Inquiry into the impact of the Covid-19 outbreak on
children and young people in Wales

COV - 18
Response from: Individual

I'm 10 years old and my name is XXXXXX.

I am fine with the coronavirus and it seems sad but I'm fine with it because children don't get affected by it so I won't be really ill or anything. Even if I did have it I wouldn't mind because it goes in two weeks and I love staying at home so I would be more than happy staying in my house. The only sad thing is that I can't have my friends come over to my house or vice versa. I can chat with them but most times they aren't online or busy so it's really sad. Conclusively though I don't mind it too much and I know the world doctors are working frontline for ages every day.
