WFG TA 14
Well-being of Future Generations (Wales) Bill
Response from Lyndsey Maiden

Dear Environment and Sustainability Committee,

I support the campaign for a strong Well-being of Future Generations Bill. I would like to see the Bill strengthened by:

- Adding in targets to reduce emissions of greenhouse gases
- Including a strong duty on public bodies to aim to achieve sustainable development in everything they do
- Adding a clear definition of sustainable development
- Properly considering the impact Wales has on people and the environment overseas
- Boosting the powers of the Commissioner and making the role accountable to Assembly Members rather than Welsh Ministers

Our environment is our gift to future generations and we are currently leaving an environmental deficit which could leave our planet in such a state as to be uninhabitable, now is the time to act and show the rest of the British Isles how it's done!

Please consider my views as you scrutinise the legislation over the coming weeks.

Yours sincerely
