

## Consultation on the Curriculum and Assessment (Wales) Bill

Evidence submitted to the [Children, Young People and Education Committee](#) for Stage 1 scrutiny of the Curriculum and Assessment (Wales) Bill.

### About you

Individual

### 1. The Bill's general principles

#### 1.1 Do you support the principles of the [Curriculum and Assessment \(Wales\) Bill](#)?

No

#### 1.2 Please outline your reasons for your answer to question 1.1

*(we would be grateful if you could keep your answer to around 1500 words)*

1. RSE is being mandated for with little explanation or documentation to back up this huge & important change.
2. There is evidence of a global roll out of sexuality Education which I believe you people are unaware of, if you are aware then I am afraid you are complicit in child sexual exploitation, this is not welcome in our country and is also a criminal offence.
3. The evidence to support the global roll out was carried out on mostly third world countries.
4. Explanatory notes refer to England where a pilot scheme began encouraging sexual stimulation in 4 year olds, this package is directly from The United Nations, but you guys should already know this, why else would you risk this behaviour or mandate for such a subject from age 3.
5. Lack of Safeguarding & widespread training, therefore a negligent service throughout.
6. Mandated subjects are English, Welsh, RVE & RSE, do you honestly believe these 4 subjects are relevant for adult life & how to function in society? It is a load of nonsense.

7. The Bill makes no provision for parents to be able to withdraw their children from RVE or RSE. I believe this is a breach of parents' rights to respect for their religious and philosophical convictions under Article 2 Protocol 1 (right to education) and their right to freedom of thought, conscience and religion under Article 9 of the European Convention on Human Rights.

8. You forgot to inform parents that children have sexual and reproductive rights. Part of this RSE is for children to exercise these rights over parents, I'm not sure you even know these exist.

### **1.3 Do you think there is a need for legislation to deliver what this Bill is trying to achieve?**

*(we would be grateful if you could keep your answer to around 500 words)*

Yes, we are taking you to court if you do not remove RSE from the mandatory element.

RSE is part of a well-documented global roll out of sexuality education, scientific evidence points to models of child sexual exploitation.

The Bill makes no provision for parents to be able to withdraw their children from RVE or RSE. I believe this is a breach of parents' rights to respect for their religious and philosophical convictions under Article 2 Protocol 1 (right to education) and their right to freedom of thought, conscience and religion under Article 9 of the European Convention on Human Rights.

## **2. The Bill's implementation**

### **2.1 Do you have any comments about any potential barriers to implementing the Bill? If no, go to question 3.1**

*(we would be grateful if you could keep your answer to around 500 words)*

Yes, we are taking you to court if you do not remove RSE from the mandatory element.

## **2.2 Do you think the Bill takes account of these potential barriers?**

*(we would be grateful if you could keep your answer to around 500 words)*

Yes, we are taking you to court if you do not remove RSE from the mandatory element.

RSE is part of a well-documented global roll out of sexuality education, scientific evidence points to models of child sexual exploitation.

## **3. Unintended consequences**

### **3.1 Do you think there are there any unintended consequences arising from the Bill? If no, go to question 4.1**

*(we would be grateful if you could keep your answer to around 500 words)*

Yes, RSE is part of a well-documented global roll out of sex education, this education does not suit our country by way of legislation, research, nor does it take into account local issues. A policy from Swansea cannot be applied to London yet a global roll out of sinister sex education entails?

## 4. Financial implications

**4.1 Do you have any comments on the financial implications of the Bill (as set out in Part 2 of the [Explanatory Memorandum](#))? If no, go to question 5.1**

*(we would be grateful if you could keep your answer to around 500 words)*

How much public money will be wasted on a court battle? I would like to see the people responsible stand by their convictions & pay for the fallout themselves, but we all know that will never happen.

## 5. Powers to make subordinate legislation

**5.1 Do you have any comments on the appropriateness of the powers in the Bill for Welsh Ministers to make subordinate legislation (as set out in Chapter 5 of Part 1 of the [Explanatory Memorandum](#)). If no, go to question 6.1.**

*(we would be grateful if you could keep your answer to around 500 words)*

Wholly inappropriate based on the RSE element & no opt out provision.

I believe this is a breach of parents' rights to respect for their religious and philosophical convictions under Article 2 Protocol 1 (right to education) and their right to freedom of thought, conscience and religion under Article 9 of the European Convention on Human Rights.

## 6. Other considerations

**6.1 Do you have any other points you wish to raise about this Bill?**

*(we would be grateful if you could keep your answer to around 1000 words)*

Neither of you are qualified to make this call. You have hidden from our questions; some have denied all knowledge of this & blocked constituents. We will see you in court.
