17 January 2015

Dear Peter,

Following your question to the First Minister on Tuesday 13 January and further to your correspondence with me on 29 October 2014 I write with an update on service development plans for patients with NET Cancers.

As you will be aware the Welsh Health Specialised Services Committee (WHSSC) task and finish group has been looking at the model for the delivery of services to NET patients in South Wales. This group has included representation from the NET Patient Foundation to ensure the patients' priorities are considered in the proposed model. I understand following a meeting in December further engagement on the proposals of the group is being undertaken with a wider audience, including patients in other groups. I know your constituent Yolanda Mears has been engaged in this process. Final recommendations of the group will be considered at the WHSSC Joint Committee in March

I hope this information is helpful.

Best wishes,

Mark.
