

Health and Social Care Committee
Human Transplantation (Wales) Bill
HT(Ind)106 - L. J. C. Coventry

Dear Sir/Madam

Why is the Welsh Government putting so much time and money into changing the law instead of providing more resources?

Other people will die because "patients will be refused admission to the ITU because the bed is occupied by a potential doner" (Faculty of Intensive Care Medicine, London in its submission to January 2012 consultation).

Yours faithfully,

LJC Coventry
