Environment and Sustainability Committee
WFG TA 3
Well-being of Future Generations (Wales) Bill
Response from Mike Pitt

Dear Environment and Sustainability Committee,

Here are my comments/requests on the Well-Being of Future Generations (Wales) Bill (out for consultation at present.

- please include targets to reduce emissions of greenhouse gases, since climate change is a major risk to future generations
- please allow for the same level of well-being of future generations in other countries in Wales policies (e.g. impact of Wales purchasing decisions), so that Wales' well-being is not achieved at the expense of others
- please make sure the Bill is not just a list of worthy aims and broad principles - it should be worded robustly enough to actually make a difference to real planning decisions.
- please explicitly set targets regarding :
 - reversing biodiversity loss
 - reversing loss of Wales food-crop pollinators

Thanks, Regards,
