

Bil Anifeiliaid Gwyllt a Sycrasau (Cymru) | Wild Animals and Circuses (Wales) Bill
WA 21

Ymateb gan : Unigolyn

Evidence from : Individual

I object to the proposed ban on the grounds that there is NO evidence from DEFRA to show that there is any reason for concern regarding the treatment and welfare of circus animals.

The Circuses involved have passed all inspections by DEFRA's licensing body.

The fact that this act has already been passed in England with no justification is very worrying and will surely impact on other areas in the very near future, even down to domestic pets.

I hope you will fight against this miscarriage of justice and discrimination.
