Question	Answer
01	Yes
02	Yes
03	Yes
04	Yes
09	Yes
10	Yes
12	It seems that the lower the IQ the more help is available. High functioning autistic people are very vulnerable also. It seems that if an autistic person can talk and has average or above average intelligence, the perception is they don't need any help. In fact high functioning ASD probably needs more intervention because difficulties are not obvious.
13	Yes
14	All of the above plus some sort of personal profile of what strengths/difficulties, likes and dislikes they have
15	It should be written on the Bill.
16	Yes
17	It should happen all the time.
19	• child and family need support before diagnosis as the process can take years, even if people are reluctant to label a child, they should still be able to access the help relevant to their difficulties. So many times I asked for help and was refused as m
