant led obstetric and neonatal services now delivered from PCH and POW. There is a new midwifery led birth centre at RGH (the Tirion Centre) and a new neonatal unit opened at PCH in March 2019.
Acute Medicine, Ambulatory Care and Diagnostics	RGH should develop a significant role in diagnostics and ambulatory care, supporting the wider network of hospitals within a South Wales Central Alliance, and become a 'beacon site' for developing innovative models of care in	Partially implemented A new 50 bed Acute Medicine Unit, co-located with the RGH ED was opened in September 2015. The unit bolsters the ability to treat patients with complex comorbidities and minor injuries ³ .

³ An audit by the Society for Acute Medicine (2015) showed there was an increase in the percentage of patients seen by a consultant within eight hours of admission by day and within 14 hours for overnight admissions, putting the consultant team in the top 5 of 82 participating acute medicine departments. A GMC Survey (2015) reported acute medicine in RGH as an “above outlier” for overall satisfaction and adequate

	acute medicine and diagnostic services.	A Diagnostic Hub at RGH, providing regional services, was opened in February 2018.
Services	Agreed position at end of SWP in 2014	Current status
Inpatient Paediatric services	Consultant-led inpatient paediatric services should not be delivered from the RGH site in the future.	<p>Not implemented, but planning has progressed</p> <p>A consolidation of RGH and PCH inpatient paediatric services on the PCH site was originally scheduled to take place in June 2019 and was subsequently postponed several times.</p> <p>To ensure a safe and seamless transition, and allow time to consider and develop new models at RGH, this move is currently planned for late 2020.</p>
Emergency Medicine (EM)	<p>Twenty four hour consultant-led EM services should not be delivered from the RGH site in the future.</p> <p>The RGH Emergency Department (ED) should, over time, move from a consultant-led service dealing with major cases to a nurse practitioner led service dealing with minor injuries (MIU), co-located with a GP out of hours service and enhanced selected 24 hour medical intake⁴.</p>	<p>Not implemented</p> <p>Consultant-led 24 hour emergency medicine services continue to be delivered from three sites in the UHB (POW, RGH and PCH) and there is no currently fully developed plan for an alternative service model.</p>

experience. Since implementation there are higher zero day lengths of stay as the model includes capacity for rapid diagnostics and consultant review. The presence of a senior decision maker at the front door of an acute medical intake has reduced the overall bed occupancy.

⁴ <http://www.wales.nhs.uk/sitesplus/documents/1077/QAs%20-%20Programme%20Board%20Recommendations%20Final.pdf>

2. SPECIFIC MATTERS FOR CONSIDERATION BY THIS MEETING (ASSESSMENT)

2.1 Current issues with delivery of ED services in CTMUHB

As stated above, CTMUHB has continued to deliver consultant-led 24 hour emergency medicine services from three sites. This situation is becoming increasingly unsustainable and safe services cannot be sustained beyond the immediate short term without unacceptable risks to patient safety.

A November 2019 *Targeted Visit Report* of a Health Education and Improvement Wales visit to the PCH ED recommended that “work regarding the amalgamation of the Royal Glamorgan and Prince Charles Hospitals in line with the South Wales plan continues”.

The recent Wales Audit Office/Healthcare Inspectorate Wales *Review of quality governance arrangements at Cwm Taf Morgannwg University Health Board*⁵ stressed that the UHB “needs to take a strategic and planned approach to improve risk management across the breadth of its services. This must ensure that all key strategies and frameworks are reviewed, updated and aligned to reflect the latest governance arrangements”.

Staffing levels, in relation to activity levels, at all three EDs are well below national workforce benchmark levels.

The following recent developments in the RGH ED significantly increased the risk of the need take urgent action to ensure service continuity:

- In the evenings of both 25 and 26 December 2019, due to sickness of middle grade ED doctors, the ED department at RGH was not able to maintain normal medical staffing levels.
- With support and agreement from WAST, ambulances were, therefore, diverted to PCH on both nights. The department remained open to minor injuries and any patient self-presenting.
- In the last week of December 2019, the Health Board received the resignation of the only substantive ED consultant at RGH from April 2020. In addition to the loss of middle grade locum doctors, this expected retirement means that the current staffing model at RGH, already heavily reliant on agency staff, becomes further challenged.

⁵ <https://www.audit.wales/publication/joint-review-cwm-taf-morgannwg-university-health-board>

2.2 Project to implement the remaining recommendations of the SWP in CTMUHB

Purpose, aim and scope of the project

Following engagement with clinicians and managers across the health board, the Health Board has formally established a project, within the South Wales regional context, to address the remaining implementation of the SWP recommendations within the health board, specifically including the development and implementation of:

- local service models for emergency medicine, across the Health Board footprint and within the regional context
- an appropriate paediatric service model at RGH
- completion of the acute medicine beacon site model at RGH
- the already planned transfer of consultant led inpatient paediatric services from RGH to PCH.

The aim of the project is to develop and agree service models by Spring 2020, with implementation commencing in September 2020 (noting the interrelationship and interdependencies with actions to ensure service continuity in the meantime).

Key work-streams within the project include:

- Communications and engagement
- Data analysis, modelling and evaluation
- Transport and patient access
- Workforce and OD
- Finance
- Capital and accommodation.

Establishment and governance of the project

Informal discussions between the Medical Director and senior clinicians about the need to revisit and progress the recommendations of the SWP commenced in October 2019. Following these discussions, a Project Initiation Document (PID) was subsequently drafted and approved by the Health Board Management Board in October, with the identification of the Medical Director as Project Senior Responsible Officer (SRO).

To support the SRO, a project team including a Programme Director and a Quantitative Planner were identified during November and December 2019, to work alongside current Planning and Programme Management Office departments. A clinical lead is to be appointed.

Because of the regional dimension to the project, and in line with the agreement at the end of the SWP, the project has a dual line of accountability:

- within the Health Board, via an internal project board and the SRO, to the Board
- regionally, via a regional project board, to the Regional Planning and Delivery Forum

The internal Health Board project board has been established and met for the first time on 7 January 2020.

The establishment of the project has been reported formally to the South Central and East Wales Regional Planning and Implementation Group at its January meeting and this was well received, with a commitment from partner organisations to engage appropriately. The regional project board is planned to meet for the first time in February 2020.

Project ways of working

As with the SWP, and in alignment with the Health Board values and behaviours, the project is being conducted with a focus on:

- safety, quality and patient experience
- clinical leadership and involvement
- open engagement and communication with internal and external stakeholders, including staff, the public, elected representatives and partner organisations

The initial work on the project has been informed by a Health Board-wide Clinical Leaders Workshop held on 29 November 2019.

Ongoing clinical leadership and engagement is being ensured through the role of the SRO, the membership of the internal and regional project boards, the planned appointment of a clinical lead and, importantly, through the re-establishment and operation of the following Clinical Reference Groups (CRGs), as used by the SWP:

- Emergency Medicine (chair briefing 14/1/20; first meeting 13/2/20)
- Acute Medicine (chair briefing 9/1/20; first meeting 12/2/20)
- Paediatrics (chair briefing 27/1/20); first meeting TBC

In view of the relevant links and interdependencies, there will also need to be close working with, and consideration of the implications of changes for, surgery, anaesthetics, critical care, primary care and other services.

Key external stakeholders have been briefed informally by the Chair, Chief Executive and Executive Medical Director on the establishment of the project and the Programme Director has, together with the Assistant Director of Planning and Partnerships, briefed Community Health Council (CHC) officers on 17 January 2020. A further, formal, briefing is being provided at the CHC Service Planning Committee on 27 January 2020, following the publication of this Board paper.

A formal engagement and communications plan is being finalised and includes arrangements for:

- engagement and communication with staff across the Health Board and their union representatives
- ongoing formal engagement with the CHC (including at a planned additional Service Planning Committee on 14 February, at which it is intended to agree the wider programme of formal public engagement)
- both formal and informal engagement events with the public (including through already planned 'Let's Talk Healthcare' events)
- engagement and communication with other key stakeholders, including elected representatives, local government and Welsh Government.

2.3 Options for further consideration by the project

Within the context of the newly established project, it is recognised that the overall rationale for the SWP recommendations (as summarised above) remains valid and the need for action has only become more urgent since the recommendations were made, consulted on and accepted. It is, however, recognised that, in the six intervening years, there have been specific changes that create a different context within which the specific SWP recommendations for emergency medicine in CTMUHB should be reconsidered. These changes include:

- the footprint of the new CTMUHB, which includes three emergency departments (RGH, POW and PCH) and which potentially facilitates service delivery and staffing options that may have been more difficult to implement across health board boundaries
- the development of emergency department service models elsewhere in the UK that may provide lessons for service delivery in CTMUHB and South Wales
- further development of the 'care closer to home' concept within the Health Board
- the implementation of a Major Trauma Network in South Wales from April 2020
- the planned opening of the Grange University Hospital, and subsequent changes to services delivered by Nevill Hall Hospital in Aneurin Bevan UHB

- further exacerbated staffing issues affecting the nursing, as well as the medical, workforce
- extensive new housing developments in the areas of the Health Board adjacent to Cardiff
- increasing experience of ambulatory care models.

As a result of the above, the project SRO, in discussion with relevant clinicians and managers across the Health Board and with input from the new project board, has, through a process of ongoing iteration, developed the following high level options for potential further consideration:

Option	Specific features	Common features
Option 1	Implementation of the remaining SWP recommendations Transition the RGH Emergency Department (ED) from a consultant-led service to a 24 hour nurse practitioner led Minor Injuries Unit (MIU).	Implementation of already planned move of inpatient paediatrics from RGH to PCH in September 2020
Option 2	Implementation of the remaining SWP recommendations with additional service changes Transition the RGH Emergency Department (ED) from a consultant-led service to a 24 hour nurse practitioner led Minor Injuries Unit (MIU). Increase access to 'care closer to home' across the Health Board for those not requiring ED services, through enhanced access to primary care and community services (in and out of hours), in line with the agreed transformation programmes of the Regional Partnership Board.	Development and implementation of an appropriate paediatric service model at RGH (tailored to interface appropriately with the selected ED service model) GP admissions and paramedic differentiated admissions (of appropriate acuity) direct to RGH wards 24 hours
Option 3	No significant changes to the existing RGH ED service, beyond those required by the establishment of the Major Trauma Network and the transfer of paediatric inpatient services Twenty four hour consultant-led EDs to continue at RGH, POW and PCH.	Ongoing development of RGH acute medicine, ambulatory care and diagnostic services, in line with the SWP
Option 4	Overnight reduction in the hours of consultant led ED at RGH	

	<p>Consultant-led EDs to continue at RGH, POW and PCH, but with an overnight reduction in the hours of the RGH ED (exact operational hours to be determined based on modelling of demand).</p> <p>Determine how best to deliver a nurse practitioner-led Minor Injuries Unit (MIU) on the RGH site during the hours when a consultant-led ED is not provided.</p>	
--	---	--

Modelling work, informed by that done by the SWP, has commenced to assess the patient access and flow implications of the above options, and to help define more specific and detailed ‘optimal’ service models under each option, with clinical involvement through the emerging CRGs and using the most up to date data available.

Following discussion at the first project board, it is recommended that:

- in light of the Health Board’s wider approach and commitment to the Regional Partnership Board transformation programmes, it would be inconceivable that Option 1 would be implemented without the types of additional service change that are described under Option 2. As such, Option 1 should be rejected at this stage
- Option 3, which was deemed to be unsustainable by the SWP, remains unsustainable and difficulties in mainlining services on a day to day basis have only increased. As such, Option 3 should be rejected at this stage.

It should be noted that members of the project board discussed potential alternative approaches, differing from the recommendations of the SWP, based on a focusing of ED services on a single site within the health board (either at an existing site or in a newly built hospital). This is incompatible with clinical pathways and sustainability of services.

As a result of the above considerations, it is recommended that the options set out in the Recommendations section of this paper (Section 5) should be prioritised for further, more detailed, development and assessment within the project structure, primarily through the work of the CRGs and the associated modelling.

2.4 Service continuity

Until changes developed and recommended by the current project are implemented, there will need to be a parallel focus on ensuring safety and workforce sustainability relating to the ongoing delivery of EM services at all three EDs within CTMUHB. This work will be, primarily, an operational matter and will not be conducted under the auspices of the project. There will, however, be a need to ensure close ongoing liaison between the two processes, with an emphasis on ensuring that ongoing operational decisions remain compatible with the emerging direction of the project.

3. KEY RISKS/MATTERS FOR ESCALATION TO BOARD

The following are key risks and issues relating to, and stemming from, the project:

- There is a need to ensure that operational action is taken to ensure safe service continuity of service provision prior to the implementation of future project recommendations. This will be particularly challenging from 1 April 2020, following staff resignations.
- Any service changes will be controversial and contested by relevant stakeholders.
- The need for urgent responses to changing circumstances, prioritising patient safety, may lead to decisions and changes needing to be made by the Health Board without as much analysis/engagement/consultation etc. as would be optimal.
- The regional nature of the project, with the need for involvement of other health boards in the development, assessment and implementation of solutions and the overall governance, may compromise rapid decision making.
- Resource constraints, including in relation to capital investment may compromise the ability to implement optimal service models.

4. IMPACT ASSESSMENT

Quality/Safety/Patient Experience implications	Yes (Please see detail below)
	To be considered within the scope of the project.
Related Health and Care standard(s)	Safe Care
	All standards applicable
Equality impact assessment completed	No (Include further detail below)
	To be addressed as part of the project.
Legal implications / impact	Yes (Include further detail below)
	To be considered within the scope of the project.
Resource (Capital/Revenue £/Workforce) implications / Impact	Yes (Include further detail below)
	To be considered within the scope of the project.
Link to Main Strategic Objective	To Improve Quality, Safety & Patient Experience
Link to Main WBFG Act Objective	Provide high quality care as locally as possible wherever it is safe and sustainable

5. RECOMMENDATION

The Board is invited to **APPROVE** the continuation of the project and the further consideration of specified options, in ongoing engagement with internal and external stakeholders, with progress reports to be provided to each Board meeting.

Specifically, it is recommended that the project should focus on the further development, assessment and evaluation of the following options and the development of proposals for implementation, as shown in the table overleaf:

Option	Specific features	Common features
Option A	<p>Implementation of the remaining SWP recommendations with additional service changes</p> <p>Transition the RGH Emergency Department (ED) from a consultant-led service to a 24 hour nurse practitioner led Minor Injuries Unit (MIU).</p> <p>Increase access to 'care closer to home' across the Health Board for those not requiring ED services, through enhanced access to primary care and community services (in and out of hours), in line with the agreed transformation programmes of the Regional Partnership Board.</p>	<p>Implementation of already planned move of inpatient paediatrics from RGH to PCH in September 2020</p> <p>Development and implementation of an appropriate paediatric service model at RGH (tailored to interface appropriately with the selected ED service model)</p>
Option B	<p>Overnight reduction in the hours of consultant led ED at RGH</p> <p>Consultant-led EDs to continue at RGH, POW and PCH, but with an overnight reduction in the hours of the RGH ED (exact operational hours to be determined based on modelling of demand).</p> <p>Determine how best to deliver a nurse practitioner-led Minor Injuries Unit (MIU) on the RGH site during the hours when a consultant-led ED is not provided.</p>	<p>GP admissions and paramedic differentiated admissions (of appropriate acuity) direct to RGH wards 24 hours</p> <p>Ongoing development of RGH acute medicine, ambulatory care and diagnostic services, in line with the SWP</p>

**P-05-936 Offer Bowel Cancer Screening After the Age of 74, Correspondence –
Bowel Cancer UK to Committee, 07.02.20**

I have received notification that the issue of Bowel Screening opt in for the over 75s was discussed at the petitions committee earlier this week.

This is currently an important campaign area for us in Wales and we are currently working with the Older People's Commissioner to explore whether the Government position can be changed. I would be glad to brief the committee on the progress (or lack of!) we have made on this issue in the last 12 months.

I attach a note below from the widower of a gentleman who died from bowel cancer which I received just this week (I have her permission to use her name and her husband's name was Clive):

“Opting back into bowl screening. My husband wasn't screen after 73yrs because the next appointment fell after his 75th birthday. He was diagnosed at 76 stage 4 ascending bowel cancer. Until this time he had no illness except diet controlled diabetes. On diagnosis we were told if it was diagnosed earlier he may have lived. The doctors told us at time of diagnosis that they were able to treat him so he went through 4 major ops and 2 complete courses of chemo. The excellent consultant in Velindre stated to me if only they had found it early he would have survived as until his diagnosis he was very fit man. He was 76 when diagnosed and died aged 81. If only screening was open to over 75yrs after which age the bowel cancer becomes more prevalent. Some people may live longer and not cast the health services so much money to no avail. Yours Mrs A Probert”

I look forward to hearing from you

Kind regards

Lowri

Welsh Government

Janet Finch-Saunders AM
Chair, Petitions Committee
National Assembly for Wales
Cardiff
CF99 1NA

Government.Committee.Business@gov.wales

16 March 2020

Dear Janet,

Thank you for your letter of 12 February, as Chair of the Petitions Committee, with further questions relating to petition P-05-936 Offer Bowel Cancer Screening after the Age of 74.

As per your request, please find enclosed a copy of the letter from the Chair of the Wales Screening Committee (WSC) to the Chair of the UK National Screening Committee (UKNSC) seeking clarification on the Committee's recommended age range for bowel screening. WSC has not yet received a response to this correspondence, but I will share with the Committee once received.

Cost issues do not form part of the rationale for not allowing self-referral into the bowel screening programme outside of the age range. Therefore the Welsh Government has not costed screening post 74, either on a population basis or in the form of self-referral.

The statement in my letter in response to the Petitions Committee that "*all screening programmes have the potential for harm*" is in reference to a quote from Sir Muir Gray, former Programme Director of the UKNSC: "*All screening programs do harm. Some do good as well and, of these, some do more good than harm at reasonable cost!*"

We know that regular bowel cancer screening in the recommended age range reduces the chance of dying from bowel cancer by about 16%, but it is also important to consider that screening does have potential disadvantages which include: the psycho-social consequences of receiving a false-positive test result; the potentially significant complications of having a colonoscopy or a false-negative test result, the possibility of over-diagnosis (leading to unnecessary investigations and/or treatment) and the complications of any associated treatment.

Gohebiaeth.Vaughan.Gething@llyw.cymru
Correspondence.Vaughan.Gething@gov.wales

Rydym yn croesawu derbyn gohebiaeth yn Gymraeg. Byddwn yn ateb gohebiaeth a dderbynir yn Gymraeg yn Gymraeg ac ni fydd gohebu yn Gymraeg yn arwain at oedi.

We welcome receiving correspondence in Welsh. Any correspondence received in Welsh will be answered in Welsh and responding in Welsh will not lead to a delay in responding.

All screening programmes are introduced for specific age cohorts for which the evidence shows screening provides an overall benefit. Screening outside the recommended age range may well benefit particular individuals but the decision to provide screening to any particular age cohort is based on an assessment of the evidence for the total sum of the harm caused compared to the total sum of the benefit achieved. In other words, it is important that the assessment demonstrates that on balance, screening will do more good than harm in that population.

Rather than expanding the screening programme to include people outside of the recommended age range, our efforts are focussed on expanding the age range in line with UKNSC recommendations (to include those aged 50-59) and encouraging older people who are in the eligible age range to take part in screening when invited.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Vaughan Gething".

Vaughan Gething AC/AM

**P-05-936 Offer Bowel Cancer Screening After the Age of 74, Correspondence –
Bowel Cancer UK to Committee, 24.03.20**

Briefing Paper for Welsh Assembly Petitions Committee

Bowel Cancer Screening: self- referral from 75

March 2020

Bowel Cancer UK strongly believes that there should be parity across all four nations of the UK to ensure everyone has the same opportunity to have bowel cancer either prevented or detected early.

Currently in Wales, people who are aged 75 and over are not eligible to self-refer back into the screening programme as they are in England and Scotland. Welsh Government rationale for this is outlined below, but simply put, due to insufficient research studies being carried out, there is a lack of evidence that allowing those in this age cohort to self-refer would provide a benefit on a population base. The Welsh Government has therefore made a policy decision not to allow this group to continue to participate in ongoing bowel cancer screening.

As a result of this, we would expect the Welsh Government to take the necessary steps to explore developing modelling and a robust evidence base which enables them to review their position and allow those who are over the age of 75 to self-refer back into the Welsh Bowel Screening Programme.

If sufficient evidence is unavailable or, a definitive conclusion cannot be drawn, then we would expect a pragmatic approach to this and based on the representation made by older people themselves, we would expect Welsh Government and Public Health Wales to do the right thing and allow self-referral as they do in Scotland and England.

 - b) Welsh Government Meeting
 - c) Older People's Commissioner
 - d) Wales Screening Committee
 - e) The SCHARR Review
- 5) What are older people themselves telling us?

1. Introduction

Bowel cancer screening is a way of testing people without symptoms of the disease to see if they show any signs of early cancer. Screening of the eligible population provides the greatest opportunity to detect bowel cancer early, when treatment has the best chance of working. The bowel screening Faecal Immunochemical Test (FIT) is designed to detect tiny amounts of blood in your poo which can indicate the presence of cancer or polyps (non-cancerous growths).

In England, Wales and Northern Ireland people aged 60-74 are invited to take part in bowel cancer screening. In Scotland, screening starts from age 50. People are invited to take part in screening every two years.

The Welsh Government has committed to lowering the screening age to 50 in line with Scotland and international best practice. Implementation of screening from 50 at a sensitivity threshold of FIT to 80 µgHb/g will be complete by 2023. England has not set out any clear timescales to date.

Whilst it is fantastic news that the screening age is to be lowered to 50, currently in Wales and Northern Ireland (unlike England and Scotland) participants are not permitted to self-refer back into to screening programme once they reach the age of 75.

2. Bowel Cancer in Wales

In Wales, 1 in 13 men and 1 in 18 women will be diagnosed with bowel cancer during their lifetime. It is the fourth most common cancer in Wales UK, and the second biggest cancer killer, with up to 16,000 people dying each year. In Wales, 2,300 people are diagnosed and 900 people die each year. Approximately 60% of those diagnosed with the disease will survive for five years or more.

The risk of developing bowel cancer increases with age. Nearly 6 in 10 cases are diagnosed in people age 70 or over¹. Regular bowel cancer screening has been shown to reduce the risk of dying from bowel cancer by over 16%, with new treatments increasing survival rates.

3. The UK National Screening Committee position on self-referral over the age of 75

The UK National Screening Committee (UK NSC) provides advice on screening to all four nations. It periodically reviews its position in light of new technologies and interventions. It currently does not make explicit recommendations around screening from the age of 75. The only reference to self-referral is made in the January 2016 guidance which states that:

“Eight out of 10 people with bowel cancer are over 60 years old. Screening is routinely offered every two years to men and women between the ages of 60-74. [People over the invitation age range can self - refer².](#)” (Click on the link to see the recommendation)

¹ UK National Screening Committee, August 2018

² UK NSC bowel cancer recommendation January 2018

This was raised at a recent meeting with the Welsh Government (see below). However, Bowel Cancer UK was informed that this was a presentation error and in fact the recommendation was only relevant to NHS England. As such, Welsh Government does not include recommendations for those who are aged 75 and over.

4. Seeking to change the Government's Position

In April 2019, Bowel Cancer UK in Wales was contacted by a north Wales constituent who had, in late 2018, made an approach to his GP when he turned 75 to ask about bowel screening. He was told that those over the age of 75 are no longer able to self-refer back into the programme. Following his GP visit, he wrote to his local Assembly Member to outline his concern as follows:

"My concern arises not only because of my age but also because my mother died of the disease. The latter is not a genetic risk factor but has served as a warning. Survival with bowel cancer is strongly dependent upon early diagnosis which is afforded by effective regular screening. For this reason both my wife and I have always participated in the NHS Wales biennial screening program available at present only for those aged 60-74. The GP in question confirmed that screening is not now available to me because of my age".

In response to this letter, his Assembly Member wrote to Vaughan Gething, the Welsh Government Health and Social Care Minister. The return correspondence was received on 3 January 2020. This was shared with Bowel Cancer UK. In it, he stated:

"Population screening is not without risk so there needs to be a balance between the benefits and harms of the screening test being offered. For asymptomatic bowel screening above the recommended age group, the additional risks from false positive results and any follow – up investigations outweigh the potential benefits in an older population"

He went on to say:

"I would like to reassure you that the decision not to offer screening to those outside the recommended age group is not based on economic factors".

In May 2019, further correspondence was sent to the Minister outlining an extensive literature review which had been conducted by the north Wales constituent involved and stated:

"Firstly the Minister states that Wales, like the rest of the UK, follows the expert advice of the recent UK NSC policy of 2018 which recommends that bowel cancer screening be offered to both men and women only up to 74 years of age. However, my concern derives from the difference in reaction to that recommendation by Scotland and England. Both of these nations allow faecal blood tests on patient request for those older than 74 years."

"The letter of the Minister suggests that this difference in reaction to the recommendation in Wales derives in the main from a perception that the risks of screening always outweigh the potential benefits in elderly patients. I have

examined the literature evidence for this view in order to satisfy myself that it is generally correct. Unfortunately I have failed to find conclusive evidence”.

In response to this letter, the Minister wrote back in June 2019 stating:

“That on the balance of available evidence, the UK National Screening committee does not recommend screening from the age of 74 years”.

The letter also stated that:

“Self-referral for men and women over the age of 74 is due to be considered in the autumn”

Bowel Cancer UK in Wales, working alongside the constituent involved, requested a meeting with the Minister to discuss the matter in person. A meeting was offered with civil servants. It was at this time, that we were informed that the Welsh Government had asked Public Health Wales to do some insight work into the issue of self-referral for those over the age of 75.

a) The view beyond Wales

It was also during this time, that Bowel Cancer UK in Wales wrote to experts and members of the UK National Screening Committee and also sought clarification from NHS England on their decision to allow self-referral for this cohort. We received the following from Public Health England:

“The UK NSC uses published evidence to justify recommendations on most aspects of programme: age, interval, tests, etc. The large research studies that underpin the cancer screening programmes were done a while ago and stop around 70/75 years. This means that there is an absence of evidence about whether screening does more harm than good at these ages. In that circumstance, recognising that cancer is commoner as you get older, the English programmes decided to allow self-referral over 70/75”.

b) Welsh Government Meeting

In October 2019 we met with the Welsh Government and patients. Below is an extract from the minutes:

“It was accepted that although the risks of screening are generally greater in an older population that the overall health of individuals is variable, and that individual risk assessments should be coproduced in every clinical contact. It was also agreed that it was not the initial screening test but the follow-up investigations that provide most risk. Welsh Government colleagues added that evidence from the whole pathway – from screening test to treatment - needed to be considered when assessing benefit and risk.

“Bowel Cancer UK made a comparison with risk from diagnostic pathway. Welsh Government colleagues commented that it was important to make the distinction between the risks from interventions for someone who is symptomatic (when clinical presentation should lead to appropriate

intervention) and someone who has no symptoms, perceiving themselves to be healthy (when there is a possibility for over diagnosis and unnecessary treatment as well as anxiety). Evaluation of a population screening programme has to take account of potential harms as well as benefits”.

In this meeting Bowel Cancer UK highlighted that there is a lack of research studies on which the decision not to provide screening to people over the age of 74 had been made. Welsh Government uses this lack of evidence base as a reason not to recommend self-referral. However Bowel Cancer UK argues that the UK Screening Committee and the Welsh Screening Committee should be seeking to develop new research studies to develop an evidence base. Until this is done, the Wales Screening Committee should be adopting the pragmatic approach to allow self-referral.

Welsh Government colleagues have suggested that Bowel Cancer UK make a request for modification to the bowel screening programme directly to the UK National Screening Committee for them to firm up their position. We are currently exploring all options, however it is unlikely that a modification would be made without rigorous data analysis to develop the evidence base as outlined above.

Based on representations that had been made to Bowel Cancer UK from members of the public who had been adversely affected by this policy position, we put forward the argument that this could be seen as ageism against those over 74 who were concerned about developing bowel cancer. The meeting notes state that “*Welsh Government Colleagues said it was emphatically not a policy affected by ageism, but by the evidence and UK NSC recommendation*”.

It was suggested that the constituent write to the UK Screening Committee to ask if he could join their public involvement group. This has been followed up and the request has been accepted, though to date he has not started in the role.

c) Older People’s Commissioner

Following the meeting and being dissatisfied with the rationale being offered regarding lack of evidence, Bowel Cancer UK wrote to the Older People’s Commissioner. A meeting took place on the 13 January 2020. Lack of data and evidence to make recommendations in the wider screening context were discussed. The Commissioner and Bowel Cancer UK wrote jointly to the UK NSC in February 2020, to state that both considered the development of an evidence base for the case for extending the screening programme beyond the age of 74, or for allowing older people to opt in, is a matter of urgency, and to ask the Committee, as a first step, to confirm how the evidence base could be strengthened, whether any steps are being taken to fill gaps in research, and if so, what they are. To date we have not received a response to this letter.

d) Wales Screening Committee

Bowel Cancer UK approached the Welsh Government to ask for the minutes of the Wales Screening Committee meeting that the Minister had referenced in his earlier letter was due to take place in the autumn of 2019. Due to changes that had been made to the website, the minutes had not been posted online, however civil servants sent an excerpt as follows:

“4.3 Bowel screening outside the recommended age range

The Public Health Wales representative presented a paper on self-referral into the bowel screening programme over the UKNSC recommended age range that had been commissioned by the Welsh Government. It was noted that there are no colorectal cancer screening trials that have specifically reported the effectiveness of screening in average to high risk individuals under 50 years of age or over 75 years of age, therefore, the benefits and risks are not fully known in this population.

It was noted that the only countries to allow self-referral over the age of 74 are England and Scotland with the USA allowing referral from a GP up to the age of 85. It was estimated that only 1.5% of the population who are over 74 would self-refer in Wales amounting to an estimated additional 85 colonoscopies per year.

It was agreed that although this is a relatively small number of referrals it should be seen in the wider context of the current demand on colonoscopy services and the optimisation of the bowel screening programme. The Committee agreed it was necessary to get clarification from the UKNSC on its position with regards to self-referral or await phase 2 of the ScHARR report that should provide the analyses required to support a decision, but there was no evidence to warrant changing the recommendation at present.

Action 6: Chair to write to UKNSC”.

e) The ScHARR Review

Following this communication, Bowel Cancer UK wrote to the School of Health and Related Research (ScHARR) at Sheffield University to find ask whether their next phase of modelling around screening will indeed include self-referral modelling for those over the age of 75.

A response was received on 9 March 2020 outlining that their understanding was that the decision to allow persons over the age of 74 to opt back into the screening programme (in England and Scotland) is not based on a cost effectiveness analysis, rather this was a pragmatic decision as outlined in the NHS England response above.

They confirmed that phase two of the research has been completed and that it will be written up in the next few weeks.

Whilst the current scope of the phase two modelling did not set out to answer questions around self-referral from 75, they indicated that further analysis could be done. Bowel Cancer UK has made an offer to convene a meeting with Public Health Wales and Welsh Government colleagues to see if the report could indeed provide insight to help develop a sound evidence base with which to review the current position.

No response has been received to date.

5. What are older people themselves telling us?

Whilst Bowel Cancer UK continues to influence this policy area, regular representations are made to the charity by older people themselves who are frustrated by the current position.

Those who are contacting both Bowel Cancer UK and the office of the Older People's Commissioner are being told to contact Bowel Screening Wales helpline and lodge an official complaint.

Mrs Probert has given permission to share her experience:

My husband Clive wasn't screened after 73yrs because the next appointment fell after his 75th birthday. He was diagnosed at 76 stage 4 ascending bowel cancer. Until this time he had no illness except diet controlled diabetes. On diagnosis we were told if it was diagnosed earlier he may have lived. The doctors told us at time of diagnosis that they were able to treat him so he went through four major ops and two complete courses of chemo. The excellent consultant in Velindre stated to me if only they had found it early he would have survived as until his diagnosis he was very fit man. He was 76 when diagnosed and died aged 81. If only screening was open to over 75yrs after which age the bowel cancer becomes more prevalent. Some people may live longer and not cost the health services so much money to no avail. Yours
Mrs A Probert"

Correspondence from the Older People's Council for Ynys Mon

I have been approached by people concerned that the bowel screening stops at the age of 74. It is my understanding from NHS Wales that that age is under review. It is also my understanding that the Older People's Commissioner for Wales has written to the Welsh Government regarding this issue too. I would be grateful if you could let me know the current position regarding this issue and how individuals or groups can make known their views too.

Whilst concluding this evidence briefing for the National Assembly's Petitions Committee, the UK is dealing with the national coronavirus emergency and all adult cancer screening programmes have been suspended for a period of eight weeks.

We fully appreciate that our severely overstretched NHS is facing unprecedented demand at the moment. We know that the Welsh Government, along with senior NHS colleagues will not have taken the decision to pause the Bowel Cancer Screening Programme lightly and there are a number of reasons why NHS health boards requested this pause, including the reallocation and availability of staff over the coming weeks and months.

This is not an ideal situation, but at times like these there is a need for pragmatism. The hope is that the service will resume as soon as it safe to do so and that the wider issues of self-referral for those over 75 be considered once our screening services return to normal and that the Welsh Government take the necessary steps to explore developing a robust evidence base which enables them to review their

position and allow those who are over the age of 75 to self-refer back into the Welsh Bowel Screening Programme.

For more information please contact Lowri Griffiths, Head of Wales, Bowel Cancer UK Lowri.griffiths@bowelcanceruk.org.uk

Deiseb P-05-936 Cynnig Sgrinio am Ganser y Coluddyn i Bobl dros 74 oed

Diolch am eich llythyr dyddiedig 24 Chwefror am y ddeiseb a gyflwynwyd gan Andrew Lye ynghylch sgrinio am ganser y coluddyn.

Fel mae'r ddeiseb yn nodi, nid oes darpariaeth yng Nghymru ar gyfer pobl dros 74 oed heb unrhyw symptomau i ddewis bod yn rhan o'r rhaglen sgrinio, yn wahanol i bobl o'r un oed yn yr Alban a Lloegr. Mae unigolion hŷn yng Nghymru a Bowel Cancer UK wedi mynegi pryder yn uniongyrchol â mi hefyd ynghylch y diffyg cydraddoldeb hwn. Ar 13 Ionawr 2020, cefais gyfle i gwrdd â chynrychiolwyr Bowel Cancer UK i drafod eu pryderon.

Rwyf ar ddeall nad yw'r sylfaen dystiolaeth bresennol ar gyfer sgrinio pobl dros 74 oed yn ddigonol i alluogi Pwyllgor Sgrinio Cenedlaethol y DU i gydbwyso'r manteision a'r niwed a gwneud argymhellion. Felly, rwyf wedi ysgrifennu ar y cyd â Bowel Cancer UK at Bwyllgor Sgrinio'r DU i ddweud ein bod yn meddwl bod angen datblygu sylfaen dystiolaeth, fel mater o frys, er mwyn gallu ystyried yr achos yn iawn dros ymestyn y rhaglen sgrinio i bobl dros 74 oed, neu i ganiatáu i bobl hŷn ddewis bod yn rhan o'r rhaglen sgrinio fel y maent yn cael gwneud yn yr Alban a Lloegr.

Rydym wedi gofyn i'r Pwyllgor, fel cam cyntaf, i roi gwybod i ni: sut, yn eu barn nhw, mae modd cryfhau'r sylfaen dystiolaeth bresennol; a oes unrhyw gamau'n cael eu gwneud i lenwi'r bylchau mewn gwaith ymchwil, ac os oes, beth yw'r camau hynny. Rydym yn aros am ymateb y Pwyllgor.

Yn gywir,

Heléna Herklotz CBE

Comisiynydd Pobl Hŷn Cymru

Rydym yn croesawu derbyn gohebiaeth yn Gymraeg. Byddwn yn ateb gohebiaeth a dderbynir yn Gymraeg yn Gymraeg ac ni fydd gohebu yn Gymraeg yn arwain at oedi.

We welcome receiving correspondence in Welsh. Any correspondence received in Welsh will be answered in Welsh and responding in Welsh will not lead to a delay in responding.

P-05-936 Offer Bowel Cancer Screening After the Age of 74 – Petitioner to Committee, 15.06.20

Many thanks for the documents you sent to me. They are most interesting and suggest they back up the comments I raised in the initial petition.

I am reminded of the old adage that says it's sometimes easier not to do something than to actually do it. I had this feeling whilst reading the response from the Health Minister, Vaughan Gething, who seems to prefer to sit on the fence as research studies had not proven its benefits. Yet nothing seems to be happening to conduct that research.

However, I must congratulate the Minister in saying that he wishes to see bowel screening to be extended to those aged 50 to 59. But I ask, when does he intend to announce this? I know Senedd elections are due in less than 11 months time, but we cannot wait for that to be a manifesto promise as 900 people, every year, are dying in Wales, from bowel cancer. Or, 75 die every month.

The papers suggest that I am not the only person raising the issue of extending bowel cancer screening beyond the age of 74. Mrs Probert eloquently expressed her view as did the Older People's Council for Ynys Mon. So this suggests people are coming forward, but it seems to be getting no further. Then my petition was launched.

Bowel Cancer UK **STRONGLY** believe there should be parity across all 4 nations and concludes that we should allow those over the age of 75 to self refer back into the Welsh Bowel Cancer Screening Programme.

In conclusion, I am saying that whilst my petition won't halt all 75 deaths every month in Wales, the sooner it's introduced, we see some gradual drop in numbers and I hope the Welsh Government will at the same time extend the scheme to those aged 50 to 59 and actively promote its take up. A double whammy.

If the Minister is holding back as he awaits research, he should get it commissioned and then make a decision in due course on whether or not to retain the new policy. But then evidence seems to suggest that the current policy **IS** ageist as I asserted in my petition.

I hope the Petitions Committee will adopt the petition and ask the Minister to take action as soon as possible. I thank you for sending me the documents and for allowing me to participate in this form.

Yours sincerely,

Andrew Lye

P-05-862 Mynd i'r afael â bwlio mewn ysgolion

Cyflwynwyd y ddeiseb hon gan BlowforBradley Campaign, ar ôl casglu 1,463 o lofnodion.

Geiriad y ddeiseb

Rydym yn credu bod achosion o fwlio mewn ysgolion yn cael eu hanwybyddu'n aml ac nad yw'r mater yn cael ei wynebu mewn gormod o achosion. Mae'n ofynnol i ysgolion fod â pholisi gwrth-fwlio ond, yn rhy aml, datganiad gwaith papur yn unig yw hyn na weithredir arno.

Rydym am i Gynulliad Cymru greu fframwaith gwrth-fwlio safonol y gellir ei orfodi drwy'r gyfraith. Mae bwlio mewn ysgolion yn aml yn effeithio ar y dioddefwyr ar hyd eu bywydau, felly mae angen newidiadau gan fod y system bresennol yn fethiant.

Yn aml, nid yw ysgolion yn cofnodi achosion o fwlio o'r fath oherwydd ofn gwneud niwed i'w henw da ac mae'r dioddefwyr sy'n codi llais yn aml yn canfod eu bod eu hunain yn cael eu cosbi, gan wneud mwy fyth o niwed i'w hunan-barch.

Rydym yn mynnu y caiff achosion o fwlio eu cofnodi ac y gweithredir arnynt drwy system gofnodi well, teledu cylch cyfyng, adrodd, a chyswllt gorfodol â rhieni.

04 March 2020

Dear Chair,

Thank you for your recent letter regarding the new anti-bullying guidance, Rights, Respect, Equality.

As you note in your letter, a new national approach to preventing and tackling bullying has been of high priority to me in my term as Commissioner. A full explanation of the background and details of my policy position can be read here: <https://www.childcomwales.org.uk/our-work/policy-positions/bullying/>

My work in this area has been firmly based in evidence from children and young people's experiences, drawing on data from my 2015 nationwide consultation *Beth Nesa*, where bullying was identified as the top priority for change by both the 7-11¹ and 11-18² age range, and my subsequent 2018 nationwide consultation of over 10,000 children and young people³. My work is reinforced by wider evidence in Wales which shows the extent of bullying.⁴

I have made recommendations about anti-bullying approaches in my last two Annual Reports^{5 6}, both of which were accepted by Welsh Government, and this includes my call to Government to introduce a duty on schools to monitor and record bullying incidents, as noted in your letter. I have also made several other recommendations which relate to the new guidance; in my 2017 report *Sam's Story: Listening to Children and Young People's Experiences of Bullying in Wales*⁷, over 2000 children and young people shared their own portrayals of the experience of bullying. Analysis of these showed several key messages from children and young people about their experiences and informed the 18 recommendations I made in my *Sam's Story* report, several of which related directly to the development of Rights, Respect, Equality.

post@comisiynyddplant.cymru
post@childrenscommissioner.wales

Croesawn ohebiaeth yn y Gymraeg yn ogystal â'r Saesneg ac mewn amryw o fformatau
We welcome correspondence in the medium of Welsh and English as well as alternative formats

I was therefore greatly pleased that Rights, Respect and Equity, is statutory for Governing Bodies and Local Authorities. At consultation stage, this guidance did not have statutory status and my response called clearly for Government to re-think this in order for the guidance to have the necessary impact on the experiences of children and young people.

I congratulate Government for taking this step and for introducing new statutory requirements for schools to develop robust anti-bullying policies informed by children and young people, which set out how bullying will be recorded and monitored, and how anti-bullying will be embedded into the curriculum.

In addition, the guidance as a whole advocates a whole school approach to anti-bullying informed by children's rights and in which participation is a central element. It is informed by the perspectives of children and young people throughout, in particular drawing on my Sam's Story report.

However, it is now important for Government to ensure schools are supported to implement this new guidance. Implementing effective whole school anti-bullying approaches is challenging, and Government must ensure this is part of the professional learning offer for initial teacher education and continued professional development, and the consortia have an important role in this. Awareness and understanding of the guidance must also be developed for school Governing Bodies.

It is also vital that there are effective mechanisms for schools and local authorities to be held accountable for their implementation of the guidance. Estyn has an important role here; reviewing how well schools and local authorities are implementing this guidance must be included as part of Estyn's future inspection arrangements.

My office will be continuing to assess the effectiveness of support and accountability arrangements so that this new approach truly has the impact that it should for children and young people.

Yours sincerely,

Sally

Sally Holland

**P-05-862 Tackling school bullying, Correspondence – Petitioner to Committee,
15.06.20**

We have discussed the points raised not only amongst ourselves but with the Safer Schools Campaign and Safetyguide. We unanimously feel that whilst the revised guidelines are a small step in the right direction they dont go anywhere near far enough to actually protect victims from bullying.

Whilst it is claimed these are 'statutory' there is actually no mention of changes to legislation to enact this. There has to be accountability and training to comply included to become effective. There is still no recourse to be effective.

We feel that more victims will suffer and lives ruined and lost unless this goes a stage further. Laws cover this within workplaces why not within education?

Kindest regards

Byron John

P-05-880 Mae Cymru yn prysur golli ei henw da o ran cerddoriaeth, a'i threftadaeth

Cyflwynwyd y ddeiseb hon gan Active Music Services, ar ôl casglu 1,745 o lofnodion ar-lein a 481 ar bapur, sef cyfanswm o 2,226 o lofnodion.

Geiriad y ddeiseb:

- * Rydym yn galw ar Gynulliad Cenedlaethol Cymru i annog Llywodraeth Cymru i lunio Cynllun Cenedlaethol brys ar gyfer Addysg Cerddoriaeth gydag arian canolog penodol, yn unol â gweddill y DU. Bydd hyn yn sicrhau bod gwersi offerynnau cerdd a hyfforddiant llais fforddiadwy ar gael fel hawl i bob plentyn yng Nghymru.
- * Mae'r Gwasanaethau Cerddoriaeth yng Nghymru yn rhan annatod o ddatblygiad Addysg Cerddoriaeth fel rhan o'r cwricwlwm creadigol ar draws pob maes.
- * Mae'r cyfraniad a wneir gan y diwydiant a'r gwasanaethau cerddoriaeth i economi a llesiant pobl Cymru yn rhy bwysig i'w anwybyddu.
- * Mae nifer y bobl ifanc sy'n astudio cerddoriaeth ar lefel Uwch yng Nghymru wedi haneru mewn deng mlynedd ac mae nifer y cofrestriadau ar gyfer arholiadau TGAU wedi lleihau 40 y cant.
- * Nid yw cyni yn esgus i Lywodraeth Cymru ganiatáu dirywiad ein Gwasanaethau Cerddoriaeth. Dylai cyni fod yn rheswm dros fuddsoddi yn yr hawl cyfartal i bawb gael gwasanaethau, a chynaliadwyedd ein cymunedau.

Arwyddwch y ddeiseb hon i gefnogi'r ymgyrch i atal dirywiad Addysg Cerddoriaeth yng Nghymru.

13 Mawrth 2020

Annwyl Janet

Deiseb P-05-880 Mae Cymru yn prysur golli ei henw da o ran cerddoriaeth, a'i threftadaeth

Diolch am eich llythyr ar 9 Mawrth ynghylch y ddeiseb uchod.

Fel yr amlinellwyd yn eich llythyr, aeth y Gweinidog Addysg i gyfarfod y Pwyllgor ar 16 Ionawr er mwyn trafod yr Astudiaeth Dichonoldeb Gwasanaethau Cerddoriaeth. Comisiynwyd yr Astudiaeth Dichonoldeb Gwasanaethau Cerddoriaeth gan Lywodraeth Cymru mewn ymateb i argymhellion y Pwyllgor yn ei adroddiad yn 2018 ynghylch ariannu addysg cerddoriaeth yng Nghymru a gwella mynediad ati.

Yn dilyn y cyfarfod ar 16 Ionawr, roeddem o'r farn bod y cynnydd a wnaed o ran yr Astudiaeth Dichonoldeb Gwasanaethau Cerddoriaeth yn cymryd mwy o amser nag a ragwelwyd. Yn wyneb hynny, gwnaethom ysgrifennu at y Gweinidog yn amlinellu'r pryder hwnnw a cheisio gwybodaeth bellach.

Cawsom ymateb i'r llythyr hwn ar 28 Chwefror, a buom yn ei ystyried yn ein cyfarfod ar 5 Mawrth. Yn ôl y llythyr, cynhaliwyd cyfarfod â rhanddeiliaid mewn gwasanaethau cerddoriaeth ar 29 Ionawr, gan roi'r cyfle iddyn nhw gynnig adborth ar yr Astudiaeth Dichonoldeb Gwasanaethau Cerddoriaeth ac ystyried y camau nesaf. Yn ôl y Gweinidog, mae swyddogion Llywodraeth

Cymru wrthi ar hyn o bryd yn ystyried y safbwytiau a fynegwyd yn y cyfarfod hwnnw, a byddant yn gallu diweddu'r Pwyllgor unwaith y bydd yr adborth a gafwyd wedi'i werthuso'n llwyr.

Yn ein cyfarfod, gwnaethom gytuno i fonitro'r cynnydd a wneir ac ysgrifennu at y Gweinidog i gael diweddariad pellach, pan fydd cyfarfod nesaf y rhanddeiliaid mewn gwasanaethau cerddoriaeth wedi cael ei gynnal.

Yn gywir,

Helen Mary Jones AC

Dear Petitions Committee

15.6.20

Petition:P-05-880

Thank you again for the recent update and the communications between Janet Finch-Saunders and the Chair of the Culture Committee regarding the Music Services Feasibility Report.

I am aware that the Education Minister and her staff have responded orally to the disappointment of the report but as yet I am unaware that a written response has been produced and made public. Although there are other extreme circumstances that may be taking priority I am concerned, due to the cost and delays of the feasibility report, that there has been sufficient time since Jan 12th for the Minister to have made written responses to the Culture Committee, the Welsh Government and the public.

Following the meeting of the Stakeholders on 29th Jan there appears to have been no progress even though the Covid 19 lockdown was not in force until the end of March. I am aware that a National Plan with appropriate funding for front line music services, as requested in my petition, has been recognised as a way forward with the possibility of it becoming part of the New Education Curriculum for Wales. This is welcome progress but there does not appear to be any debate or decision taken at Government level regarding any future developments for the NP's inclusion, role or status.

This could not be a worse time to be considering the role of music in the wellbeing of our nation but with schools preparing for some reopening, the possibility of the further roll out of the new curriculum in the not too distant future, I remain very concerned that there has been no virtual meetings of the stakeholders to consider the complexities involved.

Music has played an incredible vital role in keeping all nations uplifted during these unprecedented times and with a plethora of coverage showing the importance of music in society I remain disappointed that again the Welsh Government is dragging its feet in realising that music will be important in the New Normal Society.

Yours sincerely

Dinah Pye

P-05-925 Addysgu Llesiant Mislifol mewn Ysgolion: Peidio â Gadael Cymru

Tu Ôl

Cyflwynwyd y ddeiseb hon gan Jade Morgan, ar ôl casglu cyfanswm o 846 lofnodion.

Geiriad y ddeiseb:

Fy enw i yw Jade, ac am 15 mlynedd dywedwyd wrthyf i fod y boen ddifrifol yr oeddwn yn ei phrofi fel rhan o'm cylchred mislifol yn gwbl normal.

Roeddwn i'n dioddef o boen enbyd, blinder, a phroblemau cysylltiedig â'r coluddyn a'r bledren – a hyn oll wrth geisio mynd drwy'r ysgol, mynd drwy oed aedd fedrwydd, a phasio fy arholiadau.

Byddwn i wedi hoffi gwybod nad oedd yr hyn yr oeddwn yn ei brofi yn normal – ond yn hytrach symptomau cyflwr cyffredin o'r enw endometriosis sy'n effeithio ar 1 o bob 10 menyw o'r oed aedd fedrwydd i'r menopos. Dim ond un o lawer o gyflyrau mislifol sy'n effeithio ar bobl ifanc yw endometriosis – mae eraill yn cynnwys PCOS, PMDD, ac adenomyosis. Nid wyf am i unrhyw un sy'n dioddef o gyflwr iechyd mislifol wneud hynny ar ei phen ei hun fel y gwnes i.

Drwy weithio gydag Endometriosis UK, fy ngobaith yw y gallwn ni lwyddo i berswadio'r Cynulliad Cenedlaethol i addysgu lles mislifol mewn ysgolion. Yn ogystal â helpu i chwalu'r tabŵau yng hylch iechyd mislifol ac annog pobl i siarad yn agored am eu mislif, byddai hyn hefyd yn addysgu am ba brofiadau sy'n normal a pha brofiadau nad ydynt yn normal.

Pe bawn i'n cael fy addysgu yn yr ysgol am ba brofiadau sy'n normal a pha brofiadau nad ydynt yn normal o ran poen sy'n gysylltiedig â mislif, gallwn i fod wedi gofyn am help ac osgoi blynyddoedd o ddryswn a thorcalon.

I lawer, mae'r ysgol yn gyfnod hapus i edrych yn ôl arno. Ac er fy mod yn bendant i mi gael cyfnodau da, y peth rwy'n ei gofio fwyaf yw cwympo i gysgu yng nghefn y dosbarth a gorfod rhoi'r gorau i gymnasteg ysgol. Byddai athrawon yn fy nhrin i fel nad oeddwn i eisiau bod yno, ac nid oedden nhw hyd yn oed yn gofyn pam. Mewn gwirionedd, roeddwn i'n rhy flinedig ac mewn gormod o boen i wneud unrhyw beth.

O 2020, bydd plant yn Lloegr yn dysgu am lesiant mislifol fel rhan o'r cwricwlwm ysgolion. Dyna un pwnc y gallaf i ond dymuno iddo fod ar y cwricwlwm pan oeddwn i yn yr ysgol. Efallai na fyddai athrawon wedi fy anwybyddu i, ond yn hytrach wedi fy ngalluogi i gael yr help yr oedd ei angen arnaf.

Er bod y ffaith y bydd y rheini yn Lloegr yn dechrau dysgu am lesiant mislifol yn gam enfawr ymlaen, rhaid peidio â gadael Cymru tu ôl. Mae Llywodraeth Cymru bellach yn adolygu'r cwricwlwm ac mae gennym gyfle i sicrhau bod plant yng Nghymru yn cael yr addysg y mae ei hangen arnynt.

A fydddech cystal â llofnodi fy neiseb i wneud llesiant mislifol yn rhan o'r cwricwlwm Cymreig.

Gyda'n gilydd, gallwn ddileu'r stigma a rhoi i blant â chyflyrau mislifol y gefnogaeth y maent yn ei haeddu. O'r diwedd.

23 Mawrth 2020

Annwyl Janet,

Deiseb P-05-925 Addysgu Llesiant Misli fol mewn Ysgolion: Peidio â Gadael Cymru Ar Ôl

Diolch am eich llythyr dyddiedig 12 Mawrth mewn perthynas â'r ddeiseb uchod, sydd yn cael ei hystyried gan y Pwyllgor ar hyn o bryd.

Mae fframwaith y Cwricwlwm i Gymru yn rhoi'r cyfle i bod ysgol lunio a mabwysiadu eu cwricwlwm eu hunain. Mae'n annog ysgolion i lunio'u gweledigaeth eu hunain ar gyfer eu dysgwyr o fewn cyd-destun y pedwar diben a'r dysgu a ddiffinir ar lefel genedlaethol.

Bydd gan ysgolion yr hyblygrwydd i ddewis y cynnwys sy'n bodloni orau anghenion eu dysgwyr nhw yn eu cyd-destun penodol nhw. Bydd gan ddysgwyr amrywiaeth o anghenion a chefnadroedd. Yn ogystal â'r testunau penodol a addysgir, y gweithgareddau a gynhelir, a'r cyd-destunau perthnasol, mae'r Fframwaith yn cynnig y gallu i ysgolion ac ymarferwyr ddewis y profiadau, yr wybodaeth a'r sgiliau sy'n cefnogi orau anghenion eu dysgwyr o fewn y fframwaith hwnnw.

O fewn Maes Dysgu a Phrofiad (MDPh) lechyd a Lles yn enwedig, mae'n bwysig bod digon o hyblygrwydd i gefnogi dysgwyr. Mae'r 'disgrifiadau dysgu' yn y canllawiau ar gyfer pob MDPh yn cynnwys dysgu allweddol a manylion sut y dylai dysgwyr wneud cynnydd wrth deithio ar hyd y continwwm dysgu. Mae 'Disgrifiad Dysgu' o dan 'Mae datblygu iechyd a lles y corff yn arwain at fuddiannau gydol oes', sef un o'r Datganiadau o'r Hyn sy'n Bwysig yn ymdrin yn benodol â galluogi dysgwyr i "...adnabod y cysylltiad rhwng y newidiadau corfforol ac emosiolol sy'n gallu digwydd mewn gwahanol gyd-destunau." O fewn y disgrifiad dysgu hwn, mae dysgwyr yn cael

Tudalen y pecyn 201

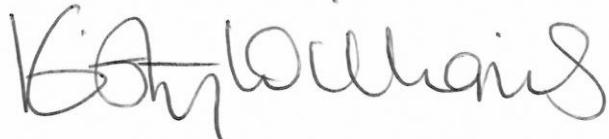

eu cefnogi i ddatblygu eu dealltwriaeth ar hyd y continwwm dysgu er mwyn iddynt allu nid yn unig ddeall ac adnabod y cysylltiadau rhwng y newidiadau corfforol ac emosiyol sy'n digwydd ond hefyd allu Mae 'Mae datblygu iechyd a lles y corff yn arwain at fuddiannau gydol oes', sef un o'r Datganiadau o'r Hyn sy'n Bwysig hefyd yn cynnwys disgrifiad dysgu sy'n galluogi dysgwyr i "adnabod rhai mathau o ymddygiad, cyflyrau a sefyllfaoedd sy'n effeithio ar fy iechyd a lles corfforol, ac rwy'n gwybod sut i ymateb a chael cymorth mewn ffordd ddiogel." Bydd gwneud cynnydd ar hyd y continwwm hwn yn ei gwneud yn bosibl i ddysgwyr ddatblygu gwybodaeth a dealltwriaeth o sut i reoli ymddygiad a chyflyrau.

O fewn y disgrifiadau hyn, mae ysgolion yn cael rhyddid i addysgu am laslencyndod a'r mislif ar oedran sy'n addas o ran datblygiad. Gallant hefyd roi'r wybodaeth a'r hyder i ddysgwyr i chwilio am gefnogaeth a chymorth i ymdrin â'r newidiadau corfforol ac emosiyol sy'n digwydd gydol bywyd.

Fel rhan o'r canllawiau, sydd newydd gael eu cyhoeddi, rydyn ni hefyd yn eglur y bydd aeddfedu yn cael effaith bwysig ar iechyd a lles dysgwyr, a dylai lleoliadau ac ysgolion ystyried sut y byddant yn cefnogi dysgwyr i ddeall ac i reoli newidiadau yn eu datblygiad, yn ogystal â'r amrywiaeth o ffyrdd y mae'r newidiadau hynny yn cael effaith ar ddysgwyr.

Rydw i'n gobeithio bod hyn yn egluro'r sefyllfa.

Yn gywir

01 Ebrill 2020

Annwyl Janet Finch-Saunders AC,

Diolch am eich llythyr ynghylch deiseb P-05-938, sy'n gofyn am ragor o wybodaeth am ein gwaith yn codi ymwybyddiaeth o Fagloriaeth Cymru ac i wella sut y mae Prifysgolion yn cynnwys y Dystysgrif Her Sgiliau (SCC) yn eu cynigion. Dyma atebion i'r pwyntiau yn eich llythyr.

Manylion am sut y mae'r gwaith o gasglu enwau prifysgolion sy'n derbyn Bagloriaeth Cymru yn ei cynigion yn mynd rhagddo

Mae gwaith Cymwysterau Cymru yn casglu enwau'r prifysgolion sy'n derbyn yr SCC yn parhau. Fodd bynnag, nid yw hon yn dasg mor hawdd ag y mae'n ymddangos. Er enghraifft, mae'r gwaith wedi dangos fod y rhan fwyaf o brifysgolion yn derbyn yr SCC, ond ymddengys bod gwahaniaethau yn parhau rhwng gwahanol gyfadranau a'i gilydd o fewn y prifysgolion hyn. Her arall yw bod yr wybodaeth yn newid o hyd, gan fod prifysgolion a chyfadranau yn ailedrych ac yn diweddar eu gofynion mynediad yn gyson. Rydym wedi ysgrifennu [blog](#) i ddangos yr hyn sydd wedi bod yn digwydd dros y flwyddyn ddiwethaf. Efallai y bydd hyn yn ddefnyddiol i chi.

Ymateb i sylwadau'r deisebydd fod gwahaniaeth rhwng derbyn y cymhwyster yn ychwanegol at 3 cymhwyster safon uwch a bod yn gyfwerth â safon uwch

Fel y dwedais yn fy ymateb blaenorol i'r pwylgor, mae llawer o brifysgolion bellach yn derbyn yr SCC yn eu cynigion. Cydnabyddir bod modd cymharu'r her o ennill y Dystysgrif i'r her o ennill cymhwyster safon uwch ac mae'n derbyn yr un nifer o bwyntiau UCAS. Fodd bynnag, fel cyrff annibynnol, y prifysgolion sy'n penderfynu ar eu prosesau a'u meinu prawf derbyn eu hunain. Er ein bod yn cytuno bod gwahaniaeth rhwng derbyn y cymhwyster yn

Gohebiaeth.Kirsty.Williams@llyw.cymru
Correspondence.Kirsty.Williams@gov.wales

Rydym yn croesawu derbyn gohebiaeth yn Gymraeg. Byddwn yn ateb gohebiaeth a dderbynir yn Gymraeg yn Gymraeg ac ni fydd gohebu yn Gymraeg yn arwain at oedi.

Tudalen y pecyn 204

We welcome receiving correspondence in Welsh. Any correspondence received in Welsh will be answered in Welsh and responding in Welsh will not lead to a delay in responding.

ychwanegol at 3 safon uwch a chael ei dderbyn fel cymhwyster cyfwerth â Safon Uwch, yn y pen draw, y prifysgolion sy'n pennu'r gofynion mynediad i'w cyrsiau. Er bod gwahaniaethau rhwng polisiau sefydliadau a chyfadranau unigol, ymddengys i Cymwysterau Cymru o'u gwaith ymgysylltu a chasglu tystiolaeth bod yr SCC yn cael ei gwerthfawrogi a'i bod yn gwneud cyfraniad cadarnhaol at geisiadau dysgwyr i'r brifysgol.

Sut y mae Llywodraeth Cymru yn codi ymwybyddiaeth o'r cymhwyster ac yn annog prifysgolion i gydnabod Bagloriaeth Cymru fel un sy'n cyfateb i safon uwch

Mae grŵp gorchwyl a gorffen wedi'i sefydlu ym maes cyfathrebu i gydgysylltu'r gwaith o hyrwyddo Bagloriaeth Cymru. Mae'n cynnwys cynrychiolwyr ar ran Cymwysterau Cymru, CBAC, Addysg Bellach, consortia rhanbarthol a Llywodraeth Cymru.

Cytunwyd ar weithgarwch ac mae gwaith yn mynd rhagddo i gyflwyno ymgyrch i randdeiliaid. Bydd hyn yn cynnwys mireinio'r prif negeseuon i wella dealltwriaeth pobl o Fagloriaeth Cymru, yn ddysgwyr, rhieni, ysgolion, sefydliadau addysg uwch a busnesau. Bydd yr ymgyrch yn cynnwys datblygu microsafle cysylltiadau cyhoeddus, cyfryngau cymdeithasol, cyflwyniadau a chynnwys amlgyfrwng.

Mae'r holl weithgareddau hyrwyddo wedi eu hatal dros dro oherwydd canllawiau cyfathrebu Llywodraeth Cymru ar argywng y Coronafeirws. Fodd bynnag, mae elfennau o'r gwaith cynllunio yn mynd rhagddynt pan fo hynny'n bosibl.

Yn gywir,

Kirsty Williams AC/AM

Y Gweinidog Addysg
Minister for Education

Eitem 5.14

P-05-871 – Trefnu bod cyfleusterau newid cewynnau ar gael mewn toiledau i ddynion a thoiledau i fenywod

Cyflwynwyd y ddeiseb hon gan Antony Esposti, ar ôl casglu – cyfanswm o 125 lofnodion.

Geiriad y ddeiseb:

Yng Nghymru, mae llawer o fusnesau, ysbytai a pharciau/safleoedd a gynhelir gan gynghorau lle nad oes cyfleusterau newid cewynnau ar gael i ddynion a menywod eu defnyddio. Fel arfer, dim ond mewn toiledau i fenywod y mae'r cyfleusterau ar gael.

Oherwydd hyn, mae dynion yn aml yn gorfod mynd i chwilio am gyfleusterau y cânt eu defnyddio neu, ar lawer o achlysuron, ddefnyddio mesurau dros dro fel newid cewyn ar y llawr, ar ben caead bin ag olwynion mewn toiledau, cydbwysor plentyn ar eu côl ac ar faint yn yr awyr agored.

Gofynnwn i'r Cynulliad sicrhau bod pob gwaith adnewyddu yn y dyfodol ac adeilad newydd mewn manau sy'n agored i'r cyhoedd â man diogel a glân i newid cewynnau a galluogi plant bach i fynd i'r toiled yn ddiogel ac, fel mesur tymor byr, drefnu bod cyfleuster newid cewynnau ar ffurf bwrdd neu uned gollwng-i-lawr ar gael.

P-05-898 Dylid gwahardd defnyddio byrddau A yng Nghymru

Cyflwynwyd y ddeiseb hon gan Angharad Paget-Jones, ar ôl casglu cyfanswm o 80 lofnodion.

Geiriad y ddeiseb:

Deiseb i wahardd y defnydd o fyrddau A ar gyfer hysbysebu yng Nghymru. Mae byrddau A yn gwneud ein palmentydd yn anniben ac maent hefyd yn peri risg enfawr i bobl anabl gan eu bod yn golygu yn aml fod rhaid i bobl mewn cadair olwyn neu bobl â nam ar eu golwg fynd ar yr heol er mwyn mynd heibio iddynt.

Mae hyn yn broblem yn arbennig mewn mannau a rennir, megis canol dinasoedd, yn ogystal ag mewn trefi arfordirol lle mae'r palmentydd yn gulach.

25 March 2020

Dear Janet,

Thank you for your letter of 6 March 2020 regarding Petition P-05-898, the petition to ban the use of A boards in Wales.

In my letter to you last July, I informed you that this matter would be discussed at the Disability Equality Forum. This meeting took place on 15 January and was chaired by the Deputy Minister and Chief Whip.

At the meeting, following representations from the RNIB and others, it was agreed that A Boards pose a real danger to visually impaired people, but it was also acknowledged that A Boards are only one object in a range of practices on the high street that serve as obstructions for disabled people. These other obstructions include cobbled stones, bollards and tables and chairs outside cafes and restaurants.

Listening to all the views it was therefore agreed at the meeting that this issue could be considered as part of the continuation of Welsh Government's work on the Social Model of Disability.

P-05-898 Ban the use of A boards in Wales, Correspondence – Petitioner to Committee, 15.06.20

The a board campaign is important now more than ever, with shops being allowed to open shortly they're going to take up pavement room blocking it up making it difficult for blind people, wheelchair users and pushchairs to by pass. Now with social distancing rules in place we need the extra pace now more than ever. Please consider this as soon as possible.

Kind regards,

Angharad Paget-Jones

Eitem 5.16

P-05-913 Creu Llwybr Amldefnydd Lôn Las Môn

Cyflwynwyd y ddeiseb hon gan Gethyn Mon Hughes, ar ôl casglu cyfanswm o 2,216 lofnodion.

Geiriad y ddeiseb:

Rydym yn galw ar Lywodraeth Cymru i dynnu ei gwrthwynebiad yn ôl ac i gefnogi'r cynnig bod Network Rail yn caniatáu i Reilffordd Ganolog Ynys Môn gael ei haddasu yn llwybr amldefnydd di-draffig 18 milltir o Amlwch i'r Gaerwen. Gan nad yw wedi cael ei defnyddio am y 26 mlynedd diwethaf, credwn na allai'r llinell gyflawni unrhyw bwrpas defnyddiol i gludo teithwyr na chludo nwyddau rhwng y Gaerwen ac Amlwch. Yn lle hynny, byddai llwybr amldefnydd Lôn Las Môn ar agor i'w ddefnyddio gan deuluoedd, cerddwyr, rhedwyr, reidwyr ceffylau a beicwyr hamdden, gan gynnwys y rhai â gofynion mynediad i'r anabl.

Gwybodaeth ychwanegol:

Yn wahanol i siroedd cyfagos Gwynedd a Chonwy, ychydig iawn o lwybrau di-draffig sydd yna ar Ynys Môn. Er bod dau lwybr beicio cenedlaethol i'w cael ar yr ynys, ffyrdd dosbarth B yw'r rhain ar y cyfan, gydag arwyddion yn nodi eu bod at ddefnydd beicwyr ffordd profiadol yn bennaf. Mae 60 y cant o bobl nad ydynt yn beicio yn nodi ofn traffig fel rheswm dros beidio â defnyddio beic wrth deithio o le i le. Mae llwybr di-draffig fel Lôn Las Môn yn hanfodol i annog mwy o bobl i feicio at ddibenion hamdden a thrafnidiaeth. At hynny, gan fod un digwyddiad traffig ffordd bob dydd ar gyfartaledd yn cynnwys reidwyr ceffylau, byddai reidwyr ceffylau ar Ynys Môn hefyd yn elwa ar lwybr di-draffig, i ffwrdd o gerbydau sy'n symud yn gyflym ac sy'n peri perygl mawr i geffylau a'u reidwyr. Ar ôl iddo gael ei gwblhau, byddai'r llwybr gwyrdd amldefnydd yn goridor pellter hir di-draffig o dde orllewin i ogledd ddwyrain yr ynys, gan ganiatáu i ddefnyddwyr gysylltu â llwybr arfordirol Ynys Môn yn ogystal â llwybrau cerdded, llwybrau beicio a llwybrau ceffylau eraill. Byddai'r prosiect yn arwain at fanteision economaidd i'r sector twristiaeth ar Ynys Môn hefyd. Mae hen lwybr rheilffordd y Camel Trail yng Nghernyw yn brawf o hynny a thua'r un hyd â llwybr arfaethedig Lôn Las Môn, sef 17.3 milltir. Yn 2015, gwnaeth defnyddwyr y Camel Trail wario tua £6.7 miliwn a chynhyrchu tua £13 miliwn o drosiant busnes. Gyda gordewdra, materion iechyd meddwl a lefelau diabetes math 2 yn cynyddu ar raddfa frawychus, byddai Lôn Las Môn yn caniatáu i'r cyhoedd ymarfer corff

mewn amgylchedd di-draffig, i ffwrdd o allyriadau cerbydau a llygryddion, ac ar dir sy'n hygrych i'r rheini ag anableddau ac anghenion mynediad. Byddai manteision sylweddol yn deillio o'r prosiect hwn i breswylwyr, busnesau ac ymwelwyr, ac yn ddi-os byddent yn gwella ansawdd bywyd pawb ar Ynys Môn.

16 March 2020

Dear Janet,

Petition P-05-913 Creation of Lôn Las Môn Multi-Use Path

Thank you for your recent letter to Bill Kelly regarding the petition on a potential multi-use path on the disused branch line between Gaerwen and Amlwch. Bill has asked me to follow up and respond in my role as Senior Public Affairs Manager for Wales and Borders.

For background, Anglesey Central Railway Ltd. (ACRL) have held a licence to carry out basic maintenance on the line for a number of years. Their long-term aspiration is to restore the branch as a heritage railway and in 2016 we formally started the industry consultation required to progress a long-term lease of the line. At this time ACRL were the only interested party actively involved in discussions with our route community rail team.

We recognise that more recently, the future use of the line has been subject to considerable debate locally, and that Lôn Las Môn have developed alternative proposals that would instead see the line re-purposed as an active travel route. Although negotiations towards a lease with ACRL were already well advanced, we felt it was important to be fair in our dealings with all parties and so we agreed to discuss their proposals and provide them with guidance on the industry disposal process.

We also explained to them that during the industry consultation phase in 2016, the Welsh Government and freight industry had made it clear that they would only support the disposal of the disused line if the ability to restore passenger or freight services on the line was maintained.

Earlier this month, Lôn Las Môn requested that we open formal negotiations on a lease with them for an active travel route, with the ACRL negotiations still ongoing. Although we have considered this request very carefully, including taking counsel from our legal and property teams, we feel that lease negotiations with ACRL are now advanced to a stage where it would be unfair to Lôn Las Môn, or indeed any other interested party, to start negotiating a lease with them in tandem.

Of course, should the lease negotiations with ACRL not progress to completion, or if the terms of the lease are not complied with, there may be future opportunities to discuss an alternative use for the line. However, it is worth noting that Welsh Government recently reiterated their desire to see a rail solution maintained on the branch.

As we have suggested previously, to both Lôn Las Môn and ACRL, we would encourage continued dialogue between both parties and other stakeholders on Anglesey to explore potential opportunities for collaboration.

Yours sincerely,

Sam Hadley, Senior Public Affairs Manager, Wales and Borders
cc: Adrian Williamson, Lôn Las Môn

Lôn Las Môn

P-05-913 - Pwyllgor Deisebau 23.06.20 / Petitions Committee 23.06.20

Dear Sirs, Madam

We would like to respond as follows to the letters & enclosures from Network Rail – Cymru Wales dated 16th March 2020. We fully understand the delay in getting this letter from Network Rail out to ourselves due to the situation we have all found ourselves in under the Covid 19 Pandemic and it has changed many things in Wales and how we look at walking, cycling and access to safe spaces / traffic free environments. Answering the specific paragraphs in Network Rail's letter we would add:

1. We have over the last year had a number of discussions with Sam Hadley who has as he says been very even handed with our proposal and approach to the alternate scheme for this disused line, the only disappointment is that despite our best efforts with our consultants at Michael Chown and John Grimshaw <http://www.johngrimshawassociates.co.uk> we were unable to follow up with a face to face or Zoom type meeting with Network Rail to discuss with them our proposals in more detail including options for step in and an option to take on the lease if the Heritage Group failed to obtain sufficient funding for their scheme. We did make the request to open a line of discussion re an alternate lease actually back in October of 2019, it was only in March 2020 did they acknowledge such, which was a little disappointing.
2. We have been aware of Anglesey Central Railway Ltd (ACRL) licence to carry out basic maintenance and clearance on the line, this came to an end in April of this year and was limited to a short 2-mile section of line in the middle of the island. Network Rail made us aware of the formal industry consultation of which WG and others were required to respond to if a long-term lease were agreed for the line and/or disposal of. We have asked to see sight of this consultation, but nothing has been forthcoming i.e. what was asked of WG and the Local Authority and were the general public of Ynys Môn asked for their views and opinions. This petition which was only open for a very limited period (1 month) showed that there was a strong appetite for a Multiuse Path in favour of any Commuter or Heritage Rail. It seems clear that before any disposal or lease is agreed to it should be a matter of the residents on the island to have a say on and not just a private company and UK Gov Department.
3. As respect of the industry consultation with options for freight and/or passenger services, it's very unlikely that freight would ever be used on the line given that there is no heavy industry left on this portion of the island that would need or warrant freight services that could not be met via road based carriers. Of recent the Rehau plant Amlwch also recently closed down and they used exclusively road transport, the Associated Octel plant in Amlwch is slowly being demolished and taken away which was the last freight use of the line in 1993/4 when the line was finally closed. As regards light rail or passenger services, the North of the island is well served by bus services and even the Local Authority are exploring ideas for decarbonising bus services by looking at hybrid buses and hydrogen powered buses which get more into the countryside and villages, far more than a train service would which only serves a limited number of villages/towns. Relate to this matter is the cost of a ticked a Rover

Ticket which can take you to a number of places on the island is only £4.50, how much would a rail ticket cost and how much would it need to be subsidised by to make viable?

4. We do stand by our proposal which has been fully costed at £5m and a full feasibility including integration with current Active Travel, National Cycle and walking routes is ready to be commissioned. We see from the Network Rail letter that they have indicated that "*should the lease negotiations with ACRL not progress to completion, or if the terms of the lease are not complied with, there may be future opportunities to discuss an alternative use for the line.*" This we welcome, it does go onto say "*However, it is worth noting that Welsh Government recently reiterated their desire to see a rail solution maintained on the branch*" This is borne out by letter we have received from Ken Skates AC/AM dated 4th June to Rt Hon Grant Shapps MP Secretary of State for Transport (see attached) The third from last paragraph which reads "*My letter also set out other priorities for rail re-openings and my officials have recently lodged an expression of interest for the New Ideas Fund, for the restoration of passenger services on the line between Gaerwen and Amlwch on Anglesey*" We find this quite strange given that in the recent consultation on opening new stations Llangefni which lies on the centre of the island was not considered for re-opening in favour of other larger population centres in North Wales i.e. Deeside. We acknowledge that the Minister has a portfolio to push forward but we urge the WG and Minister to consider the breadth of support for a much-needed Multiuse path across the island.
5. We have indicated in our previous responses the benefits a Multiuse path could provide which are far more wide ranging than passenger, freight or a heritage service:
 1. **Health** (refer to Dr Dyfrig ap Dafydd letter) see previous petitions committee response
 2. **Schools**, the route passes by 7 secondary & junior schools lie along its length
 3. **Active Travel**, the line passes through three business and industrial estates, with the growth in cycling in recent months this path could provide greater connectivity
 4. **Business**, cafes, campsite, B&Bs and pubs along its route would all benefit and as other former railway paths have shown micro business grow up along them servicing its users
 5. **Tourism**, one running group has approached us with the view to running a Metric Marathon along its length 26km as opposed to 26 miles, no road closures needed as route travels through a number of villages. Start of end being in Amlwch which in itself would be a boost to the town. Increased footfall from walkers & hikers wanting a more level path than the coastal path, this includes better provision for wheelchair users holidaying on the island
 6. **Environment**, the uninterrupted 18-mile traffic free route passes two large bodies of water & nature reserves such as Gors Dryga, it's potential as a Green Corridor is enormous to biodiversity and wildlife connectivity from North to South on the island.
 7. **Cycling**, one thing the Cov19 pandemic has shown is the growth in cycling, numbers of new and returning cyclists have grown by a reported 300% with national and local cycling shops barely keeping up with supply which you only need to go out on the local lanes and existing cycling paths to see how busy they all are. One key factor though is the need for Safe Spaces i.e. Traffic Free environments are the safest for all concerned, whether they are new or returning to cycling or adaptive cycling. We have a duty to provide better for all these users instead of just pavements and country roads.
6. This is a scheme to be run by Lôn Las Môn CIC, we are not looking for the Local Authority to run or manage the scheme, we just need the WG to consider what it could bring to Ynys Môn and call on them to help us pause any signing of any long term lease on the line until it's been put before the Senedd or the island so that a democratic decision can be made on its disposal.

"Greenways & Multiuse Paths are traffic-free routes connecting communities to all kinds of destinations for commuting, everyday journeys, leisure and recreation".

Continued...

Lôn Las Môn

Yours Sincerely

Rt Hon Grant Shapps MP
Secretary of State for Transport

[REDACTED]

4 June 2020

Dear Grant,

I wrote to you on 2 March about the UK Government's Restoring Your Railways fund and investment in the Wales and Borders rail network. Thank you for your reply of 6 May.

I am writing now, following a report undertaken for me by Transport for Wales, to request formally UK Government investment in the delivery, by early 2024, of four new stations across the regions of Wales which are my shortlisted priorities for potential developments under the New Stations Fund 3. These are - in no particular order as they are all of the highest priority - Deeside Parkway, on the Borderlands Line in North Wales; Carno, on the Cambrian Mainline in Mid Wales; St Clears on the Great Western Mainline in West Wales; and Ely Mill on the City Line in Cardiff, in South Wales.

In combination, which is why I have not prioritised between them, the Transport for Wales report demonstrates that there is a compelling case for all four to be developed as an integrated programme to improve access to the rail network across the regions of Wales. This package will make a major contribution to improved rail connectivity, supercharge our post Covid19 recovery, and develop our public transport for the future. Our new station openings will be key to Building Back Better.

In the cases of Deeside Parkway and Ely Mill, both will be key components of their respective Metro developments with major contributions to improved urban connectivity, employment/economic growth and reduced car use. New stations in Carno and St Clears would support strong employment and sustainable economic growth through improved regional connectivity. They share extensive community and third party support (community councils, local authorities and community groups) within rural communities that have limited public transport opportunities and have historically been overlooked, particularly since the closure of previous stations in these communities and of Laura Ashley's famous factory in Carno. Carno station will adjoin a new community hub/museum at the factory site and there will be great synergy between the two developments.

Tudalen y pecyn 218

We welcome receiving correspondence in Welsh. Any correspondence received in Welsh will be answered in Welsh and responding in Welsh will not lead to a delay in responding.

Each is deliverable, and is operationally viable, and will offer regular services to national hubs. Carno will also require Network Rail to expedite the planned upgrade of the adjacent level crossing to avoid increased risk.

Transport for Wales has an unsurpassed delivery record over the previous two rounds of NSF. I have requested Transport for Wales to submit the completed NSF application forms directly to your NSF team on my behalf. Given that the UK Government continues to maintain responsibility and funding for rail infrastructure enhancements, I requested in my letter of 2 March, a fair allocation of the Restoring Your Railways funding for enhancements in Wales to develop a rail infrastructure enhancement programme delivering on our priorities and those of our partners. Your commitment to meeting the full costs of our new station building programme would be a positive first step to deliver transformative benefits to those communities.

As set out in my letter of 2 March, I do have further priorities for rail investment, including new stations at Greenfield and Magor, supported by MPs and MSs, and I would be glad to assist with any evaluation process in these cases.

My letter also set out other priorities for rail reopenings and my officials have recently lodged an expression of interest for the New Ideas Fund, for the restoration of passenger services on the line between Gaerwen and Amlwch on Anglesey and an expression of interest for the Accelerating Existing Proposals fund to restore the line and services to Abertillery in South Wales. My priorities are not limited to these cases, as you will recall from the attachment to my 2 March letter, and I will continue to press the case strongly for them, including the Aberystwyth – Carmarthen and Bangor – Caernarfon reopenings.

I would be very glad to have a discussion with you on these important issues, and the forthcoming Williams Rail Review outcome, and I am also content for my officials and Transport for Wales to have any detailed discussion with your own officials on any of these schemes.

I am copying this letter to Members of the Senedd, the Secretary of State for Wales, and to the other Wales and Borders MPs to whom I copied my 2 March letter.

Yours sincerely,

Ken Skates AC/AM
Gweinidog yr Economi, Trafnidiaeth a Gogledd Cymru
Minister for Economy, Transport and North Wales

P-05-918 Gwella mynediad i'r anabl yng ngorsaf reilffordd Trefforest fel blaenoriaeth

Cyflwynwyd y ddeiseb hon gan Katie Phillips, ar ôl casglu 156 o lofnodion ar-lein a 72 ar bapur, sef cyfanswm o 228 o lofnodion.

Geiriad y ddeiseb:

Rydym yn galw ar Gynulliad Cenedlaethol Cymru i annog Llywodraeth Cymru i flaenoriaethu uwchraddio Gorsaf Reilffordd Trefforest i alluogi myfyrwyr anabl i gael mynediad i Brifysgol De Cymru mewn modd cynaliadwy a chydag urddas.

Gorsaf reilffordd Trefforest yw'r prif fynediad o ran trafnidiaeth gyhoeddus i Brifysgol De Cymru. Mae Trafnidiaeth Cymru wedi addo buddsoddi mewn gorsafoedd rheilffordd ledled Cymru fel rhan o raglen wella 15 mlynedd ond, i lawer o bobl ifanc anabl sy'n dymuno cael mynediad i addysg brifysgol yn annibynnol, bydd y gwelliannau hyn yn rhy hwyr.

Mae'r trefniadau presennol yn yr or saf yn golygu bod yn rhaid i bobl anabl alw am help ac yna aros i staff yr or saf fwy na lai eu cario ar draws y bont droed. Mae hyn yn amhriodol ac yn is na'r safonau mynediad y dylem eu disgwyl ar gyfer pobl anabl yn yr 21ain ganrif. Rydym ni sydd wedi llofnodi isod yn gofyn i Gynulliad Cenedlaethol Cymru annog Llywodraeth Cymru i flaenoriaethu gwelliannau i or saf Trefforest, yn benodol i ddarparu mynediad addas i bobl anabl.

Gwybodaeth ychwanegol:

Dechreuodd y prif ddeisebydd y ddeiseb hon ar ôl bod yn dyst i'r darpariaethau mynediad i'r anabl cyfredol ar waith yn ystod wythnos gyntaf y tymor. Methodd y ddarpariaeth yr hyn y byddai am ei weld ar gyfer ei ffrindiau a'i theulu ag anableddau, yn enwedig y rhai na fyddai'r ddarpariaeth bresennol yn ddigonol ar eu cyfer.

Mae Deddf Cydraddoldeb 2010 yn gwneud darpariaeth ar gyfer gwneud addasiadau rhesymol i alluogi pobl anabl i gael mynediad at addyssg, cyflogaeth a gwasanaethau eraill. O ystyried y cyhoeddiad gan Trafnidiaeth Cymru am welliannau a gynlluniwyd, mae'n ymddangos yn gwbl resymol i'r or saf allweddol hon fod yn flaenoriaeth, cyn derbyn y garfan nesaf o fyfyrwyr a fydd yn dechrau eu haddysg brifysgol ym mis Medi 2020.

17 Mawrth 2020

Amgyl Janet.

Diolch am eich llythyr dyddiedig 16 Rhagfyr ynglŷn â 'Deiseb P-05-918 – Gwella mynediad i'r anabl yng Ngorsaf Drenau Trefforest fel blaenoriaeth'. Hoffwn ymddiheuro am yr oedi tra oedd fy swyddogion yn trafod y mater hwn â Thrafnidiaeth Cymru.

Mae Trafnidiaeth Cymru yn datblygu cynlluniau ar gyfer Gorsaf Drenau Trefforest, a fydd yn gwella'r trefniadau mynediad yn sylweddol ac yn darparu cyfleusterau gwell ar gyfer cwsmeriaid. Mae cynlluniau Trafnidiaeth Cymru yn cynnwys pont droed hygyrch newydd a chyfleusterau byrddio lefel a fydd yn rhoi mynediad at drenau o'r stryd heb ris. Disgwylir i'r gwaith adeiladu ar yr or saf ddechrau ym mis Medi. Ar hyn o bryd mae timau'n gwneud y gwaith paratoi a dylunio sydd ei angen cyn y gwaith adeiladu.

Mae'r gwaith yn Nhrefforest wedi'i integreiddio â rhaglen ehangach, fwy cymhleth o waith i drawsnewid y rhan hon o'r rhwydwaith rheilffyrdd (a adwaenir fel 'Leiniau Craidd y Cymoedd) fel rhan o Brosiect Metro De Cymru. Mae hwn yn brosiect uchelgeisiau gwerth miliynau o bunnoedd, a bydd cynlluniau presennol Trafnidiaeth Cymru yn cymryd tua phum mlynedd i'w cwblhau. Mae gan Drafnidiaeth Cymru gryn waith adeiladau, peirianeg a seilwaith i'w wneud i uwchraddio ein rhwydwaith rheilffyrdd er mwyn sicrhau ei fod yn barod am wasanaethau metro. Mae'r gwaith hwn yn cynnwys trydaneiddio'r rheilffordd, uwchraddio'r holl orsafoedd a systemau signalau, ac adeiladu gorsafoedd newydd.

Mae'r amserlen ar gyfer Gorsaf Drenau Trefforest yn ystyried amrediad eang o ffactorau, gan gynnwys effaith y gwaith arfaethedig ar y system drafnidiaeth, argaeedd y rheilffordd ar gyfer ei feddianu/cau er mwyn cwblhau'r gwaith, ac argaeedd timau ac adnoddau eraill i wneud y gwaith.

Pan fydd yn barod, bydd y Metro yn darparu gwasanaethau i gwsmeriaid sy'n gyflymach, yn fwy rheolaidd ac yn well ar gyfer yr amgylchedd, ar drenau metro modern, cyfforddus a hygyrch.

Rydym yn croesawu derbyn gohebiaeth yn Gymraeg. Byddwn yn ateb gohebiaeth a dderbynir yn Gymraeg yn Gymraeg ac ni fydd gohebu yn Gymraeg yn arwain at oedi.

Tudalen y pecyn 222

We welcome receiving correspondence in Welsh. Any correspondence received in Welsh will be answered in Welsh and responding in Welsh will not lead to a delay in responding.

Yn y cyfamser, mae cymorth yn cael ei roi gan yr archwiliwr tocynnau ar y trê, sy'n gallu darparu ramp ar gyfer cael mynediad at y trê. Mae Platfform 2 yn hygrych i ddefnyddwyr cadeiriau olwyn a sgwteri symudedd modur.

Mae Trafnidiaeth Cymru eisoes wedi dechrau gwaith ar wella mynediad at rwydwaith rheilffyrdd Cymru a'r Gororau. Maent wedi recriwtio Rheolwr Mynediad a Chynhwysiant i helpu i gyflawni gwelliannau hanfodol i wneud gwasanaethau mor hygrych ac mor hawdd eu defnyddio ag y bo modd i bobl sydd â phroblemau symudedd, ac i sicrhau eu bod yn gallu defnyddio gwasanaethau'n hyderus ac mor didrafferth â phosibl. Mae hefyd wedi sefydlu panel hygrychedd sy'n cynrychioli llawer o fathau o anabledd ar draws Cymru a'r Gororau. Mae'r panel yn helpu i wneud penderfyniadau polisi a byddant yn cael eu gwahodd i gymryd rhan yn y gwaith o brofi dyluniad y cerbydau newydd i sicrhau eu bod yn hygrych i bobl ac amrediad eang o anghenion.

Mae Trafnidiaeth Cymru yn gweithredu Tîm Teithio â Chymorth i helpu teithwyr i archebu teithiau â chymorth, i gadw sedd neu le ar gyfer cadair olwyn ac i ofyn unrhyw gwestiynau am hygrychedd gorsafoedd a threnau. Caiff teithwyr ffonio'r Tîm Teithio â Chymorth ar 033 300 50 501, rhwng 8am a 8pm, bob dydd ond Dydd Nadolig. Os yw teithwyr yn archebu teithiau â chymorth ymlaen llaw, gall Trafnidiaeth Cymru drefnu i archwiliwr tocynnau neu staff gorsaf eu helpu i fynd i mewn ac allan o'r trê. Gallant drefnu'r canlynol:

- Ramp i helpu teithwyr i fynd i mewn ac allan o'r trê
- Tywys teithwyr drwy'r orsaf ac i mewn ac allan o'r trê
- Dod o hyd i sedd ar y trê ar gyfer teithwyr
- Cadw sedd neu le ar gyfer cadair olwyn, os yw hyn yn bosibl, ar wasanaethau Trafnidiaeth Cymru neu gwmnïau trenau eraill.
- Cymorth i drefnu cysylltiadau â threnau cwmnïau eraill ar yr un pryd ag archebu tocynnau gan Drafnidiaeth Cymru.
- Cymorth gyda bagiau.

**P-05-918 Improve disabled access to Treforest train station as a priority,
Correspondence – Petitioner to Committee, 15.06.20**

Thank you for your time in considering and looking into my petition regarding the disabled access at the Treforest Railway Station. I am glad to hear that improvements for this station and its accessibility have been planned and will begin to take place in September, enabling them to benefit many students who shall be beginning their studies in this coming academic year. I'm sure it will help those who are less able to travel confidently and independently furthering their education at the University of South Wales and allow them to travel to Treforest train station.

Many thanks,
Katie
