

Dear sirs

I apologise for the delay in replying, but I have been waiting on information from Aneurin Bevan and Hywel Dda Health boards, that have failed to comply with the freedom of information act.

In the last 5 years there have been a total of 529 paediatric patients (between Abertawe Bro Morgannwg University, Betsi Cadwaladr University, Cardiff & Vale University and Cwm Taf Health Boards) that could have benefited from a paediatric neuro-rehabilitation centre in Wales. Powys Teaching Health Board do not have any paediatric services which, although is concerning in itself, does not have any impact on this petition.

Yours faithfully

***Katherine Simmons***
