

P-05-754 Lack of support for children with disabilities at crisis (the is a crisis team but do not support children with disabilities), Correspondence – Petitioner to Committee, 21.01.20

I am extremely sorry for the last minute delay. [REDACTED] has once again been in crisis over the last 8 weeks and still on going. This crisis has been the worse yet.

I also apologise for the miss understanding with regards to a meeting. A meeting did take place, however as there has been communication from the committee to myself (none of which from Cwm Taff Health board) since that particular meeting, I thought that the meeting in question was the follow up meeting that I was promised as well as being invited to a chair meeting.

From that particular meeting I was told that there would be following discussions/meetings, even some sort of communication/outcome. I am however still awaiting on the above.

I was also asked permission to be filmed to express our circumstances - pain/struggles. I complied and was filmed. Again I have had no outcome/correspondence since.

Thank you,
